American Smuggling as White Collar Crime Lawrence Karson,2014-06-27 When Edwin Sutherland introduced the concept of white collar crime he referred to the respectable businessmen of his day who had in the course of their occupations violated the law whenever it was advantageous to do so Yet since the founding of the American Republic numerous otherwise respectable individuals had been involved in white collar criminality Using organized smuggling as an exemplar this narrative history of American smuggling establishes that white collar crime has always been an integral part of American history when conditions were favorable to violating the law This dark side of the American Dream originally exposed itself in colonial times with elite merchants of communities such as Boston trafficking contraband into the colonies It again came to the forefront during the Embargo of 1809 and continued through the War of 1812 the Civil War nineteenth century filibustering the Mexican Revolution and Prohibition The author also shows that the years of illegal opium trade with China by American merchants served as precursor to the later smuggling of opium into the United States The author confirms that each period of smuggling was a link in the continuing chain of white collar crime in the 150 years prior to Sutherland s assertion of corporate criminality *The New International Encyclopedia* ,1922 *The Cultural History of War in the Twentieth Century and After* Jay Winter,2022-08-25 This Element is a user s guide to the cultural history of warfare since 1914 It provides summaries of the basic questions historians have posed in what is now a truly global field of research It is divided into three parts The first provides an introduction to the cultural history of the state focusing on the institutions of violence both political and military as well as introducing the key concept of the civilianization of war The second part addresses civil society at war It asks the question as to how do men and women try to make sense and attach meaning to the violence and cruelty of war It also explores commemoration religious life humanitarianism painting cinema and the visual arts and war literature and testimony The third part explores the family gender and migration in wartime and shows how modern war continues to transform the world in which we live today
