Traditions In Discipline:

The Tree of Tradition Nicholas Hagger, 2024-05-31 All writers and thinkers and their works are in a tradition that preceded them In *The Tree of Tradition* Nicholas Hagger sets out a way for all writers and thinkers to be more aware of the traditions and influences that have shaped their works in all subjects and disciplines in all civilisations using short personal reflections on how influences shaped his own works as an example Each discipline has metaphysical and secular traditions and Hagger's *A New Philosophy of Literature* set out the fundamental theme of world literature as a perennial conflict between a Romantic individual quest for Reality the One and a classical condemnation of social follies and vices Hagger's 60 Universalist works are innovatory in seeing the ultimate unity of the universe of all disciplines and of humankind and in reconciling Romanticism and Classicism within a unity he calls Baroque A Universalist writer is influenced by many sub traditions and Hagger particularises the traditions and sub traditions that have inspired or influenced his works in seven disciplines mysticism literature philosophy and the sciences history comparative religion international politics and statecraft and world culture and in the seven branches of literature in which he has written his works poems and poetic epics verse plays and masques short stories diaries autobiographies letters and his statement of the fundamental unity of world literature which he symbolises in a stag's two seven branched antlers This is an inspirational book that throws light on the traditions and influences behind all works in all disciplines and civilisations and the 109 traditions and 84 influences behind Hagger's Universalist works Discipline and History James Farr, Raymond Seidelman, 1993 Historical panorama of views about the state of political science as a discipline **Traditions and Customs of the Indian Armed Forces** Chand N. Das, 1984

Child Abuse and Culture Lisa Aronson Fontes, 2005-01-06 Highly readable and accessible this expertly written book provides a framework for culturally competent practice with children and families in child maltreatment cases Numerous workable strategies and concrete examples are presented to help readers address cultural concerns at each stage of the assessment and intervention process Professionals and students learn new ways of thinking about their own cultural viewpoints as they gain critical skills for maximizing the accuracy of assessments for physical and sexual abuse overcoming language barriers in parent and child interviews building rapport with clients from diverse cultural groups respecting families values and beliefs while ensuring children's safety collaborating with clergy extended family members and others in the client's support system and creating an agency environment that is welcoming and respectful to all Oral Traditions as Philosophy Sam O. Imbo, 2002 *Oral Traditions as Philosophy* is a study of the Ugandan poet and cultural critic Okot p Bitek In his poems and critical essays Okot engages with the oral traditions of his people the songs dances funeral dirges and so forth seeing them as manifestations of the people's philosophy of life Imbo's book makes explicit the philosophical questions raised in Okot's work and places them within the wider picture of contemporary African philosophy **Appleton's Magazine**, 1903 **Traditions of Controversy** Marcelo Dascal, Han-liang Chang, 2007-11-21 Controversies may be particularly

prominent in one or another culture Yet there is hardly any culture where they do not exist This book assumes that the practice of controversy along with its theorization constitutes in each of the cultures and disciplines where it develops a tradition Whether there are enough shared elements in these traditions to consider them as fundamentally universal or not is something that can only be determined on the basis of a rich sample of controversies and theorizations thereof belonging to different traditions This is what this volume provides to the reader By presenting side by side controversies from the East and from the West from the ancient past up to the present from different domains of scholarship and action the reader is in a position not only to admire the widespread nature role and richness of the phenomenon but also to begin to evaluate its variety as well as universality While the editors have purposefully avoided comparative studies of traditions of controversy in order to focus on each tradition so to speak from its practitioners point of view some of the chapters take a bird s eye view and exemplify how such studies can be systematically conducted In a world that is globalizing itself at a fast pace the awareness of the multiplicity of traditions of controversy is fundamental for ensuring both that the integration of the various perspectives is harmonious and that each one of them is granted its place in a plural universe

The Booklovers Magazine ,1903 Traditions of the Indian Army Dharm Pal,1961 **Excluded Ancestors, Inventible Traditions**

Richard Handler,2000-11-16 History making can be used both to bolster and to contest the legitimacy of established institutions and canons Excluded Ancestors Inventible Traditions seeks to widen the anthropological past and in doing so to invigorate contemporary anthropological practice In the past decade anthropologists have become increasingly aware of the ways in which participation in professional anthropology has depended and continues to depend on categorical boundaries of race class gender citizenship institutional and disciplinary affiliation and English language proficiency Historians of anthropology play a crucial role interrogating such boundaries as they do they make newly available the work of anthropologists who have been ignored Excluded Ancestors Inventible Traditions focuses on little known scholars who contributed to the anthropological work of their time such as John William Jackson the members of the Hampton Folk Lore Society Charlotte Gower Chapman and Lucie Varga In addition essays on Marius Barbeau and Sol Tax present figures who were centrally located in the anthropologies of their day A final essay analyzes notions of the canon and considers the place of a classic ethnographic area highland New Guinea in anthropological canon formation
