shared *Handbook of Research on Sustainability Challenges in the Wine Industry* Marco-Lajara, Bartolomé, Gilinsky,
Armand, Martínez-Falcó, Javier, Sánchez-García, Eduardo, 2023-04-18 In the wine industry sustainability is an extremely
important issue for two main reasons Firstly the industry faces serious threats as a consequence of climate change as well as
water and energy scarcity Secondly proper sustainable management of wineries can mean obtaining a competitive advantage
by allowing them to increase market share and organizational innovation processes In this sense previous work has shown

that customers tend to select wines that have been developed following sustainable practices despite not knowing what this means in practice The Handbook of Research on Sustainability Challenges in the Wine Industry serves as a guide for study reflection and critique to understand sustainability in the wine industry in its triple aspect economic social and environmental The book sheds light on the new trends and challenges of the wine industry making it a must read for academicians and managers who want to deepen their knowledge of the wine industry as well as its link with sustainability Covering key topics such as wine tourism green innovation and consumer behavior this major reference work is ideal for industry professionals business owners managers entrepreneurs researchers scholars academicians practitioners instructors and students
