Intersections of Diversity, Literacy, and Learner Difficulties Theresa Abodeeb-Gentile, Dennis A. Conrad, 2022-08-22 This book invites readers to challenge corroborate and add to the discourse on more inclusive pedagogical practice

Presenting theoretically and empirically informed research it highlights potential considerations regarding the intersections of diversity literacy and learner difficulties These three areas provide a stage where opposing paradigms often pose challenges for educators and create unnecessary barriers to providing the best education for all learners These barriers might reveal how students are positioned through a deficit lens rather than one that recognizes individual differences and how these learner differences sometimes result in labels or put students at increased risk of encountering difficulties The contributing authors goals are to start and sustain a conversation that examines these perspectives and to offer counter narratives to the deficit lens by recognizing that individual difference does not need to be a barrier to educational access By examining opportunities for more inclusive educational success this book encourages discourse among key stakeholders further it goes beyond problematizing to offer new avenues for optimal learning and inclusive pedagogy across multiple contexts
