But leaf through the book or better yet get Brown and Choukas Bradley to take you on a tour and you realize that while the rest of the world has been looking at Sugarloaf through a telescope this intrepid pair has been using a magnifying glass. Their record of these trees and wildflowers has become one of the most complete guides to local upland flora available and they hope it will be used not just in other natural areas but in back yards where people want to raise native plants themselves. Washington Post In between a field guide and a botanical manual Choukas Bradley and Brown have created a must have to tote into the woods of Sugarloaf Mountain. The authors have included every flowering plant they observed during ten years of extensive hiking and

exploration on Sugarloaf This guide would be useful to any naturalist serious or casual venturing into the wilds of the Northeastern United States and adjacent Canada E Streams This book contains an easy to use non technical botanical key for flowering plants herbaceous and woody alike The author describes each plant and its individual parts all related species and details on the plant s growth habit its natural range and habitat its bloom time and where it can be found on Sugarloaf Mt Solidago The Newsletter of the Finger Lakes Native Plant Society A thorough yet user friendly companion to the authors popular paperback Sugarloaf The Mountain s History Geology and Natural Lore this volume is an exquisitely illustrated guide to 350 eastern woodland wildflowers and trees found onsite at Sugarloaf Mountain Maryland It includes a botanical key and an illustrated glossary of common and scientific names and is packed with nearly 400 elaborately and artistically detailed pen and ink drawings to make plant identification simple and fun Melanie Choukas Bradley is the author of City of Trees The Complete Field Guide to the Trees of Washington D C and a longtime contributor to the Washington Post She teaches field botany for the USDA Graduate School Tina Thieme Brown has worked as a landscape artist and environmentalist for twenty five years She teaches art at the U S Botanic Garden is an artist on the Countryside Artisans Studio Tour and creates art inspired by the Sugarloaf Mountain countryside in her 1790s log cabin studio Choukas Bradley and Brown lead Sugarloaf Mountain field trips for the Audubon Naturalist Society of the Central Atlantic States and other organizations Published in association with the Center for American Places *National Geographic Illustrated Guide to Nature* ,2013 This comprehensive nature field guide introduces you to constellations and weather rocks and minerals plants and wildflowers and trees and shrubs **Divining, a Memoir in Trees** Maureen Dunphy,2023-02-21 Essays exploring the intimate yet universal intersection of one human life with trees A 2024 selection by the Sierra Club Wisconsin Chapter Book Club Finalist for the Midwest Book Awards In sixteen essays each named after a species of tree Maureen Dunphy explores the nature of human arboreal relationships and how each of these trees has literally served as a friend a confidante or a place to rest The depth and diversity of these relationships are revealed through essays that are both intimate and universal moving and informative While Dunphy s relationships with trees are unique and personal her work reveals the deep rooted complexity that connects all of humanity to our staunch upright companions in life the members of the Standing Nation Beyond providing oxygen food and shelter trees can be sites of emotional refuge sources of intellectual enrichment and a boon to physical mental and spiritual health With essays such as Stairway to Heaven The American Sycamore and Rocky Mountain High The Colorado Pinyon Dunphy gives readers many ways to reimagine our relationships with nature and self Within reflections of her personal experience she skillfully integrates scientific facts to achieve a balance of passion and practicality While technology screens and the stress of the modern world directs our attention elsewhere Dunphy brings the reader back to the trees right outside our windows 1906 San Francisco Earthquake Centennial Field Guides Carol S. Prentice,2006-01-01 The twenty field trip guides in this volume represent the work of earthquake professionals from the

earth science engineering and emergency management communities The guides were developed to cross the boundaries between these professions and thus reflect this diversity trips focus on the built environment the effects of the 1906 earthquake the San Andreas fault and other active faults in northern California *Guide to Standard Floras of the World* David G. Frodin, 2001-06-14 This 2001 book provides a selective annotated bibliography of the principal floras and related works of inventory for vascular plants The second edition was completely updated and expanded to take into account the substantial literature of the late twentieth century and features a more fully developed review of the history of floristic documentation The works covered are principally specialist publications such as floras checklists distribution atlases systematic iconographies and enumerations or catalogues although a relatively few more popularly oriented books are also included The Guide is organised in ten geographical divisions with these successively divided into regions and units each of which is prefaced with a historical review of floristic studies In addition to the bibliography the book includes general chapters on botanical bibliography the history of floras and general principles and current trends plus an appendix on bibliographic searching a lexicon of serial abbreviations and author and geographical indexes *Midwestern Native Shrubs and Trees* Charlotte Adelman, Bernard L. Schwartz, 2017-03-30 In this companion volume to the bestselling *The Midwestern Native Garden* Native Alternatives to Nonnative Flowers and Plants Charlotte Adelman and Bernard L. Schwartz offer another indispensable guide to replacing nonnative plants with native alternatives This time their subject is the native woody species that are the backbone of our gardens and landscapes Among other ecological benefits native shrubs and trees provide birds and butterflies with vital food and reproductive sites that nonnative species cannot offer And they tend to be hardier and easier to maintain The authors provide a comprehensive selection of native woody alternatives that season by season provide effects similar to those of nonnative shrubs and trees used for ornamental purposes and shade These plants are suitable for all garden styles provide blooms and fall color and have the same cultivation requirements as their nonnative counterparts Nature notes alert readers to the native species unique ecological roles Unlike other gardening guides *Midwestern Native Shrubs and Trees* goes beyond mere suggestion to provide gardeners with the tools they need to make informed thoughtful choices Knowing which native species to plant for desired effects empowers landscapers and gardeners to take on a greater role in protecting our midwestern environment **Michigan Botanist** ,2012
