John Bodley

Trilateralism The Trilateral Commission And Elite Planning For World Management:

Trilateralism Holly Sklar, 1980 This is a classic work a highly readable wide ranging study of the Trilateral Commission and the worldwide strategies of Trilateralism It demystifies national and international events power propaganda and policy making from World War II through the sixties and seventies and into the eighties

The Power of Scale: A Global History Approach John Bodley, 2015-06-01 Throughout history the natural human inclination to accumulate social power has led to growth and scale increases that benefit the few at the expense of the many John Bodley looks at global history through the lens of power and scale theory and draws on history economics anthropology and sociology to demonstrate how individuals have been the agents of social change not social classes Filled with tables and data to support his argument this book considers how increases in scale necessarily lead to an increasingly small elite gaining disproportionate power making democratic control more difficult to achieve and maintain

New Rules for Global Markets S. Schirm, 2004-02-29 Which rules will shape globalization in the Twenty first century This collection looks at the need for new rules and the divergence of national attitudes towards global economic governance It covers the role of states in negotiating international trade in regulating the banks and in promoting trilateralism It investigates the role of business by assessing its increased power in writing the rules for self regulation and in influencing the public sphere Also international organizations are analyzed as standard setters and regional institutions are examined as blueprints for global governance

Routledge Encyclopedia of International Political Economy: Entries P-Z R. J. Barry Jones, 2001 This important new work is the first comprehensive reference to the rapidly developing field of international political economy IPE Featuring over 1200 A Z entries the coverage encompasses the full range of issues concepts and institutions associated with IPE in its various forms Comprehensively cross referenced and indexed each entry provides suggestions for further reading along with guides to more specialized sources Selected entries include African Development Bank benign neglect Black Monday casino capitalism debt management efficiency floating exchange rates General Agreement on Tariffs and Trade GATT information society economy Organization of Petroleum Exporting Countries OPEC Microsoft multinational corporations definitions NATO patents rent seeking Schellin Thomas tax havens trusts Value Added Tax VAT zero sum games and many more

Global Energy Security and American Hegemony Doug Stokes, Sam Raphael, 2010-06-07 This analysis of the United States and energy security examines the close relationship between US military supremacy in oil rich regions and America's maintenance of global power Energy security generally evokes thoughts of American intervention in the Middle East to protect US interests in that region's oil rich fields Doug Stokes and Sam Raphael move beyond that framework to consider US actions in Latin America Central Asia and Africa Drawing on State and Defense Department records and other primary sources and previous scholarship they show how US foreign policy since World War II has sought to maintain a global energy security regime that supports the nation's allies while maintaining American hegemony Stokes and Raphael explain how US intervention in energy

rich states insulates and stabilizes those nations transnationally oriented actors and political economies and why American oil diversification strategy strengthens the country's position against rivals in the global capitalist system They argue that counterinsurgency aid and other types of coercive US statecraft protect the recipient states from an array of potentially revolutionary armed and unarmed internal social forces thereby securing the energy supplies of nations deemed strategically important to the United States or its allies Clear and accessible this cutting edge contemporary policy analysis will engage scholars of US foreign policy and international relations as well as policymakers grappling with the importance of energy security in today's world

Presidential Faith and Foreign Policy W. Steding, 2014-11-19 This book explores the relationship between the religious beliefs of presidents and their foreign policymaking Through the application of a new methodological approach that provides a cognitive narrative of each president this study reveals the significance of religion's impact on US foreign policy

Conflict Transformation and the Palestinians Alpaslan Ozerdem, Chuck Thiessen, Mufid Qassoum, 2016-12-01 This book explores the challenges of transforming the violent conflict between the State of Israel and the Palestinians into just peace There are many challenges involved in the bottom up transformation of the violent structures that sustain the State of Israel's occupation of Palestinian territory This book examines these structures as it assesses the actors and strategies that are contributing to the termination of cycles of violence and oppression Consisting of contributions from both peace practitioners and academics who have conducted research within Israel and the occupied territory the volume utilises a multidisciplinary perspective to examine promising strategies for conflict transformation in Israel and the occupied Palestinian territory Moreover it spells out the types of nonviolent strategy that are being used to expose and undermine occupation structures and surveys the manner in which a variety of key actors are working towards the transformation of the ongoing conflict As a whole the volume presents a proposal for the transformation of the conflict between Palestinians and the State of Israel that embraces the constructive potential of conflict engages with power asymmetry and pushes for justice and accountability This book will be of much interest to students of conflict resolution peace studies Middle Eastern studies the Arab Israeli conflict and IR in general

The Dual State Eric Wilson, 2016-03-23 This volume presents a practical demonstration of the relevance of Carl Schmitt's thought to parapolitical studies arguing that his constitutional theory is the one best suited to investing the deep state with intellectual and doctrinal coherence Critiquing Schmitt's work from a variety of intellectual perspectives the chapters discuss current parapolitical reality within the domain of criminology the parapolitical nature of both the dual state and the national security state corporate complex Using the USA as a prime example of the world's current dual or deep political state the criminogenic dimensions of the parapolitical systems of post 9/11 America are discussed Using case studies the dual state is examined as the causal factor of inexplicable parapolitical events within both the developed and developing world including Sweden Canada Italy Turkey and Africa

Coexisting Contemporary Civilizations Guy Ankerl, 2000 Some important questions are discussed in this book

Are there any civilisations other than the Western one living in our so called Global Age Eastern civilisation Is the concept of East anything more than non West Or does there exist in reality a distinct Chinese Indian Arabo Muslim and Western civilisation Is the construction of large civilisation states such as China and India an unparalleled historical achievement Do economic ties always eclipse other forms of affiliation such as those formed through kinship or between speech communities What is the role of the Latin and the Jewish Peoples in our Anglo American led Western world Is English today the global language or merely an international one Is the Chinese thought pattern closely related to its writing system Is today s world one of symmetrical interdependence Or rather one of hegemony If the so called North South or East West dialogue fails in constructing a universally accepted world civilisation then what is the appropriate arrangement for reaching such a consensus within humankind

America's Other War Doug Stokes,2008-02-29 This controversial book maintains that in Colombia the US has long supported a pervasive campaign of state violence directed against both armed insurgents and a wide range of unarmed progressive social forces While the context may change from one decade to the next the basic policies remain the same maintain the pro US Colombian state protect US economic interests and preserve strategic access to oil Colombia is now the third largest recipient of US military aid in the world and the largest by far in Latin America Using extensive declassified documents this book shows that the so called war on drugs and now the new war on terror in Colombia are actually part of a long term Colombian war of state terror that predates the end of the Cold War with US policy contributing directly to the human rights situation in Colombia today

The New Imperial Order Makere Stewart-Harawira,2013-07-18 This important book discusses the political economy of world order and the basic ideological and ontological grounds upon which the emergent global order is based Starting from a Maori perspective it examines the development of international law and the world order of nation states In engaging with these issues across macro and micro levels the international arena the national state and forms of regionalism are identified as sites for the reshaping of the global politico economic order and the emergence of Empire Overarching these problematics is the emergence of a new form of global domination in which the connecting roles of militarism and the economy and the increase in technologies of surveillance and control have acquired overt significance

Tourism and Sustainability Martin Mowforth,Ian Munt,1998 Introduces students to the key concepts and challenges in this topical area by exploring and challenging the notion of sustainability and its relationship to contemporary tourism in the developing world

The Bilderberg Conspiracy: H. Paul Jeffers,2012-03-01 Masters Of The World Hidden behind many of today s major news stories the Bilderberg Group is an elite clique of the most powerful names in politics media business and finance who want to impose a one world government on the rest of us Led by such iconic members as Henry Kissinger Bill and Hillary Clinton Richard Perle Melinda Gates wife of Bill Gates David Rockefeller Paul Wolfowitz Donald Rumsfeld Tony Blair and Margaret Thatcher their secret conferences where press has long been banned are rumored to have engineered many of today s monumental global events including The

September 2008 collapse of worldwide banking Bill Clinton's presidency and the passage of NAFTA The loss of America's jobs to foreign nations The toppling of Margaret Thatcher for trying to keep the U K out of the E U Featuring interviews with meeting attendees The Bilderberg Conspiracy is essential and often terrifying reading for anyone interested in world events H Paul Jeffers reveals stunning insights about the Bilderberg Group Wars coups assassinations control of banking finance the media and education any means necessary to fulfill their agenda Michael Benson author of Inside Secret Societies H Paul Jeffers has published more than 50 works of fiction and nonfiction including Freemasons Inside the World's Oldest Secret Society biographies of presidents Theodore Roosevelt and Grover Cleveland New York mayor Fiorello LaGuardia Diamond Jim Brady and others He lives in Manhattan

Mozambique Hans Abrahamsson, Anders Nilsson, 1995-05 Analyzes the socio economic and political developments in Mozambique over the past 20 years documenting the transition from socialism to market capitalism Looks at international regional national and local factors and the prospects for pursuing such a strategy in a country with almost no indigenous capital owning and entrepreneurial class Paper edition unseen 25 00 Distributed by Humanities Annotation copyright by Book News Inc Portland OR

Servitors of Empire Darrell Hamamoto, 2014-08-01 Forcing a fundamental rethinking of the Asian American elite many of whom have attained top positions in business government academia sciences and the arts this book will be certain to generate a good deal of controversy and honest discussion regarding the role Asian Americans will play in the new century as China and India loom ever larger in the world economic system Not since the large scale infusion of scientists and engineers fleeing Nazi Germany has there been such a mass importation of intellectual labor from U S client states in Asia One of the specialized tasks assigned to this group is to build the technetronic infrastructure for the new world order command and control system Servitors of Empire is not intended to fan the flames of suspicion and paranoia aimed at Asian Americans but serves to illuminate the way in which highly trained knowledge workers are being employed to bring sovereign nations such as the United States under centralized rule made possible through advances in bioscience IT engineering and global finance

American Exception Aaron Good, 2022-06-21 American Exception seeks to explain the breakdown of US democracy In particular how we can understand the uncanny continuity of American foreign policy the breakdown of the rule of law and the extreme concentration of wealth and power into an overworld of the corporate rich To trace the evolution of the American state the author takes a deep politics approach shedding light on those political practices that are typically repressed in mainstream discourse In its long history before World War II the US had a deep political system a system of governance in which decision making and enforcement were carried out within and outside of public institutions It was a system that always included some degree of secretive collusion and law breaking After World War II US elites decided to pursue global dominance over the international capitalist system Setting aside the liberal rhetoric this project was pursued in a manner that was by and large imperialistic rather than progressive To administer this covert empire US elites created a massive national security state characterized by

unprecedented levels of secrecy and lawlessness The Global Communist Conspiracy provided a pretext for exceptionism an endless exception to the rule of law What gradually emerged after World War II was a tripartite state system of governance The open democratic state and the authoritarian security state were both increasingly dominated by an American deep state The term deep state was badly misappropriated during the Trump era In the simplest sense it herein refers to all those institutions that collectively exercise undemocratic power over state and society To trace how we arrived at this point American Exception explores various deep state institutions and history making interventions Key institutions involve the relationships between the overworld of the corporate rich the underworld of organized crime and the national security actors that mediate between them History making interventions include the toppling of foreign governments the launching of aggressive wars and the political assassinations of the 1960s The book concludes by assessing the prospects for a revival of US democracy

Corporate Power and Canadian Capitalism William K. Carroll, 2011-11-01 Challenging standard dependency theory William Carroll argues from empirical evidence that Canada's financial industrial elite have maintained and consolidated their competitive position at the centre of an inter corporate network Corporate Power and Canadian Capitalism thus acknowledges the unusually high degree to which capital is concentrated in a relatively few giant corporations in Canada but it denies that these commercial interests are subordinated to American corporate capital To test the validity of this new perspective on the transformation of indigenous capitalists into a national bourgeoisie Carroll traces the accumulation of capital in the largest Canadian corporations and the institutional relations that have existed among the same firms since World War II Instead of selling out to foreign capital Canadian firms have in fact become increasingly interlocked and Canadian controlled firms have been and continue to be the focus of both the industrial and financial sectors with foreign controlled companies occupying decidedly peripheral positions From this interpretative position Canada's development is seen as markedly similar to that of other advanced capitalist countries culminating in consolidation of control under an elite accompanied both by penetration of foreign economies by domestic financial capitalists and a concomitant penetration of the domestic economy by foreign capital

American Hegemony and the Trilateral Commission Stephen Gill, 1991-11-07 Dr Stephen Gill examines the extent and nature of America as a hegemonic state

Critical Perspectives on Globalization and Neoliberalism in the Developing Countries Richard Harris, Melinda Seid, 2021-10-01 This book gives a critique of the contemporary global capitalist system and the adverse consequences suffered by the developing countries as a result of their integration into this system The current neoliberal paradigm of capitalist development as the only or the best alternative for the economic social and political development of the developing countries is rejected The authors search for more human and ecologically sustainable alternatives focusing on Latin America Asia and women Contributors are David Barkijn Robert N Gwynne Richard L Harris Crist bal Kay Jorge Nef Mustapha Kamal Pasha Cathy A Rakowski Wilder Robles Melinda J Seid and John Weeks

Governance, Environment, and Sustainable Human

Development in Drc Nene Ndeti Mobimba, 2016-07-08 This book considers Congolese society in a broader framework of social and environmental dimensions. It explains to a large extent how these dimensions depend on governance and assesses the impact of governance on the indices of human development and quality of life. Our Environment Our Wealth is about environment for development to help fight against poverty. Protecting the environment is essential to attain a better life for the people. Whether it's about climate change, energy innovation for clean air, forest management, fresh water, or waste, the environment affects all areas of our lives. Although these phenomena are not new, interest in environmental issues has been renewed in recent years. Faced with such challenges, specialists capable of combining natural and social sciences and humanities are needed to understand the different factors involved in its development.
