Triumph over Darkness Lennard Bickel, 2025-02-03 First published in 1988, *Triumph over Darkness* is a stirring story of determination and tenacity in the face of adversity. Born in France in 1809, Louis Braille was the 4th child of a village saddler. At the age of three, he stabbed himself in the eye with a pointed tool taken from his father's workbench. Some 13 years later, he again took a sharp tool from the same bench and used it to create a code of raised dots punched through sheets of paper. With the patience of genius, he perfected his code, still unsurpassed and fashioned an alphabet that opened the world of learning to the blind. Louis Braille died at the age of 43, unknown and unhonoured. His superiors at the Royal Institute for the Young Blind in Paris would not recognise the system that was not based on the shapes of the alphabet. Lennard Bickel researched this story in Paris and in the small village where Louis Braille was born. He tells of the trials and torments of a young blind man struggling amid the harshest conditions to perfect something he believed in. This book will be of interest to general readers interested in the life of Louis Braille.

Triumph Beatriz Martinez-Peñalver, 2016-04-29 The use of antidepressants has increased by 400% since 1988, and at least one out of every three Americans is dissatisfied with life. Despite those sobering statistics, we are not doing enough to teach children how to become emotionally literate. Our education is incomplete. There are multiple curriculums in the school systems for math, science, language, arts, social studies, however, not one complete curriculum for emotional literacy. We're failing to carry out one of our main duties: preparing the next generation to enjoy a life filled with joy and purpose. Beatriz Martinez-Peñalver, a psychotherapist with more than twenty-five years of experience, seeks to fix that problem with this fluid curriculum that helps students, educators, and parents live a life without limits. Learn how to develop thought patterns that lead to triumph, challenge erroneous thoughts given to them by parents, teachers, and society, see failure as an integral part of success, substitute negative thoughts with empowering affirmations, become a problem solver.
