

The background of the book cover is a detailed illustration of Admiral Zheng He. He is depicted from the chest up, wearing ornate golden armor with red and black accents. He has a long black beard and is wearing a red turban with a gold band. His right hand is resting on a globe. In the background, a large fleet of traditional Chinese sailing ships with multiple masts and red sails is visible on a blue sea under a hazy sky.

When China Ruled the Seas Louise Levathes,1994 The Treasure Fleet of the Dragon Throne 1405 33 **When China Ruled the Seas** Louise Levathes,1996 **Leaders** General Stanley McChrystal,Jeff Eggers,Jay Mangone,2018-10-23 AN INSTANT NATIONAL BESTSELLER Stanley McChrystal the retired US Army general and bestselling author of Team of Teams profiles thirteen of history s great leaders including Walt Disney Coco Chanel and Robert E Lee to show that leadership is not what you think it is and never was Stan McChrystal served for thirty four years in the US Army rising from a second lieutenant in the 82nd Airborne Division to a four star general in command of all American and coalition forces in Afghanistan During those years he worked with countless leaders and pondered an ancient question What makes a leader great He came to realize that there is no simple answer With Plutarch s Lives as his model McChrystal looks at paired sets of leaders who followed unconventional paths to success For instance Walt Disney and Coco Chanel Maximilien Robespierre and Abu Musab al Zargawi Boss Tweed and Margaret Thatcher Martin Luther and Martin Luther King Jr and finally explores his former hero Robert E Lee from his exceptional military career to leading an army to defeat in service of an immoral cause He uses their stories to explore how leadership works in practice and to challenge the myths that complicate our thinking about this critical topic Leaders will help you take stock of your own leadership whether you re part of a small team or responsible for an entire nation **How Transformative Innovations Shaped the Rise of Nations** Gerard Tellis,Stav Rosenzweig,2018-05-30 Over the last 2 000 years critical innovations have transformed small regions into global powers But these powers have faded when they did not embrace the next big innovation Gerard J Tellis and Stav Rosenzweig argue that openness to new ideas and people empowerment of individuals and competition are key drivers in the development and adoption of transformative innovations These innovations in turn fuel economic growth national dominance and global leadership In How Transformative Innovations Shaped the Rise of Nations Tellis and Rosenzweig examine the transformative qualities of concrete in Rome swift equine warfare in Mongolia critical navigational innovations in the golden ages of Chinese Venetian Portuguese and Dutch empires the patent system and steam engine in Britain and mass production in the United States of America **When China Rules the World** Martin Jacques,2009 For over two hundred years we have lived in a western made world one where the very notion of being modern was synonymous with being western This original and ground breaking new book argues that the twenty first century will be different With the rise of increasingly powerful non Western countries the west will no longer be dominant and there will be many ways of being modern In this new era of contested modernity the central player will be China Far from becoming a western style society China will remain highly distinctive Continental in size and mentality and accounting for one fifth of humanity China is a civilization state whose characteristics attitudes and values long predate its existence as a nation state China is already having a far reaching and much discussed economic impact but its influence will be far greater than this China s rise signals the end of the global

dominance of the western nation state and the rise of a world which it will shape in a host of different ways As it rapidly reassumes its traditional position at the centre of East Asia the old tributary system will be resurface in a modern form contemporary ideas of racial hierarchy will be redrawn and China's ages old sense of superiority will reassert itself China's rise will change the world as we know it from one made in the west to one increasingly shaped by China This profound and far sighted book explains for the first time the deeper meaning of China's arrival as a global power **Far Eastern**
