Damaged Angels Bonnie Buxton, 2010-06-11 An adoptive mother writes the book she wishes had been available sympathetic up to date useful hopeful and highly readable when her family welcomed a little girl not knowing that she struggled with Fetal Alcohol Spectrum Disorder FASD When Bonnie and her husband adopted Colette she was three years old Big for her age she had walked alone at eleven months had excellent verbal skills a thick mane of curly blonde hair and a sturdy little body They were thrilled with their gregarious second daughter a great sister for six year old Cleo But although Colette was bright and delightful a litany of problems soon presented itself By the time she hit first grade her parents were coping with her frequent stealing and lying and her learning difficulties which necessitated special education At the age of fourteen she discovered drugs and sex by eighteen in spite of the love and support provided by her adoptive family she was a crack addict living on the streets After seven frustrating years of consulting numerous therapists a TV item gave Bonnie the answer and sent her on a quest for diagnosis and help for her daughter In general our society has little compassion for those thousands of individuals whose damaged brains lead them to crime homelessness and addiction Few realize that they behave as they do as the result of brain damage caused by their mothers drinking during pregnancy FASD is Canada's most common most expensive yet most preventable mental disability FASD can be beaten but as usual education is key This book is a tool that could help the 300 000 Canadians currently affected by FASD and reduce the number of babies born with FASD in the future FASD is a new umbrella term that includes Fetal Alcohol Syndrome FAS Fetal Alcohol Effects FAE Alcohol Related Neurodevelopmental Disorder ARND and Partial Fetal Alcohol Syndrome pFAS FASD is caused by women drinking alcohol while pregnant So called moderate drinking can do considerable damage to the fetal brain Individuals with FASD may seem

normal but their damaged brains can result in learning disabilities impulsivity lying stealing tantrums violence and aggression inability to predict consequences or learn from experience lack of conscience and addictions FASD is the biggest single cause of intellectual impairment in most industrialized countries Research indicates that a high percentage of homeless people and at least 25% of juvenile and adult offenders suffer from undiagnosed FASD More than 50% of individuals with FASD will experience school drop out trouble with the law addiction and unemployment More than 90% will experience mental health problems The general public not to mention many professionals know very little about either FASD or the fact that no amount of alcohol in pregnancy has been established as safe for the fetus Parenting Children Affected by Fetal Alcohol Syndrome Adoption Council of Canada, Sara Graefe, Society of Special Needs Adoptive Parents, 1998

Signing with a Heavy Hand and Heart, Love Mommy Sondra Torres, Chanel Torres, 2013-03-13 Words from Ms Torres I take my FAS and turn it in to a teaching tool to help others learn what I go through every day of my life If one person listens to what I have to say then I have done my job This is what I was born to do I have won many awards for my work The awards I've won have been great but my biggest award is knowing that my message is being delivered and knowing that I might be helping so many people and unborn babies If I can prevent one more child from this awful syndrome I will be happy My ultimate goal is to get the word out there that FAS is 100% preventable I want everyone to know about the effects of alcohol on the fetus My advice my plea is that you PLEASE PLEASE do not drink while you are pregnant even if you plan on giving your baby up for adoption Let your baby fulfil his or her dreams and live a normal life For all the fathers to be you play an important role in this too You must be encouraging and supportive Staying away from alcohol yourself would be helpful What others are saying Thank you for sending your book to me I read it all and I wanted to cry What a wonderful sacrifice you and your family took on It is wonderful what you have done and how Chanel has grown and turned out to be a wonderful young lady You are certainly a very special person blessed by God from the beginning I love you very much Aunt Gloria Ms Torres is a true light in a world that needs more education on Fetal Alcohol Syndrome and its effects on unborn children She has opened doors that will never be shut She has just begun to educate the nation on Fetal Alcohol Syndrome Deborah Thornton SEDNET Project Management Ms Torres is the epitome of self advocacy and embodies strength resilience and determination She is courageous and tireless in her quest to educate others regarding FAS and is compassionate and determined in her mission to empower and advocate for other young adults with disabilities Barbara Shannon School Psychologist Last night I

received a copy of Signing with a heavy hand and heart Love Mommy A journey through fetal alcohol syndrome by Mrs Sondra A Torres and Miss Chanel E Torres from Ms Torres I opened it and couldn't put it down until I was finished This story of a young woman living with the effects of fetal alcohol syndrome a birth defect that is 100% preventable all pregnant women need to do is not drink when pregnant is moving sometimes funny and always inspirational I quickly grew to care about Chanel and her adoptive family Ms Torres creates a vivid picture of what it is like to live with and care for children with special needs In relatively few words Torres brings her family to life its struggles and its joys The feelings of love and joy are powerfully conveyed while not minimizing the challenges presented in raising a child with FAS As a teacher and parent I laughed and cried and wished I could meet this brave girl and her loving mother Torres is compassionate towards all including birth parents but my heart breaks for the children who struggle with this disability It is a daily battle for which there are some effective interventions but no cures I will say that Ms Torres left me more hopeful for these children than my experience as a teacher had her powerful home environment is definitely a plus for Chanel CHANEL TORRES IS AVAILABLE FOR SPEAKING ENGAGEMENTS TO BOOK THIS SPEAKER FOR A PRESENTATION PLEASE GO TO advocatefortheunborn.wordpress.com **When Mama Can't Kiss it Better, A Journey of Love, Loss and Acceptance** Lori Gertz, 2024-10-21

WHEN MAMA CAN'T KISS IT BETTER is the raw account of a true story that shocked the nation in 2010 Gertz was America's most hated mother when news of a decision to place her adopted child in another family broke in the media Called out by many as an unfit mother and an evil woman who threw away her child she was catapulted into the national and international media Her daughter Emily suffered from fetal alcohol spectrum disorder reactive attachment disorder bipolar disorder and other disorders She had never bonded with Lori her father or her siblings and had begun a spiral of self destruction that often involved running into traffic and other dangerous behaviors While Gertz recalls feeling isolated accounts like hers are not rare Stories like When Mama Can't Kiss it Better are not told terribly often because of the stigma and finger pointing She writes The mother is always blamed first when a child suffers from extreme behavioral disabilities There are millions of parents who are struggling to raise children with behavioral disabilities who feel misunderstood unheard and judged and who want to be reassured that there are others like them With one in four Americans struggling with mental illness NIMH every year everyone in this country either lives with mental illness or knows someone who does The greatest tragedy is that 60% of the adults and 50% of the children suffering from mental disorders will receive absolutely NO services or support for their mental illness WHEN MAMA CAN'T KISS IT BETTER covers The adoption of their daughter Emily early signs of trouble their birthmother's suicide the truth about her pregnancy and warnings about how to avoid what happened to the author and her family Raw and honest details about her daughter's rages suicide attempts and hospitalizations The turmoil that living with mental illness causes for everyone in the home and how it affects siblings and marriages The difficulty in receiving support from physicians educators clinicians The author's increasing desperation to find answers and help as rages and impulsivity

became safety issues Being judged by doctors schools and outsiders as the problem while her daughter collected diagnosis after diagnosis The painful decision to place her daughter in another family and how she came to accept that she had to do the unthinkable Parents worldwide waging verbal attacks on her since if the fault belonged to Gertz alone it couldn't happen to anyone else Note from the Author I spent the better part of six years writing this book which began as the only way I could cope with what was happening in our lives I just couldn't believe the lack of resources there were when I reached out for them so vociferously and started documenting what was happening inside our family if not only to maintain my sanity I am passionate about telling my story to help increase understanding of the enormous challenges parents of special needs children face in a culture that believes that motherly love and perseverance can cure all ills For those on similar paths the story of my journey to a sense of peace within the context of facing unrealized dreams human limitations broken hearts and the unfair circumstances of life may help them find that same place of peace in the tough decisions within their own lives I pray this book will bring attention to the need to better support parents and kids with mental illness and other invisible disabilities and I am deeply grateful for the opportunity to call attention to such pressing societal issues Keywords Parenting Disabilities FASD Mothering Mental Illness RAD Bipolar Memoir Special Needs Fetal Alcohol Syndrome *Tenacity* Rebecca Tillou, 2016-05-03 This is an inspirational book about adoption It includes in depth search tips for birth family It is about reunion loneliness addiction unconditional love and fetal alcohol syndrome This book is the author's story of her journey as she discovers what makes her who she is She has tenacity as she relentlessly searches for her birth family What she discovers is beyond what she expected **Broken Cord** Michael Dorris, 1990-11 Michael Dorris story of his adopted son Adam born with fetal alcohol syndrome FAS explores the enormous scope of the disease and parallels one father's endless battle to overcome the problem From the author of *A Yellow Raft in Blue Water* Not Exactly as Planned Linda Rosenbaum, 2014 Linda Rosenbaum describes the difficulties of raising her son adopted at birth and later diagnosed with irreversible damage from fetal alcohol syndrome **The Best I Can Be** Liz Kulp, Jodee Kulp, 2013-05 Fetal Alcohol Exposure is a leading cause of mental retardation in the western world and effects over 40 000 infants each year Liz was one of those children Jodee is her adoptive mom Together they tell their story in an effort to break the cycle **The Accomplice** Melissa Jacobus, 2021-04-23 Natalia looked to me for help telling the woman that she had a disability I was her mother and she needed me to speak on her behalf The woman belittling Natalia told her she didn't look like she had a disability and she wouldn't allow me to help Here's how the conversation went Well honey how old are you I'm twenty Natalia said Well are you going to have Mommy helping you when you turn twenty one I jumped in So how old are you Thirty five she said Oh I see you are wearing glasses Are you going to take those glasses off when you turn thirty six The woman called her supervisor While we were waiting for the supervisor Natalia said something very thoughtful about her challenges Mom things are hard for me I need assistance just to get the assistance When Melissa Jacobus adopted her children she believed all her prayers for a

family had finally been answered But while other parents were dealing with the usual challenges that come with raising children Melissa experienced those challenges tenfold The Accomplice follows several years of her life as two of her children now grown in the eyes of society yet still cloaked in an invisible disability struggle to survive a world that doesn't understand them their needs or their disability Substance abuse homelessness jail time and worse can be all too common outcomes for those impacted by FASD also known as Fetal Alcohol Spectrum Disorders As Melissa tries to advocate and safeguard her children from these outcomes she realizes her ability to help them and others is at the mercy of an uninformed society The Accomplice is a call to action for the country to acknowledge FASD for what it is a developmental disability that affects millions and to help society recognize that this invisible disability is more than visible it's a crisis
