Where Water Comes Together with Other Water Raymond Carver, 2015-05-25 Winner of Poetry Magazine's Levinson Prize An illuminating collection of poems from the middle of Carver's career that function as distilled heightened versions of his stories offering us fugitive glimpses of ordinary lives on the edge *The New York Times* The stories poems tell are so wonderfully self contained so self evident so gracefully metaphorical *The Village Voice* There is a severity of language an understatement of emotion that endows the poems of his first major collection with the feel of extraordinary experience To read them is to have the sense this man has lived more than most of us We trust him because of the plainly conversational diction and the lapel grabbing rhythms They are very moving very memorable Poetry

The Poetry of Raymond Carver Sandra Lee Kleppe, 2016-02-24 Best known as one of the great short story writers of the twentieth century Raymond Carver also published several volumes of poetry and considered himself as much a poet as a fiction writer Sandra Lee Kleppe combines comparative analysis with an in depth examination of Carver's poems making a case for the quality of Carver's poetic output and showing the central role Carver's pursuit of poetry played in his career as a writer Carver constructed his own organic literary system of autopoetics a concept connected to a paradigm shift in our understanding of the inter relatedness of biological and cultural systems This idea is seen as informing Carver's entire production and a distinguishing feature of Kleppe's book is its contextualization of Carver's poetry within the complex literary and scientific systems that influenced his development as a writer Kleppe addresses the common themes and intertextual links between Carver's poetry and short story careers situates Carver's poetry within the love poem tradition explores the connections between neurology and poetic memories and examines Carver's use of the elegy genre within the context of his terminal illness Tellingly Carver's poetry which has aroused slight interest among literary scholars is frequently taught to medical students This testimony to the interdisciplinary implications of Carver's work suggests the appropriateness of Kleppe's culminating discussion of Carver's work as a bridge between the fields of literature and medicine
