Where Father Story Struggle Victory:

The Routledge Handbook of Philosophy of Agency Luca Ferrero, 2022-01-25 One of the most basic and important distinctions we draw is between those entities with the capacity of agency and those without. As humans we enjoy agency in its full-blooded form and therefore a proper understanding of the nature of agency is of great importance to appreciate who we are and what we should expect and demand of our existence. The Routledge Handbook of Philosophy of Agency is an outstanding reference source to the key issues, problems, and debates in this exciting subject and is the first collection of its kind. Comprising 42 chapters by an international team of contributors, the Handbook is divided into eight clear parts: The Metaphysics of Agency, Kinds of Agency, Agency and Ability, Agency Mind Body and World, Agency and Knowledge, Agency and Moral Psychology, Agency and Time, Agency Reasoning and Normativity. A broad range of topics are covered, including the relation of agency to causation, teleology, animal agency, intentionality, planning, skills, disability, practical knowledge, self-knowledge, the will, responsibility, autonomy, identification, emotions, personal identity, reasons, morality, the law, aesthetics, and games. The Routledge Handbook of Philosophy of Agency is essential reading for students and researchers within philosophy of action, philosophy of mind, metaphysics, philosophy of psychology, and ethics.

Framing Jewish Culture Simon J. Bronner, 2014-01-01 Modernity offers people choices about who they want to be and how they want to appear to others. The way in which Jews choose to frame their identity establishes the dynamic of their social relations with other Jews and non-Jews, a dynamic complicated by how non-Jews position the boundaries around what and who they define as Jewish. This book uncovers these processes historically as well as in contemporary behavior and finds explanations for the various manifestations in feeling and action of being Jewish. Boundaries and borders raise fundamental questions about the difference between Jews and non-Jews. At root, the question is how Jewish is understood in social situations where people recognize or construct boundaries between their own identity and those of others. The question is important because this is by definition the point at which the lines of demarcation between Jews and non-Jews and between different groupings of Jews are negotiated. Collectively, the contributors to the book expand our understanding of the social dynamics of framing Jewish identity. The book opens with an introduction that locates the issues raised by the contributors in terms of the scholarly traditions from which they have evolved. Part I presents four essays dealing with the construction and maintenance of boundaries: two by scholars showing how boundaries come to be etched on an ethnic landscape and two by activists who question and adjust distinctions among neighbors. Part II focuses on expressive means of conveying identity and memory, while in Part III the discussion turns to museum exhibitions and festive performances as locations for the negotiation of identity in the public sphere. A lively discussion forum concludes the book with a consideration of the paradoxes of Jewish heritage revival in Poland and the perception of that revival by Jews and non-Jews.
