Women Prison And Crime:

Women, Prison & Crime Joycelyn M. Pollock, 1990 Publisher description This book takes a comprehensive look at women in America's prisons covering the history of women's prisons crime rates and sentencing practices It provides detailed descriptions of prisoner subcultures programs management and staff issues and legal issues of female prisoners while also expanding beyond U S soil to compare women's prisons in other countries **Women in the Criminal Justice System** Clarice Feinman, 1980 Na een historisch uitleg betreffende ideeën over vrouwelijke delinquenten gaat de schrijfster in op de huidige rol van vrouwelijke misdadigers In de volgende hoofdstukken wordt ingegaan op rol van vrouwelijke juristen advocaten en politieagenten **Partial Justice** Nicole Hahn Rafter, 1990-01-01 Contemporary Research on crime prisons and social control has largely ignored women Partial Justice the only full scale study of the origins and development of women's prisons in the United States traces their evolution from the late eighteenth century to the present day It shows that the character of penal treatment was involved in the very definition of womanhood for incarcerated women a definition that varied by race and social class Rafter traces the evolution of women's prisons showing that it followed two markedly different models Custodial institutions for women literally grew out of men's penitentiaries starting from a separate room for women Eventually women were housed in their own separate facilities a development that ironically inaugurated a continuing history of inmate neglect Then later in the nineteenth century women convicted of milder offenses such as morals charges were placed into a new kind of institution The reformatory was a result of middle class reform movements and it attempted to rehabilitate to a degree unknown in men's prisons Tracing regional and racial variations in these two branches of institutions over time Rafter finds that the criminal justice system has historically meted out partial justice to female inmates Women have benefited in neither case Partial Justice draws in first hand accounts legislative documents reports by investigatory commissions and most importantly the records of over 4 600 female prisoners taken from the original registers of five institutions This second edition includes two new chapters that bring the story into the present day and discusses measures now being used to challenge the partial justice women have historically experienced **Women in Prison** Barbara H. Zaitzow, Jim Thomas, 2003 It is old news that the conditions and policies of women's prisons are different from those for incarcerated men Less evident however is how gender differences shape those policies and how gender identity and roles shape women's adaptation and resistance to prison culture and control The papers in this collection explore how the gender based attitudes that women bring to prison frame how they respond to the prison environment and how gender stereotypes continue to affect the treatment and opportunities of incarcerated women today It looks particularly at how the personal and social problems imported into the prison setting become part of the intricate web of prison culture and how extensively women's prison experience reflects the control and domination they experienced in the outside world **No Safe Haven** Lori B. Girshick, 1999 This work draws on the life stories of forty women inmates at a minimum security prison in North Carolina

It explores their lives before imprisonment enabling the reader to understand their incarceration within the context of childhood and adolescent experiences domestic violence alcohol and drug abuse low education levels and poor work histories Lori B Girshick relates the prisoners views of doing time the criminal justice system and their own rehabilitation She also interviews family members friends and social service providers to show how support networks function or fail Girshick argues convincingly that the treatment of women in society creates circumstances that lead some of them to break the law and she makes specific recommendations for policies that address the need for social change and for community programs designed to deter crime BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Women's Crimes, Criminology, and Corrections Joycelyn M. Pollock, 2014-04-14 Historically women have been an afterthought in criminal justice policymaking and the criminological enterprise The study of criminology has largely been the study of criminal men because women commit less crime than men More recently criminologists have paid increased attention to the population of female offenders partly because of their growing numbers and partly because of the tens of thousands of children affected by having their mothers in prison or on supervised release The recent attention however has not necessarily been a good thing for women who are much more likely to be formally prosecuted and incarcerated today than in decades past This policy shift has come about partly because of misinformed policies implemented to help women and partly because of shifts in theorists beliefs and public perceptions that women and men are similar in their criminal motivations and should therefore be treated similarly The controversy surrounding this perception is the focus of this book To better comprehend the challenges facing women in the criminal justice system the author a winner of the Bruce Smith Sr Award from the Academy of Criminal Justice Sciences employs research findings and statistics to describe the prevalence and patterns of women s crimes review criminological theories specifically examining how well they explain female criminality understand female juvenile offenders reviewing crime rates theories relating to female delinquency and detention related issues look inside the women s prison to better understand female prisoners and their world examine classification and programming issues particularly the impact of gender specific programming and explore the problems experienced by women upon release and the related issue of women s recidivism The Incarcerated Woman Susan F. Sharp, Roslyn Muraskin, 2003 The chapters in this collection written specifically for this book examine the needs of women prisoners and the programs available to meet those needs By examining existing programs in the context of the special needs of women prisoners they illustrate that parity in programming is not simply having the same programs that exist in men s prisons

Women, Prison, & Crime Joycelyn M. Pollock, 2002 This book takes a comprehensive look at women in America s prisons covering the history of women s prisons crime rates and sentencing practices It provides detailed descriptions of prisoner subcultures programs management and staff issues and legal issues of female prisoners while also expanding beyond U S soil to compare women s prisons in other countries **In Search of Safety** Barbara Owen, James Wells, Joycelyn

Pollock,2017-01-24 In Search of Safety takes a close look at the sources of gendered violence and conflict in women s prisons The authors examine how intersectional inequalities and cumulative disadvantages are at the root of prison conflict and violence and mirror the women s pathways to prison Women must negotiate these inequities by developing forms of prison capital social human cultural emotional and economic to ensure their safety while inside The authors also analyze how conflict and subsequent violence result from human rights violations inside the prison that occur within the gendered context of substandard prison conditions inequalities of capital among those imprisoned and relationships with correctional staff In Search of Safety proposes a way forward the implementation of international human rights standards for U S prisons
