Penny Griffin

Women In Popular Culture Representation And Meaning Political Communication:

Women in Popular Culture Marian Meyers, 2008 Following upon the success of her book *Mediated Women* Representations in Popular Culture the author's latest anthology takes a new look at a wide range of contemporary images of women within the media to examine the meanings behind the representations of women in popular culture This book explores what representation of women says about their positions in society the factors that shape representation and the roles that gender race class ethnicity and sexual orientation play within the mediated portrayal of women Drawing primarily on qualitative textual analysis of film reality TV advertising the news children's programming soap operas TV drama and more the book situates the representation of women in popular culture along a continuum ranging from stereotypical portrayals that underscore women's bodies as pornographic spectacle to more positive and hopeful depictions And it argues that the contemporary portrayals of women within popular culture are shaped by two major trends the mainstreaming of pornography and its resultant hypersexualization of women and girls and the commodification of those images for a global market

Mediated Women Marian Meyers, 1999 The issues explored are what mediated popular culture says about women and their roles in contemporary society whether and how the mediated representation of women addresses real women's goals and potential how the popular media negotiate the tension between cultural constraint and social changes within their portrayal of women and whether women are still the victims of symbolic annihilation by the media

Women's Leadership in Popular Culture Tracy Everbach, Gwendelyn S. Nisbett, Newly Paul, 2025-10-02. This edited volume examines mass media portrayals of women leaders and other powerful women in popular culture. Contributors argue that increased media visibility and representation can lead to more widespread acceptance of women as societal leaders. The book employs an interdisciplinary, intersectional, and international approach to its coverage of these portrayals and their meanings for society and gender norms. Through a feminist lens, contributors examine these cultural representations within the context of gender, race, sexuality, and social class/economic status. Contributors write from varied disciplinary backgrounds including journalism, media studies, communication, entertainment studies, sociology, psychology, anthropology, political science, information science, business, and education.

The Search for Authenticity: Some Implications for Political Communication, *Gender, Politics and Communication* Annabelle Sreberny, Liesbet van Zoonen, 2000. This text focuses specifically on three interrelated sets of questions with respect to gender, politics, and communication: How do serious and popular media alike represent male and female politicians? How do they frame their politics, and how can these representations and frames be explained? What is the role of mainstream and movement media for the women's movement? How are feminist issues covered in the media, and what kinds of media-related activities do women's movements undertake? How are the social and political concerns of ordinary women voiced in the media, in talkshows, in particular, and how does this different popular platform interact with mainstream and feminist politics?
