Women In Power In Post Communist Parliaments

**Pamela Paxton, Melanie M.
Hughes, Tiffany D. Barnes**

Women In Power In Post Communist Parliaments:

Women in Power in Post-communist Parliaments Marilyn Rueschemeyer, Sharon L. Wolchik, 2009 This book examines the life and work of women who have reached positions of political power after the end of communism in Europe It explores the roles they have adopted the relationships they have cultivated and the agendas they have pursued This volume treats the issues comparatively in six countries the Czech Republic Germany with a focus on the former GDR Slovenia Bulgaria Poland and Russia It also includes interviews with and written statements by the very women in power discussed in the first half of the book giving voice to their common and divergent experiences as political actors within an environment of stormy economies and new foreign engagements particularly with the European Union Women's Access to Political Power in Post-Communist Europe Richard E. Matland, Kathleen A. Montgomery, 2003-05-01 This book considers women's access to formal positions of powers in the newly formed democracies of post communist Europe While acknowledging the relevance of recent history this book takes an important step away from the communist legacy and explicitly argues for a framework based on causal variables identified in the existing literatures from industrialized democracies on women and politics and legislative recruitment After a brief introduction the second chapter sets forth a general theoretical framework which posits that the level of female legislative representation in a given country is a function of the relative supply of and demand for female candidates After a chapter considering a broad overview of public opinion on women and politics in Eastern Europe thirteen country chapters spanning the spectrum of Eastern European democracies address and test hypotheses about the key variables affecting the supply and demand sides of the equation in individual countries Relevant aspects of the communist cultural and developmental legacy are addressed but authors give particular attention to political factors such as electoral rules and the characteristics of the emerging party systems that vary within the Eastern European countries The new democracies of Eastern Europe provide a novel context in which to test and extend our theories about the consequences of political institutions for the quality of democracy Since institutional arrangements are more malleable than developmental or cultural characteristics those variables also offer the greatest promise to scholars and practitioners wondering what can be done to improve women's access to formal arenas of political power How can we build democracies that are stable lasting and representative A careful analysis of the post communist context can help us to address issues concerning institutional design and development that has relevance well beyond the Eastern European context *The Routledge Handbook of East European Politics* Adam Fagan, Petr Kopecký, 2017-08-15 The Routledge Handbook of East European Politics is an authoritative overview that will help a wide readership develop an understanding of the region in all its political economic and social complexity Including Central Europe the Baltic republics South Eastern Europe and the Western Balkans as well as all the countries of the former Soviet Union it is unrivalled in breadth and depth affording a comprehensive overview of Eastern European politics provided by leading experts in the fields of comparative politics

international relations and public administration Through a series of cutting edge articles it seeks to explain and understand patterns of Eastern European politics today The Routledge Handbook of East European Politics will be a key reference point both for advanced level students developing knowledge about the subject researchers producing new material in the area and those interested and working in the fields of East European Politics Russian Politics EU Politics and more broadly in European Politics Comparative Politics Democratization Studies and International Relations *Parliamentary Elites in Central and Eastern Europe* Elena Semenova, Michael Edinger, Heinrich Best, 2013-12-13 Legislators are entrusted with key parliamentary functions and are important figures in the decision making process Their behaviour as political elites is as much responsible for the failures and successes of the new democracies as their institutional designs and constitutional reforms This book provides a comparative examination of representative elites and their role in democratic development in post communist Central and Eastern Europe CEE It argues that as the drivers of the transformation process in CEE individual and collective parliamentary actors matter The authors provide an in depth analysis of representatives from eleven national parliaments and explore country specific features of recruitment and representation They draw on an integrated dataset of parliamentary elites for individual party family and parliamentary variables over the 20 years following the collapse of Communism and develop a common framework for the analysis of variations in democratisation and political professionalisation between parliaments and political parties party families across CEE This unique volume will be of interest to students and scholars of comparative politics elite research post communist politics democratisation legislative studies and parliamentary representation **Women, Politics, and Power** Pamela Paxton, Melanie M. Hughes, Tiffany D. Barnes, 2020-03-17 Women Politics and Power A Global Perspective provides a clear detailed introduction to women s political participation and representation across a wide range of countries and regions Through broad statistical overviews and detailed case study accounts the authors document both historical trends and the contemporary state of women s political strength Readers see the cultural structural political and international influences on women s access to political power and the difference women make once in political office The fourth edition includes the latest information available on women in politics around the world including current events as they have unfolded across the globe The newest thinking in the field is presented including on violence against women in politics Approach and Features Nine thematic chapters explain women s access to office in the executive legislative and judicial branches and why it matters Six chapters cover women s political power in specific geographic regions with recent research and events The book s intersectional perspective attends to the ways gender interacts with other forms of difference both throughout the volume and in a dedicated chapter A bounty of figures maps and tables provide visual accounts of the variations in women s access to political power around the world the growth in women s political power over time and persistent obstacles to gender equality in politics *Women in Executive Power* Gretchen Bauer, Manon Tremblay, 2011-03-10 A comprehensive regional study of women in the political

executive power Social Movements in Post-Communist Europe and Russia Kerstin Jacobsson, Steven Saxonberg, 2015-12-22 This volume provides a much needed update on the state of civil society in post communist Europe and Russia more than two decades after the fall of the communist regimes The chapters offer new perspectives on social movement strategies in post communist Central Eastern Europe and Russia The chapters illustrate how social movements develop particular repertoires of action and contention which are better suited for their specific local contexts in the post communist setting In Russia and Poland the most popular and effective choices are using domestic and transnational legal opportunities judicial activism and litigation that complement the traditional lobbying and mass mobilization Human rights framing has become important in Hungary and the Czech Republic The chapters analyse various types of rights based activism that operate in otherwise prohibitive social and political environments thereby raising highly contentious issues such as animal rights environment and sustainability human rights women s rights and gay rights activism The contributions richly illustrate the often surprising and multiple ways in which transnational discourses and norm pressure are received translated or resisted in the local contexts Finally the volume provides a novel reconceptualisation and offers new understandings of the relationships between the state and civil society in the post communist context This book is based on a special issue of East European Politics **Women of Power** Torild Skard, 2015-03-09 At a time when a woman Angela Merkel is arguably the most powerful leader in Europe and another Hilary Clinton continues to be at the center of the US political stage it seems that women have broken through the glass ceiling and begun to populate the highest offices of the political world Women of Power is a testament to that accomplishment offering the most comprehensive overview of female presidents and prime ministers to date Looking at over fifty countries and over seventy women leaders since 1960 Torild Skard herself an experienced politician examines how and why these women rose to the top and what their leadership has meant for women s empowerment throughout the latter half of the twentieth century Skard examines the achievements and life stories of the world s female leaders up to the current era She offers nuanced portraits that draw on a number of materials including many interviews that she conducted herself All of the women discussed are organized by both chronology and geography and Skard includes a number of helpful chapters that provide an overview and assessment of how different women leaders have come to power in different regions Overall the book provides a fascinating account of women s empowerment as it has manifested itself at the very top of the political hierarchy *Gender, Institutions and Political Representation* Cristina Chiva, 2017-11-21 This book traces the struggles over the institutions of political representation in Central and Eastern Europe focusing on the factors that have held women back over the post communist period as well as on the growing evidence for change throughout the region Post communist Europe has long raised two puzzles for scholars of women s representation in politics First why have women been under represented in politics in every country in the region since communism s collapse Secondly why are there relatively few cases where women s advocates have been successful in

pressing for change This comparative study of Europe's new democracies argues that these puzzles are best understood as questions about male dominance that is about the mechanisms that sustain or alternatively change long established patterns of male over representation in politics over time The author covers six EU member states Bulgaria the Czech Republic Hungary Poland Romania and Slovakia during the period 1990-2016 The book will be of use to students and scholars in the fields of Comparative Politics Democracy and Democratization European Studies Gender Studies Post Communist Studies and Central and Eastern European Studies

The Oxford Handbook of Political Leadership R. A. W. Rhodes, Paul 't Hart, 2014-05-29 Political leadership has made a comeback It was studied intensively not only by political scientists but also by political sociologists and psychologists Sovietologists political anthropologists and by scholars in comparative and development studies from the 1940s to the 1970s Thereafter the field lost its way with the rise of structuralism neo institutionalism and rational choice approaches to the study of politics government and governance Recently however students of politics have returned to studying the role of individual leaders and the exercise of leadership to explain political outcomes The list of topics is nigh endless elections conflict management public policy government popularity development governance networks and regional integration In the media age leaders are presented and stage managed spun DDL as the solution to almost every social problem Through the mass media and the Internet citizens and professional observers follow the rise impact and fall of senior political officeholders at closer quarters than ever before This Handbook encapsulates the resurgence by asking where are we today It orders the multidisciplinary field by identifying the distinct and distinctive contributions of the disciplines It meets the urgent need to take stock It brings together scholars from around the world encouraging a comparative perspective to provide a comprehensive coverage of all the major disciplines methods and regions It showcases both the normative and empirical traditions in political leadership studies and juxtaposes behavioural institutional and interpretive approaches It covers formal office based as well as informal emergent political leadership and in both democratic and undemocratic polities

Reviewing **Women In Power In Post Communist Parliaments**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence.
