Women Long March Lily Xiao:

Women in China's Long Twentieth Century Gail Hershat, 2007-03-29 An important and much needed introduction to this rich and fast growing field Hershat has handled a daunting task with aplomb Susan L Glosser author of *Chinese Visions of Family and State* 1915 1953 **Biographical Dictionary of Chinese Women: v. 2: Twentieth Century** Lily Xiao Hong Lee, 2016-07-08 The first biographical dictionary in any Western language devoted solely to Chinese women Biographical Dictionary of Chinese Women is the product of years of research translation and writing by scores of China scholars from around the world Volume II Twentieth Century includes a far greater range of women than would have been previously possible because of the enormous amount of historical material and scholarly research that has become available recently They include scientists businesswomen sportswomen military officers writers scholars revolutionary heroines politicians musicians opera stars film stars artists educators nuns and more *China's Child Contracts* Bao-Er, 2007

Unbound Dean King, 2010-03-03 In October 1934 the Chinese Communist Army found itself facing annihilation surrounded by hundreds of thousands of Nationalist soldiers Rather than surrender 86 000 Communists embarked on an epic flight to safety Only thirty were women Their trek would eventually cover 4 000 miles over 370 days Under enemy fire they crossed highland awamps climbed Tibetan peaks scrambled over chain bridges and trudged through the sands of the western deserts Fewer than 10 000 of them would survive but remarkably all of the women would live to tell the tale Unbound is an amazing story of love friendship and survival written by a new master of adventure narrative [Women in China from Earliest Times to the Present](#) Robin D. S. Yates, 2009 This essential reference work provides an alphabetic listing with an extensive index of studies on women in China from earliest times to the present day written in Western languages primarily English French German and Italian Containing more than 2500 citations of books chapters in books and articles especially those published in the last thirty years and more than 100 titles of doctoral dissertations and Masters theses it covers works written in the disciplines of anthropology and sociology art and archaeology demography economics education fashion film and media studies history interdisciplinary studies law literature music medicine science and technology political science and religion and philosophy It also contains many citations of studies of women in Hong Kong and Taiwan **Women and Gender in Chinese Studies** Nicola Spakowski, Cecilia Nathansen Milwertz, 2006 The State of the World's Girls report has tackled many topics girls in the global economy education girls affected by conflict and by disaster the new digital world and its implications both negative and positive for girls lives the challenges and risks of increasing urbanisation working with men and boys and looked at attitudinal structural and institutional barriers to gender equality [Changing Clothes in China](#) Antonia Finnane, 2023-05-30 Historians have long regarded fashion as something peculiarly Western In this surprising sumptuously illustrated book Antonia Finnane challenges this view which she argues is based on nineteenth and twentieth century representations of Chinese dress as traditional and unchanging Fashions she shows were part of Chinese life in the

late imperial era even if a fashion industry was not then apparent In the early twentieth century the key features of modern fashion became evident particularly in Shanghai and rapidly changing dress styles showed the effects The volatility of Chinese dress throughout the twentieth century matched vicissitudes in national politics Finnane describes in detail how the close fitting jacket and high collar of the 1911 Revolutionary period the skirt and jacket blouse of the May Fourth era and the military style popular in the Cultural Revolution gave way finally to the variegated globalized wardrobe of today She brilliantly connects China s modernization and global visibility with changes in dress offering a vivid portrait of the complex subtle and sometimes contradictory ways the people of China have worn their nation on their backs *Mao Jung Chang,Jon Halliday,2011-10-05* The most authoritative life of the Chinese leader ever written Mao The Unknown Story is based on a decade of research and on interviews with many of Mao s close circle in China who have never talked before and with virtually everyone outside China who had significant dealings with him It is full of startling revelations exploding the myth of the Long March and showing a completely unknown Mao he was not driven by idealism or ideology his intimate and intricate relationship with Stalin went back to the 1920s ultimately bringing him to power he welcomed Japanese occupation of much of China and he schemed poisoned and blackmailed to get his way After Mao conquered China in 1949 his secret goal was to dominate the world In chasing this dream he caused the deaths of 38 million people in the greatest famine in history In all well over 70 million Chinese perished under Mao s rule in peacetime **The Oxford Encyclopedia of Women in World History** Bonnie G. Smith,2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated womens daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune womens and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike *The Minjian Avant-Garde* Chang Tan,2024-02-15 The Minjian Avant Garde studies how experimental artists

in China mixed with brought changes to and let themselves be transformed by minjian the volatile and diverse public of the post Mao era Departing from the usual emphasis on art institutions global markets or artists communities Chang Tan proposes a new analytical framework in the theories of socially engaged art that stresses the critical agency of participants the affective functions of objects and the versatility of the artists in diverse sociopolitical spheres Drawing from hitherto untapped archival materials and interviews with the artists Tan challenges the views of Chinese artists as either dissidents or conformists to the regime and sees them as navigators and negotiators among diverse political discourses and interests She questions the fetishization of marginalized communities among practitioners of progressive art and politics arguing that the members of minjian are often more complex defiant and savvy than the elites would assume The Minjian Avant Garde critically assesses the rise of populism in both art and politics and show that minjian could constitute either a democratizing or a coercive force This book was published with generous support from the George Dewey and Mary J Krumrine Endowment
