Womens Ordination Does It Matter:

She Preached the Word Benjamin R. Knoll, Cammie Jo Bolin, 2018 *She Preached the Word* offers a timely and comprehensive examination of support for women's ordination in America's congregations and the effect of female clergy on those in the pews. It is an essential contribution to our understanding of the intersection of gender, religion, and politics in contemporary American society.

The Church: A Guide for the Perplexed Matt Jenson, David E. Wilhite, 2010-08-12 An upper level introduction to the Christian doctrine of the Church. This book is a rigorous comprehensive introduction to the doctrine of the Church by taking the tack of walking readers through the internal logic of ecclesiology. Rather than simply offering a compendium of perspectives on each issue that arises, the authors seek to teach and model thinking theologically with the grain of scripture and ecclesial reflection about the Church. The chapters are peppered with two to three excurses per chapter which consider a particularly pertinent issue that arises from the doctrine's development, e.g. the move from Jesus to the Church, schism and the rise of denominations, sacramental mediation or contemporary concerns, e.g. the question of other religions, contemporary ecumenical questions, the emerging church. While the overall tone and content of the book articulate and invite discussion on the problematics of ecclesiology, these excurses will provide ample opportunity to examine and where appropriate untangle ecclesiological knots.

Continuum's Guides for the Perplexed are clear, concise, and accessible introductions to thinkers, writers, and subjects that students and readers can find especially challenging or indeed downright bewildering. Concentrating specifically on what it is that makes the subject difficult to grasp, these books explain and explore key themes and ideas, guiding the reader towards a thorough understanding of demanding material.

Women Deacons and Deaconesses Charles W. Deweese, 2005. Divided opinion on the topic of this book has caused controversy in Baptist history and life. Most Baptist individuals and churches have strongly opposed women deacons. Some Baptist associations have even disfellowshipped churches that have approved women deacons. And women in general have been suppressed by many recent actions of the Southern Baptist Convention, thereby affecting women deacons. However, thousands of Baptist churches include women in their deacon bodies and find that they make invaluable contributions. The book presents arguments on both sides of the topic but lands squarely in support of women deacons.

55 Years of Struggle for Women's Ordination in the Catholic Church Ida Raming, 2021-11-30 55 years of struggle for women's ordination in the Roman Catholic Church: this lifelong effort by the theologian Ida Raming, together with her pioneering compatriots, some of whom have passed away, are described in this documentation. She is deeply convinced that a fundamental renewal of the church can only be achieved together with women who are no longer subject to discrimination and not without them. Beginning with the Vatican Council 1962-1965, this endeavor has stretched across several phases of church history all the way into the present. Numerous documents bearing witness to internal church developments, conflicts, and international movements are related in a vivid, gripping manner from the perspective of the author. The international

theologies that ignore tough questions about the existence of God or who can find no connections between churches and their own search for meaning individually and communally The book is written in popular language but draws on a wealth of diverse experience and learning

Ordaining Women Mark Chaves, 1999 Why does a denomination prohibiting women clergy support parishes run by women Why does a denomination opt to ordain women when there are few women seeking to join that clergy And why have some denominations ordained women so much earlier than others In a revealing examination of the complex relationship among religion social forces and organizational structure *Ordaining Women* draws examples and data from over 100 Christian denominations to explore the meaning of institutional rules about women's ordination Combining historical and sociological perspectives Mark Chaves deftly shows that formal institutional rules about ordination often diverge from the actual roles of women and are best understood as symbolic gestures in favor of or in opposition to gender equality *Ordaining Women* concludes that external pressures from the women's movement and ecumenical pressure expressed through interdenominational organizations such as the National Council of Churches influence ordination practices At the same time internal factors such as having a source of religious authority that is considered superior to modern principles of equal rights also explain why some denominations ordain women much earlier than others Surprisingly the Bible forbids it does not account for policies even among fundamentalists and other biblical inerrantists Chaves' historical and comparative approach offers a revealing analysis of how the internal denominational debates have changed over time becoming more frequent more politicized and more contentious The skillful delineation of forces affecting debates and policies about women's ordination makes this book an important contribution to our understanding of religious organizations and of gender equality

Postsecular Catholicism Michele Dillon, 2018-03-01 The Catholic Church faces the challenge of maintaining its relevance in an increasingly secularized society On issues ranging from sexuality and gender equality to economic policy and social welfare the church hierarchy is frequently out of step with Catholics and non Catholics alike In *Postsecular Catholicism* Michele Dillon argues that the Church's relevance is increasingly contingent on its ability to incorporate secular experiences and expectations into the articulation of the Church's teachings Informed by the postsecular notion that religious and secular actors should recognize their mutual relevance in contemporary society Dillon examines how secular realities and church doctrine intersect in American Catholicism She shows that the Church's 21st century commitment to institutional renewal has been amplified by Pope Francis's vision of public Catholicism and his accessible language and intellectual humility Combining wide ranging survey data with a rigorous examination of Francis's statements on economic inequality climate change LGBT rights and women's ordination the highly consequential Vatican Synod on the Family and the US Bishops religious freedom campaign *Postsecular Catholicism* assesses the initiatives and strategies impacting the Church's relevance in the contemporary world
