Leadership in Marginal Religions Catherine Wessinger, 1993 Women's leadership in Spiritualism and Christian Science Ann Braude The feminism of Universal Brotherhood women in the Theosophical Movement Robert Ellwood and Catherine Wessinger Emma Curtis Hopkins a feminist of the 1880 s and mother of new thought J Gordon Melton Myrtle Fillmore and her daughters an observation and analysis of the role of women in Unity Dell deChant Woman guru woman roshi the legitimation of female religious leadership in Hindu and Buddhist groups in America Catherine Wessinger Part 3 Contemporary women as creators of religion Ritual validations of clergywomen's authority in the African American Spiritual churches of New Orleans David C Estes Twentieth century women's religion as seen in the feminist spirit *Theory of Women in Religions* Catherine Wessinger, 2020-12-01 An introduction to the study of women in diverse religious cultures While women have made gains in equality over the past two centuries equality for women in many religious traditions remains contested throughout the world In the Roman Catholic Church and the Church of Jesus Christ of Latter day Saints women are not ordained as priests In areas of Pakistan and Afghanistan under Taliban occupation girls and women students and their teachers risk their lives to go to school And in Sri Lanka fully ordained Buddhist nuns are denied the government identity cards that recognize them as citizens Is it possible to create families societies and religions in which women and men are equal And if so what are the factors that promote equality Theory of Women in Religions offers an economic model to shed light on the forces that have impacted the respective statuses of women and men from the earliest developmental stages of society through the present day Catherine Wessinger integrates data and theories from anthropology archaeology sociology history gender studies and psychology into a concise history of religions introduction to the complex relationship between gender and religion She argues that socio economic factors that support specific gender roles in conjunction with religious norms and ideals have created a gendered division of labor that both directly and indirectly reinforces gender inequality Yet she also highlights how as the socio economic situation is changing religion is being utilized to support the transition toward women's equality noting the ways in which many religious representations of gender change over time

Figuring Religions Shubha Pathak,2013-04-02 Figuring Religions offers new ways of comparing prominent features of the world s religions Comparison has been at the heart of religious studies as a modern academic discipline but comparison can be problematic Scholars of religion have been faulted for ignoring or reinterpreting differences to create a universal paradigm In reaction many of today s scholars have placed chief emphasis on the differences between traditions Seeking to reinvigorate comparison and avoid its excesses contributors to this volume use theories of metaphor and metonymy from the fields of philosophy linguistics and anthropology to look at religious ideas images and activities Traditions considered include Hinduism ancient Greek religions Judaism Buddhism Daoism Confucianism Christianity and Islam By applying trope theories contributors reveal elements of these religions in and across their cultural contexts
