Womens Work Gender Equality Vs Hierarchy In The Life Sciences:

Women's Work Laurel Smith-Doerr, 2004 Women scientists working in small for profit companies are eight times more likely than their university counterparts to head a research lab Why Laurel Smith Doerr reveals that contrary to widely held assumptions strong career opportunities for women and minorities do not depend on the formal policies and long job ladders that large hierarchical bureaucracies provide In fact highly internally linked bio technology firms are far better workplaces for female scientists when compared to university settings or established pharmaceutical companies offering women richer opportunities for career advancement Based on quantitative analyses of more than two thousand life scientists careers and qualitative studies of scientists in eight biotech and university settings Smith Doerr s work shows clearly that the network form of organization rather than fostering old boy networks provides the organizational flexibility that not only stimulates innovation but also aids women s success

Misconceiving Merit Mary Blair-Loy, Erin A. Cech, 2022-06-16 An incisive study showing how cultural ideas of merit in academic science produce unfair and unequal outcomes In *Misconceiving Merit* sociologists Mary Blair Loy and Erin A Cech uncover the cultural foundations of a paradox On one hand academic science engineering and math revere meritocracy a system that recognizes and rewards those with the greatest talent and dedication At the same time women and some racial and sexual minorities remain underrepresented and often feel unwelcome and devalued in STEM How can academic science which so highly values meritocracy and objectivity produce these unequal outcomes Blair Loy and Cech studied more than five hundred STEM professors at a top research university to reveal how unequal and unfair outcomes can emerge alongside commitments to objectivity and excellence The authors find that academic STEM harbors dominant cultural beliefs that not only perpetuate the mistreatment of scientists from underrepresented groups but hinder innovation Underrepresented groups are often seen as less fully embodying merit compared to equally productive white and Asian heterosexual men and the negative consequences of this misjudgment persist regardless of professors actual academic productivity *Misconceiving Merit* is filled with insights for higher education administrators working toward greater equity as well as for scientists and engineers striving to change entrenched patterns of inequality in STEM

to the existing literature on gender issues in STEM disciplines It focuses specifically on the geosciences with a goal to spreading awareness on the best practices for gender parity in academic geoscience departments Geoscientists policymakers educators and administrators could all greatly benefit from the contents of this volume Gender and Political Psychology Zoe Oxley,2017-10-02 This book showcases new work done by gender politics scholars and political psychologists covering a variety of political psychology topics These include stereotyping and prejudice intergroup conflict social identity attitude formation group affinity group decision making anxiety contextual effects on individual behaviour and the evolutionary roots of political behaviour Political psychological insights are applied to address topics of longstanding concern within the field of gender and politics Among the citizenry gender differences in political ideology responses to partisan conflict Hispanic identity formation and symbolic racism are explored Other chapters pose the following questions relating to female candidates What have been the effects of state parties gender inclusive policies Who is most likely to gender stereotype candidates Are general attitudes toward women in political office related to vote choice in specific contests What are the implications of politicized motherhood Finally a set of essays engage a variety of themes related to gender decision making rules and authority in small deliberative bodies This book was originally published as a special issue of Politics Groups and Identities

Nanotechnology and the Challenges of Equity, Equality and Development Susan E. Cozzens,Jameson Wetmore,2010-10-10 Nanotechnology is enabling applications in materials microelectronics health and agriculture which are projected to create the next big shift in production comparable to the industrial revolution Such major shifts always co evolve with social relationships This book focuses on how nanotechnologies might affect equity equality in global society Nanotechnologies are likely to open gaps by gender ethnicity race and ability status as well as between developed and developing countries unless steps are taken now to create a different outcome Organizations need to change their practices and cultural ideas must be broadened if currently disadvantaged groups are to have a more equal position in nano society rather than a more disadvantaged one Economic structures are likely to shift in the nano revolution requiring policymakers and participatory processes to invent new institutions for social welfare better suited to the new economic order than those of the past

Syndicate Women Chris M. Smith,2019-07-02 In Syndicate Women sociologist Chris M Smith uncovers a unique historical puzzle women composed a substantial part of Chicago organized crime in the early 1900s but during Prohibition 1920 1933 when criminal opportunities increased and crime was most profitable women were largely excluded During the Prohibition era the markets for organized crime became less territorial and less specialized and criminal organizations were restructured to require relationships with crime bosses These processes began with and reproduced gender inequality The book places organized crime within a gender based theoretical framework while assessing patterns of relationships that have implications for non criminal and more general societal issues around gender As a work of criminology that draws on both historical methods and contemporary social network analysis Syndicate Women centers the

women who have been erased from analyses of gender and crime and breathes new life into our understanding of the gender gap
