Green finance & carbon neutrality: strategies and policies for a sustainable future Wei Zhang,Tian Tang,Satar Bakhsh,Xuemeng Liu,2025-09-01 The accelerating global climate crisis demands innovative and sustainable financial strategies to mitigate its impacts and facilitate the transition to a carbon neutral economy Green finance and carbon neutrality are instrumental in this endeavor Green finance entails financial investments directed towards sustainable development projects and initiatives that promote environmental benefits Its growth is critical in supporting the transition to a low carbon economy Simultaneously the concept of carbon neutrality which refers to achieving net zero carbon dioxide emissions by balancing or eliminating emissions entirely has become a central goal for many governments and organizations

worldwide The urgent global challenge that this Research Topic aims to address is how to effectively integrate green finance strategies into our path towards achieving carbon neutrality Despite the increasing importance of both these areas there remains a significant knowledge gap on how they can synergistically drive a shift towards a low carbon sustainable economy Moreover the absence of standardized regulations and lack of broad understanding of these concepts have contributed to slower adoption and implementation rates than what is urgently required The goal of this Research Topic is to consolidate recent advancements present innovative strategies and highlight successful case studies in the nexus of green finance and carbon neutrality This includes exploring novel financial instruments and models that encourage sustainable investments comprehending the socio economic impacts of moving towards a carbon neutral economy and showcasing policy mechanisms that have effectively integrated green finance and carbon neutrality By amalgamating these insights we aim to guide policymakers inform business practices stimulate further academic exploration and ultimately accelerate the global journey towards a sustainable carbon neutral future The scope of this Research Topic encompasses a broad range of themes at the intersection of green finance and carbon neutrality We are particularly interested in empirical Original Research articles in depth Reviews of current literature Policy and Practice Reviews and case studies demonstrating the successful application of green finance strategies in achieving carbon neutrality Potential topics include but are not limited to following areas Development of innovative green financial instruments Analysis of policy frameworks and regulations promoting carbon neutrality Examination of the role of ESG Environmental Social Governance factors in investment decisions Studies on the socio economic impacts of transitioning to a carbon neutral economy Manuscripts that provide novel insights propose unique models or offer critical perspectives on existing approaches are highly encouraged By collating these diverse viewpoints we aim to further enrich the dialogue on sustainable development and carbon neutrality Cumulated Index Medicus ,2000

Finance & Development, September 2023 International Monetary,International Monetary Fund. Communications Department,2023-08-31 Finance Development September 2023 **What determines green purchase behavior?** Zhongju Liao,Shufeng Xiao ,Siying Long,2024-05-31 Green purchase behavior refers to consumers purchasing green products that are environmentally friendly using fewer resources and causing lower environmental impact and risk As a growing number of people start to recognize the importance of individual responsibility for environmental protection firms are increasingly motivated to develop green products to fit the needs of this green advocacy Despite an emerging number of consumers claiming their preference towards green brands compared to traditional alternatives researchers have found that there is a huge gap between consumers purchase intention and actual behavior which has gained much attention The psychological process of green purchase behavior may be a complicated process influenced by various factors such as consumer values and norms the pros and cons marketed for green products and various other situational factors Scholars are calling for research that explores the psychological decision making process of green purchase behavior from both theoretical and practical

perspectives Due to the high pricing of green products the trade off between the price and function of green products may lower consumers satisfaction Thus there is always a gap between green purchase intention and actual purchase behavior What determines consumers actual green purchase behavior Under what conditions will the consumers pay a premium price for green products What prompts consumers to choose green brands over traditional alternatives Will green consumption be a passing trend or a long term consumption habit What influences the frequency of consumers green purchasing Scholars are welcome to share their opinions and findings about green purchase behavior to help explore this research topic We are extremely interested in the determinants of green purchase behavior and the mechanism of facilitating green consumption considering different perspectives
