Working With Spanish Corpora Giovanni Parodi:

Working with Spanish Corpora Giovanni Parodi, 2007-09-01 The main focus of this book is the investigation of linguistic variation in Spanish considering spoken and written specialised and non specialised registers from a corpus linguistics approach and employing computational updated tools The ten chapters represent a range of research on Spanish using a number of different corpora drawn from amongst others research articles student writing formal conversation and technical reports A variety of methodologies are brought to bear upon these corpora including multi dimensional and multi register analysis latent semantics and lexical bundles This in depth analysis of using Spanish corpora will be of interest to researchers in corpus linguistics or Spanish language

Working with Portuguese Corpora Tony Berber Sardinha, Telma de Lurdes São Bento Ferreira, 2014-04-10 Although Portuguese is one of the main world languages and researchers have been working on Portuguese electronic text collections for decades e g Kelly 1970 Biderman 1978 Bacelar do Nascimento et al 1984 see Berber Sardinha 2005 this is the first volume in English that encapsulates the exciting and cutting edge corpus linguistic work being done with Portuguese language corpora on different continents The book includes chapters by leading corpus linguists dealing with Portuguese corpora across the world and their contributions explore various methods and how they are applicable to a wide range of language issues The book is divided into six sections each covering a key issue in Corpus Linguistics lexis and grammar lexicography language teaching and terminology translation corpus building and sharing and parsing and annotation Together these sections present the reader with a broad picture of the field

Manual of Romance Sociolinguistics Wendy Ayres-Bennett, Janice Carruthers, 2018-06-11 The Romance languages offer a particularly fertile ground for the exploration of the relationship between language and society in different social contexts and communities Focusing on a wide range of Romance languages from national languages to minoritised varieties this volume explores questions concerning linguistic diversity and multilingualism language contact medium and genre variation and change It will interest researchers and policy makers alike

Academic and Professional Discourse Genres in Spanish Giovanni Parodi, 2010 Parodi and his collaborators in this inspiring volume provide an insightful model for the analysis of construction interpretation and use of academic and professional genres Vijay K Bhatia City University of Hong Kong Book Jacket

The Handbook of Spanish Second Language Acquisition Kimberly L. Geeslin, 2018-08-14 Bringing together a comprehensive collection of newly commissioned articles this Handbook covers the most recent developments across a range of sub fields relevant to the study of second language Spanish Provides a unique and much needed collection of new research in this subject compiled and written by experts in the field Offers a critical account of the most current ground breaking developments across key fields each of which has seen innovative empirical research in the past decade Covers a broad range of issues including current theoretical approaches alongside a variety of entries within such areas as the sound system morphosyntax individual and social factors and instructed language learning Presents a variety of methodological approaches

spanning the active areas of research in language acquisition *Corpus Stylistics in Heart of Darkness and its Italian Translations* Lorenzo Mastropierro, 2017-11-16 This book explores the interaction between corpus stylistics and translation studies It shows how corpus methods can be used to compare literary texts to their translations through the analysis of Joseph Conrad's *Heart of Darkness* and four of its Italian translations The comparison focuses on stylistic features related to the major themes of *Heart of Darkness* By combining quantitative and qualitative techniques Mastropierro discusses how alterations to the original's stylistic features can affect the interpretation of the themes in translation The discussion illuminates the manipulative effects that translating can have on the reception of a text showing how textual alterations can trigger different readings This book advances the multidisciplinary dialogue between corpus linguistics and translation studies and is a valuable resource for students and researchers interested in the application of corpus approaches to stylistics and translation Multimodality and Active Listenership Dawn Knight, 2011-10-13 Current corpora are invaluable resources for generating accurate and objective analyses of patterns of language use However spoken corpora are effectively mono modal presenting data in the same physical medium text The reality of a discourse situation is lost in its representation as text Using multimodal data sets when conducting corpus based pragmatic analyses is one solution This book looks at multimodal corpora in some depth using backchanneling as the conversational feature to be analysed It provides a bottom up investigation of the issues and challenges faced at every stage of multimodal corpus construction and analysis as well as providing an in depth linguistic analysis of a cross section of multimodal corpus data The collaborative and co operative nature of backchannels is highlighted in this book and an adapted pragmatic functional linguistic coding matrix for the characterisation of backchanneling phenomena is presented Dawn Knight also looks at possible directions in the construction and use of multimodal corpus linguistics **Corpus Approaches to the Language of Sports** Marcus Callies, Magnus Levin, 2019-09-19 Recent decades have seen a fundamental change and transformation in the commercialisation and popularisation of sports and sporting events *Corpus Approaches to the Language of Sports* uses corpus resources to offer new perspectives on the language and discourse of this increasingly popular and culturally significant area of research Bringing together a range of empirical studies from leading scholars this book bridges the gap between quantitative corpus approaches and more qualitative multimodal discourse methods Covering a wide range of sports including football cycling and basketball the linguistic aspects of sports language are analysed across different genres and contexts Highlighting the importance of studying the language of sports alongside its accompanying audio visual modes of communication chapters draw on new digitised collections of language to fully describe and understand the complexities of communication through various channels In doing so *Corpus Approaches to the Language of Sports* not only offers exciting new insights into the language of sports but also extends the scope of corpus linguistics beyond traditional monomodal approaches to put multimodality firmly on the agenda *Historical Corpus Stylistics* Patrick Studer, 2014-02-25 This book analyzes how news

discourse was shaped over time by external factors such as the historical context news production technological innovation and current affairs and as such both conformed to and deviated from generic conventions Using data from a newspaper corpus it offers the first empirical study into the development of style in early mass media In this analysis media style appears as a dynamic concept which is highly sensitive to innovative approaches towards making news not only informative but also entertaining to read This cutting edge survey will be of interest to academics researching corpus linguistics media discourse and stylistics *Corpus Linguistics and 17th-Century Prostitution* Anthony McEnery, Helen Baker, 2016-12-01 This book is open access and available on www.bloomsburycollections.com It is funded by Knowledge Unlatched Corpus linguistics has much to offer history being as both disciplines engage so heavily in analysis of large amounts of textual material This book demonstrates the opportunities for exploring corpus linguistics as a method in historiography and the humanities and social sciences more generally Focussing on the topic of prostitution in 17th century England it shows how corpus methods can assist in social research and can be used to deepen our understanding and comprehension McEnery and Baker draw principally on two sources the newsbook *Mercurius Fumigosis* and the Early English Books Online Corpus This scholarship on prostitution and the sex trade offers insight into the social position of women in history
