Working Across Boundaries People Nature And Regions:

Working Across Boundaries Matthew McKinney, Shawn Johnson, 2009 This book presents tested strategies for regional collaboration across a broad range of issues related to land use natural resources and the environment Practitioners policy makers and citizens will find guiding principles key questions for regional governance and examples of effective implementation in this informative volume **CRM**, 2010 **Working Across Boundaries** Helen Sullivan, Chris Skelcher, 2017-03-14 Collaboration between governments business the voluntary and community sectors is now central to the way public policy is made managed and delivered This book provides the first comprehensive and authoritative account of the theory policy and practice of collaboration Written by two leading authorities in the field the book explores the experience of collaboration in regeneration health and other policy sectors and assesses the consequences of the emergence of public private partnerships contrasting the UK experience to that elsewhere in the world *Geospatial Intelligence: Concepts, Methodologies, Tools, and Applications* Management Association, Information Resources, 2019-03-01 Decision makers such as government officials need to better understand human activity in order to make informed decisions With the ability to measure and explore geographic space through the use of geospatial intelligence data sources including imagery and mapping data they are better able to measure factors affecting the human population As a broad field of study geospatial research has applications in a variety of fields including military science environmental science civil engineering and space exploration *Geospatial Intelligence Concepts Methodologies Tools and Applications* explores multidisciplinary applications of geographic information systems to describe assess and visually depict physical features and to gather data information and knowledge regarding human activity Highlighting a range of topics such as geovisualization spatial analysis and landscape mapping this multi volume book is ideally designed for data scientists engineers government agencies researchers and graduate level students in GIS programs [OECD Rural Policy Reviews Rural-Urban Partnerships An Integrated Approach to Economic Development](#) OECD, 2013-10-24 This report provides a framework to understand the changing relationships between urban and rural areas Specifically it documents the characteristics of these partnerships and the factors that can hinder as well as enable rural urban co operation **Regional Planning for a Sustainable America** Carleton K. Montgomery, 2011-10-19 *Regional Planning for a Sustainable America* is the first book to represent the great variety of today s effective regional planning programs analyzing dozens of regional initiatives across North America The American landscape is being transformed by poorly designed sprawling development This sprawl and its wasteful resource use traffic and pollution does not respect arbitrary political boundaries like city limits and state borders Yet for most of the nation the patterns of development and conservation are shaped by fragmented parochial local governments and property developers focused on short term economic gain Regional planning provides a solution a means to manage human impacts on a large geographic scale that better matches the natural and economic forces at work By bringing together the expertise of forty two

practitioners and academics this book provides a practical guide to the key strategies that regional planners are using to achieve truly sustainable growth **Principles for Building Resilience** Reinette Biggs, Maja Schlüter, Michael L.

Schoon, 2015-04-02 As both the societies and the world in which we live face increasingly rapid and turbulent changes the concept of resilience has become an active and important research area. Reflecting the very latest research this book provides a critical review of the ways in which resilience of social ecological systems and the ecosystem services they provide can be enhanced. With contributions from leaders in the field the chapters are structured around seven key principles for building resilience: maintain diversity and redundancy, manage connectivity, manage slow variables and feedbacks, foster complex adaptive systems thinking, encourage learning, broaden participation and promote polycentric governance. The authors assess the evidence in support of these principles, discussing their practical application and outlining further research needs. Intended for researchers, practitioners and graduate students this is an ideal resource for anyone working in resilience science and for those in the broader fields of sustainability science, environmental management and governance.

Handbook of Research on Methods and Tools for Assessing Cultural Landscape Adaptation Rosa, Isabel de Sousa, Lopes, Joana Corte, Ribeiro, Ricardo, Mendes, Ana, 2018-06-22 In a globalizing and expanding world the need for research centered on analysis, representation and management of landscape components has become critical. By providing development strategies that promote resilient relations this book promotes more sustainable and cultural approaches for territorial construction. The Handbook of Research on Methods and Tools for Assessing Cultural Landscape Adaptation provides emerging research on the cultural relationships between a community and the ecological system in which they live. This book highlights important topics such as adaptive strategies, ecosystem services and operative methods that explore the expanding aspects of territorial transformation in response to human activities. This publication is an important resource for academicians, graduate students, engineers and researchers seeking a comprehensive collection of research focused on the social and ecological components in territory development. Handbook of Collaborative Public Management Jack W.

Meek, 2021-02-26 This insightful Handbook presents readers with a comprehensive range of original research within the field of collaborative public management (CPM), a central area of study and practice in public administration. It explores the most important questions facing collaboration, providing insights into future research directions and new areas of study. The

Social Ecology of Border Landscapes Anna Grichting, Michele Zebich-Knos, 2017-05-02 The collection of essays in The Social Ecology of Border Landscapes defines borders and borderlands to include territorial interfaces, marginal spaces, physical, sociological and psychological and human consciousness. From theoretical and conceptual presentations on social ecology and its agencies and representations to case studies and concrete projects and initiatives the contributing authors uncover a thread of contemporary thought and action on this important emerging field. The essays aim to define the territories of social ecology to investigate how social agencies can activate ecological processes and systems and to understand how the

interactions of people and ecosystems can create new sustainable landscapes across tangible and intangible territorial rifts
