Working With Available Light A Familys World After Violence:

The Macho Paradox Jackson Katz, 2019-06-04 A fully revised and updated edition to a classic bestseller *The Macho Paradox* is the first book to show how violence against women is a men's issue and how all genders can come together to stop it. From the MeToo movement to current discussions about gender norms in schools, sports, politics, and media culture, *The Macho Paradox* incorporates the voices and experiences of the women, men, and others who have confronted the problem of gender violence from all angles. Bestselling author Jackson Katz is a pioneering educator and activist on the topic of men's violence against women. In this revised edition of his heralded book, Katz outlines the ways in which cultural ideas about manhood contribute to men's sexually harassing and abusive behaviors and that men have a positive role to play in challenging and changing the sexist cultural norms that too often lead to gender violence. This important book for abused women covers topics ranging from mental and emotional abuse to sexual harassment to domestic violence and is a vital read for women with controlling partners or as a self-help book for men. Praise for *The Macho Paradox*: A candid look at the cultural factors that lend themselves to tolerance of abuse and violence against women. Booklist: If only men would read Katz's book, it could serve as a potent form of male consciousness-raising. Publishers Weekly: These pages will empower both men and women to end the scourge of male violence and abuse. Katz knows how to cut to the core of the issues, demonstrating undeniably that stopping the degradation of women should be every man's priority. Lundy Bancroft, author of *Why Does He Do That: Inside the Minds of Angry and Controlling Men*. **New Directions in Sexual Violence Scholarship** Kate Gleeson, Yvette Russell, 2023-05-30 This edited collection brings together leading and emerging scholars in the important field of sexual violence scholarship. The last ten years have witnessed an international reckoning on sexual violence, typified in the mainstream imagination by the MeToo movement, acknowledgement of the violence of university campus life, and the overdue recognition of the enduring harms of child sexual abuse. While the state has been forced to respond through law and other political processes at times revealing its agility and at other times its archaic investment in the past, much of the real work responding to sexual violence and abuse has taken place within communities and in the personal responses of the individuals writing the scripts of their experiences. This volume explores the nuances of these individual experiences and considers how they are shaped and reflected by intersecting axes of power, including gender, race, class, age, and able-bodied status. It reflects on law and law reform in the area and suggests new modes and frames through which to explain and understand sexual violence and institutional responses to it. Debates within this contested personal and political arena do not map onto longstanding binaries of liberal and radical feminism nor conservative and progressive politics. This interdisciplinary volume traces that murky terrain and features some of the leading international scholars writing on sexual violence in English today. This book will appeal to scholars and students across the broad disciplines of law and legal studies, criminology, gender studies, political science, and sociology. Life Stories Maureen O'Connor, 2011-08-23 Memoirs

autobiographies and diaries represent the most personal and most intimate of genres as well as one of the most abundant and popular. Gain new understanding and better serve your readers with this detailed genre guide to nearly 700 titles that also includes notes on more than 2,800 read-alike and other related titles. The popularity of this body of literature has grown in recent years and it has also diversified in terms of the types of stories being told and persons telling them. In the past, readers' advisors have depended on access by names or Dewey classifications and subjects to help readers find autobiographies they will enjoy. This guide offers an alternative organizing the literature according to popular genres, subgenres, and themes that reflect common reading interests. Describing titles that range from travel and adventure classics and celebrity autobiographies to foodie memoirs and environmental reads. *Life Stories: A Guide to Reading Interests in Memoirs, Autobiographies, and Diaries* presents a unique overview of the genre that specifically addresses the needs of readers' advisors and others who work with readers in finding books. **The Birth of Pleasure** Carol Gilligan, 2003-08-12 The author of the classic *In a Different Voice* offers a brilliant provocative book about love that has powerful implications for the way we live and love today. Compelling. A thrilling new paradigm. The Times Literary Supplement. Carol Gilligan whose *In a Different Voice* revolutionized the study of human psychology now asks: Why is love so often associated with tragedy? Why are our experiences of pleasure so often shadowed by loss? And can we change these patterns? Gilligan observes children at play and adult couples in therapy and discovers that the roots of a more hopeful view of love are all around us. She finds evidence in new psychological research and traces a path leading from the myth of Psyche and Cupid through Shakespeare's plays and Freud's case histories to Anne Frank's diaries and contemporary novels. **Narrating Justice and Hope** Lois Presser, Jennifer Fleetwood, Sveinung Sandberg, 2025-02-04 *Narrating Justice and Hope* takes inspiration from narrative criminology to plumb the potential for stories and storytelling to do good, limiting harm, doing, fostering healing, and connection, and suggesting better futures. **Governing Through Crime** Jonathan Simon, 2007-02-03 Across America today, gated communities sprawl out from urban centers; employers enforce mandatory drug testing; and schools screen students with metal detectors. Social problems ranging from welfare dependency to educational inequality have been reconceptualized as crimes, with an attendant focus on assigning fault and imposing consequences. Even before the recent terrorist attacks, non-citizen residents had become subject to an increasingly harsh regime of detention and deportation, and prospective employees subjected to background checks. How and when did our everyday world become dominated by fear, every citizen treated as a potential criminal? In this startlingly original work, Jonathan Simon traces this pattern back to the collapse of the New Deal approach to governing during the 1960s, when declining confidence in expert-guided government policies sent political leaders searching for new models of governance. The War on Crime offered a ready solution to their problem: politicians set agendas by drawing analogies to crime and redefined the ideal citizen as a crime victim, one whose vulnerabilities opened the door to overweening government intervention. By the 1980s, this transformation of the core powers

of government had spilled over into the institutions that govern daily life Soon our schools our families our workplaces and our residential communities were being governed through crime This powerful work concludes with a call for passive citizens to become engaged partners in the management of risk and the treatment of social ills Only by coming together to produce security can we free ourselves from a logic of domination by others and from the fear that currently rules our everyday life

Aftermath Susan J. Brison,2023-01-03 A powerful personal narrative of recovery and an illuminating philosophical exploration of trauma On July 4 1990 while on a morning walk in southern France Susan Brison was attacked from behind severely beaten sexually assaulted strangled to unconsciousness and left for dead She survived but her world was destroyed Her training as a philosopher could not help her make sense of things and many of her fundamental assumptions about the nature of the self and the world it inhabits were shattered At once a personal narrative of recovery and a philosophical exploration of trauma this bravely and beautifully written book examines the undoing and remaking of a self in the aftermath of violence It explores from an interdisciplinary perspective memory and truth identity and self autonomy and community It offers imaginative access to the experience of a rape survivor as well as a reflective critique of a society in which women routinely fear and suffer sexual violence As Brison observes trauma disrupts memory severs past from present and incapacitates the ability to envision a future Yet the act of bearing witness she argues facilitates recovery by integrating the experience into the survivor's life's story She also argues for the importance as well as the hazards of using first person narratives in understanding not only trauma but also larger philosophical questions about what we can know and how we should live

The ^AUnfinished Bombing Edward T. Linenthal,2003-05-01 On April 19 1995 the bombing of the Alfred P Murrah Federal Building in Oklahoma City shook the nation destroying our complacent sense of safety and sending a community into a tailspin of shock grief and bewilderment Almost as difficult as the bombing itself has been the aftermath its legacy for Oklahoma City and for the nation and the struggle to recover from this unprecedented attack In The Unfinished Bombing Edward T Linenthal explores the many ways Oklahomans and other Americans have tried to grapple with this catastrophe Working with exclusive access to materials gathered by the Oklahoma City National Memorial Archive and drawing from over 150 personal interviews with family members of those murdered survivors rescuers and many others Linenthal looks at how the bombing threatened cherished ideas about American innocence sparked national debate on how to respond to terrorism at home and abroad and engendered a new bereaved community in Oklahoma City itself Linenthal examines how different stories about the bombing were told through positive narratives of civic renewal and of religious redemption and more negative narratives of toxicity and trauma He writes about the extraordinary bonds of affection that were created in the wake of the bombing acts of kindness empathy and compassion that existed alongside the toxic legacy of the event The Unfinished Bombing offers a compelling look at both the individual and the larger cultural consequences of one of the most searing events in recent American history
