School Renewal Torin M. Finser,2001 As a result of today s crisis in education people are beginning to realize that schools involve far more than providing children with knowledge and skills Schools are communities and like all communities may be healthy or unhealthy School Renewal addresses the problems and challenges of a school community Through the use of fairy tales myths and the personal experience of Waldorf education Torin Finser describes how both teachers and parents can come to grips with common problems such as burnout interpersonal conflicts and the traps of routine Most important the author stresses that an educational community must come to terms with the many unseen dimensions of each individual He

shows how these little understood aspects of the mind can be cultivated and nourished to keep the school and education alive School Renewal does not offer formulas and slapdash solutions Rather it encourages a whole new way of thinking about education and personal growth for children and for the adults who care about them if one wish could be granted me on behalf of school renewal I would ask for significant improvement in the quality of sleep afforded to parents and teachers No other change has the potential to do more good than simply eliminating the state of chronic exhaustion found by the end of the week in most schools Torin Finser understands what it s like to deeply care about the education of our children His message will be a healing balm for those open to his wise and practical counsel I want to rush out and buy a copy of this book for every teacher and parent I know Eric Utne founder of Utne Reader Extremely accessible down to earth and full of very important insights I highly recommend this book Dave Alsop Chairman Association of Waldorf Schools of North America Splendid not just teachers but parents students and just plain stressed out citizens would benefit from the wisdom information and insight Finser offers Joseph Chilton Pearce author of Magical Child and Evolution s End Wise guidance for those of us who want to be good stewards of our children and the schools that serve them Parker J Palmer author of The Courage to Teach and Let Your Life Speak An exciting and refreshing book for parents and teachers in his clear and concise writing Torin has shown us how to bring common sense back to our schools Jim Grant Executive Director Staff Development for Educators For Finser school renewal is about self development the suggestions offered here contribute to new ways of thinking about education and personal growth Highly recommended for school administrators teachers community groups and parents Library Journal Shows that a healthy school community is one that is able to recognize and work with the problems that can mar even the most liberal and creative educational systems burnout stress and interpersonal conflict NAPRA Review

Intellectuals and the Challenge of Democratic Renewal Sean A. Forner, 2017-03-23 This book examines how democracy was rethought in Germany in the wake of National Socialism the Second World War and the Holocaust Focusing on a loose network of public intellectuals in the immediate postwar years Sean Forner traces their attempts to reckon with the experience of Nazism and scour Germany's ambivalent political and cultural traditions for materials with which to build a better future In doing so he reveals they formulated an internally variegated but distinctly participatory vision of democratic renewal a paradoxical counter elitism of intellectual elites Although their projects ran aground on internal tensions and on the Cold War their commitments fueled critique and dissent in the two postwar Germanys during the 1950s and thereafter The book uncovers a conception of political participation that went beyond the limited possibilities of the Cold War era and influenced the political struggles of later decades in both East and West

Sullivan,Robert Faricy,2011-07-18 **Self-Renewal** John W. Gardner,2018-02-27 The only stability possible is stability in motion John William Gardner In his classic treatise Self Renewal John W Gardner examines why great societies thrive and die He argues that it is dynamism not decay that is dramatically altering the landscape of American society The twentieth century has brought about change more rapidly than any previous era and with that came advancements challenges and often destruction Gardner cautions that a society must court the kinds of change that will enrich and strengthen it rather than the kind of change that will fragment and destroy it A society s ability to renew itself hinges upon its individuals Gardner reasons that it is the waning of the heart and spirit not a lack of material might that threatens American society Young countries businesses and humans have several key commonalities they are flexible eager open curious unafraid and willing to take risks These conditions lead to success However as time passes so too comes complacency apathy and rigidity causing motivation to plummet It is at this junction that great civilizations fall businesses go bankrupt and life stagnates Gardner asserts that the individual s role in social renewal requires each person to face and look beyond imminent threats Ultimately we need a vision that there is something worth saving Through this vision Gardner argues society will begin to renew itself not permanently but past its average lifespan and it will at once become enriched and rejuvenated **Possible Renewal of the Generalized System of Preferences** United States. Fethullah Gulen,2015-07-07 True renewal is realized by retaining the purity of the seed and the root and by synthesizing an entire inheritance of values with new thoughts and wisdom appropriate to the age A thorough revival can only be realized with the efforts of the spirit intellect feelings and willpower working in concert Utilizing the spirit s power to the fullest making flawless use of the knowledge inherited from the past being constantly open to spiritual breezes of inspiration not being trapped by blind imitation and always following a sound methodology are some dynamics of an ideal renewal The vigorous souls with steel willpower must keep running on the path of serving humanity with an insatiable love for research an ever evolving passion for knowledge of God and an otherworldly profundity beyond comprehension This book conveys the feelings and thoughts of a person who has dedicated his life for the coming of such a generation and who suffers in heart and mind for this noble ideal
