Ethnic Relations in Plural Societies ,2025-10-27 One of the main legacies of slavery and indentured labour is the existence of multi ethnic and multicultural societies in former tropical colonies of the European empires After the abolition of slavery the indentured labourers were brought to the plantation colonies in order to meet the need for cheap labour for the production of tropical goods From the beginning they faced a situation in which they were regarded as competitors for the freed slaves and or the local population At the same time in various cases the freed slaves and their descendants considered themselves as the indigenous people and were treated as such by the colonial governments In their perspective the colonial governments spent too many resources on the immigration of foreign labourers resources that could have been used to improve the socio economic situation of the descendants of the former slaves To this date this historical past overshadows the relations between different ethnic groups in so called plural societies This book deals with the relations between different ethnic groups in these societies and the challenges they meet to establish peaceful and democratic societies The volume consists of chapters on these societies such as South Africa Guyana Trinidad and Tobago and Suriname The Dilemmas of

Ethnic Policy John Gaffar La Guerre, 2017-01-03 The Dilemmas of Ethnic Policy A Global Perspective argues that ethnic conflict increases or decreases in relation to changes in the social structure and the location and distribution of political power Ethnic grievances derive from lack of access to valued resources and elites play a crucial role in allocating those resources This book examines the experiences of five countries with a history of ethnic conflict former Yugoslavia Bosnia Herzegovina Guyana Trinidad and Tobago and the United States It finds that in many cases solutions adopted to mitigate ethnic conflict have unintended consequences Often supposed solutions confuse cause and effect and in fact worsen ethnic conflict Attempts to address identity issues by pandering to them often led to further ethnic demands This book argues that based on the experiences of the countries under examination the best course is to adopt policies that encourage alliances between and among ethnic groups
