The Crusades, C.1071-c.1291 Jean Richard,1999-09-16 A concise history of the crusades whose chief goal was the liberation and preservation of the holy places of the middle east from the first calls to arms in the later twelfth century to the fall of the last crusader strongholds in Syria and Palestine in 1291 This is the ideal introductory textbook for all students of the crusades Professor Richard considers the consequences of the crusades such as the establishment of the Latin east and its organisation into a group of feudal states as well as crusading contacts with the Muslim world eastern Christians Byzantines and Mongols Also considered are the organisation of expeditions the financing of such expeditionary forces and the organisation of operations and supply Jean Richard is one of the world s great crusader historians and this work the distillation of over forty years research and contemplation is the only one of its kind in English Seven Myths of the Crusades Alfred J. Andrea,Andrew Holt,2015-08-21 Seven Myths of the Crusades rebuttal of the persistent and multifarious misconceptions associated with topics including the First Crusade anti Judaism and the Crusades the crusader states the Children s Crusade the Templars and past and present Islamic Christian relations proves once and for all that real history is far more fascinating than conspiracy theories pseudo history and myth mongering This book is a powerful witness to the dangers of the misappropriation and misinterpretation of the past and the false parallels so often drawn between the crusades and later historical events ranging from nineteenth century colonialism to the protest movements of the 1960s to the events of 9 11 This volume s authors have venerable track records in teaching and researching the crusading movement and anyone curious about the crusades would do well to start here Jessalynn Bird Dominican University co Editor of Crusade and Christendom *The Greatest Story Ever Forged (Curse of the Christ Myth)* David Hernandez,2009-09 Is God fact or fiction This is the question that has been the subject of debate for millennia oftentimes leading to violence as we have seen in the countless religious wars throughout the course of history including the Islamic and Christian wars of today The Greatest Story Ever Forged discusses this question and outlines the fabrications giving birth to these monotheistic religions their early developments and how they have tyrannized the West and Middle East for these many centuries Though there have been many defenders of the faith David Hernandez shows how these religions have infinitely caused more damage to man than any good they have ever been credited for having done This is what he calls the Curse of the Christ Myth which derives from the big lie as propounded by the inventors of the Christ Myth who battled as fiercely among themselves as they did against their detractors or non believers These include everyone from the Jews to the Pagans to the Gnostics to the heretics and any form of infidels in an effort to establish their true religions *The World of the Crusades* Andrew Holt,2019-06-05 Unlike traditional references that recount political and military history this encyclopedia includes entries on a wide range of aspects related to daily life during the medieval crusades The medieval crusades were fundamental in shaping world history and provide background for the conflict that exists between the West and the Muslim world today This two volume set presents

fundamental information about the medieval crusades as a movement and its ideological impact on both the crusaders and the peoples of the East It takes a broad look at numerous topics related to crusading with the goal of helping readers to better understand what inspired the crusaders the hardships associated with crusading and how crusading has influenced the development of cultures both in the East and the West The first of the two thematically arranged volumes considers topics such as the arts economics and work food and drink family and gender and fashion and appearance The second volume considers topics such as housing and community politics and warfare recreation and social customs religion and beliefs and science and technology Within each topical section are alphabetically arranged reference entries complete with cross references and suggestions for further reading Selections from primary source documents each accompanied by an introductory headnote give readers first hand accounts of the crusades
