Whatever Happened To The Human Race:

Whatever happened to the human race F. A. Schaeffer, 1977 **Critical Approaches to Science and Religion**

Myrna Perez Sheldon, Ahmed Ragab, Terence Keel, 2023-03-21 Critical Approaches to Science and Religion offers a new direction for scholarship on science and religion that examines social political and ecological concerns long part of the field but never properly centered The works that make up this volume are not preoccupied with traditional philosophical or theological issues Instead the book draws on three vital schools of thought critical race theory feminist and queer theory and postcolonial theory Featuring a diverse array of contributors it develops critical perspectives by examining how histories of empire slavery colonialism and patriarchy have shaped the many relationships between science and religion in the modern era In so doing this book lays the groundwork for scholars interested in speaking directly to matters such as climate change structural racism immigration health care reproductive justice and sexual identity *Francis Schaeffer and the Shaping of*

Evangelical America Barry Hankins, 2008-11-03 Francis Schaeffer 1912 1984 was probably the single greatest intellectual influence on young evangelicals of the 1960s and 70s He was cultural critic popular mentor political activist Christian apologist founder of L Abri and the author of over twenty books and two important films It is impossible to understand the intellectual world of contemporary evangelicalism apart from Francis Schaeffer Barry Hankins has written a critical but appreciative biography that explains how Schaeffer was shaped by the contexts of his life from young fundamentalist pastor in America to greatly admired mentor to lecturer and activist who encouraged world wary evangelicals to engage the culture around them Drawing extensively from primary sources including personal interviews Hankins paints a picture of a complex sometimes flawed but ultimately prophetic figure in American evangelicalism and beyond **American Conservative**

Opinion Leaders Mark J. Rozell, 2019-03-04 In this book one of the few academic works to scrutinise the major figures of American conservatism since the Reagan Bush era began the contributors identify and assess current trends in conservative political thought Through their profiles of conservative opinion leaders these scholars offer even handed critical examinations not only of the **Whatever Happened to the Human Race?** Francis August Schaeffer, Charles Everett Koop, 1979

Whatever Happened to the Human Race provides us with a foundation for understanding and action We see not only the facts of abortion infanticide and euthanasia but also the ideas behind these life and death issues Dr Schaeffer and Dr Koop illuminate for us the anti God and anti life attitudes that dominate our society today In these pages we find the tools for action to change what is happening in America We find the answers we need to restore the dignity and sanctity of every stage of life **Killing for Life** Carol Mason, 2018-08-06 How can those who seek to protect the right to life defend

assassination in the name of saving lives Carol Mason investigates this seeming paradox by examining pro life literature both archival material and writings from the front lines of the conflict Her analysis reveals the apocalyptic thread that is the ideological link between established anti abortion organizations and the more shadowy pro life terrorists who subject clinic

workers to anthrax scares bombs and bullets The portrayal of abortion as America's Armageddon began in the 1960s In the 1970s Mason says Christian politics and the post Vietnam paramilitary culture popularized the idea that legal abortion is a harbinger of apocalypse By the 1990s Mason asserts even the movement's mainstream had taken up the call narrating abortion as an apocalyptic battle between so called Christian and anti Christian forces Pro life violence of the 1990s signaled a move away from protest and toward retribution she writes Pro life retribution is seen as a way to restore the order of God In this light the phenomenon of killing for life is revealed not as an oxymoron but as a logical consistency and a political manifestation of religious retribution Mason's scrutiny of primary sources direct mail internal memoranda personal letters underground manuals and pro life films magazines and novels draws attention to elements of pro life millennialism Killing for Life is a powerful indictment of pro life ideology as a coherent mass produced narrative that does not merely condone violence but anticipates it as part of God's plan

Evangelical News Anja-Maria Bassimir, 2022-05-24 This work is an innovative treatise on the evangelical magazine market during the 1970s and 1980s and how it sustained religious community and ideology Bassimir argues that community can be produced in discourse especially when shared rhetoric concepts and perspectives signal belonging The 1970s and 1980s were a tumultuous period in United States history In suit with a dramatic political shift to the right evangelicalism also entered the public discourse as a distinct religious movement and was immediately besieged by cultural appropriations and internal fragmentations This was also a time when Americans in general and evangelicals in particular grappled with issues and ideas such as feminism and legal abortion restructuring traditional roles for women and the family The Watergate Crisis and the newly emerging Christian Right also threw politics into turmoil During this time there was a surge of readership for evangelical magazines such as Christian Today Moody Monthly Eternity and Post Americans Sojourners While each of these magazines and many other publications contributes to and participates in the overall dissemination of evangelical ideology they all also have their own outlooks and political leanings when it comes to hot button issues Evangelical Visions through a thoroughly researched lens makes important correctives to common understandings of evangelical discourse particularly regarding the key political initiatives of the religious right Bassimir demonstrates that within the pages of these periodicals evangelicals hashed out a number of competing views on feminism abortion reproductive technologies and political involvement itself To accomplish this Evangelical Visions traces the emergence of evangelical social and political awareness in the 1970s to the height of its power as a political program The chapters in this monograph also delve into such topics as how evangelicals re envisioned gender norms and relations in light of the feminist movement and the use of childhood as a symbol of unspoiled innocence and the pure potential of humanity Presently most accounts of evangelicalism cite evangelical magazines only very selectively and virtually no studies make substantive use of those magazines as objects of investigation Bassimir's Evangelical Visions makes a much needed contribution to our understanding of evangelicalism in the late twentieth century by providing a nuanced

picture of a religious subculture that is too often reduced to caricature This study is located at the intersection of history religious studies and media studies and will appeal to scholars and students of all of these fields **Criticizing Science**

Myrna Perez,2024-12-17 This work is an examination of the criticisms of science from both left and right wing political movements through the lens of the scientist Stephen Jay Gould *Educators Guide to Free Social Studies Materials* ,2002
