Worst-Case Scenarios Cass R. Sunstein, 2009-05-15 Nuclear bombs in suitcases anthrax bacilli in ventilators tsunamis and meteors avian flu scorchingly hot temperatures nightmares that were once the plot of Hollywood movies are now frighteningly real possibilities How can we steer a path between willful inaction and reckless overreaction Cass Sunstein explores these and other worst case scenarios and how we might best prevent them in this vivid illuminating and highly original analysis Singling out the problems of terrorism and climate change Sunstein explores our susceptibility to two opposite and unhelpful reactions panic and utter neglect He shows how private individuals and public officials might best respond to low probability risks of disaster emphasizing the need to know what we will lose from precautions as well as from inaction Finally he offers an understanding of the uses and limits of cost benefit analysis especially when current generations are imposing risks on future generations Throughout Sunstein uses climate change as a defining case because it dramatically illustrates the underlying principles But he also discusses terrorism depletion of the ozone layer genetic modification of food hurricanes and worst case scenarios faced in our ordinary lives Sunstein concludes that if we can avoid the twin dangers of overreaction and apathy we will be able to ameliorate if not avoid future catastrophes retaining our sanity as well as scarce resources that can be devoted to more constructive ends Patterns Legitimizing Political Violence in Transcultural

Perspectives Bettina Koch, 2015-05-19 This volume explores theoretical discourses in which religion is used to legitimize political violence It examines the ways in which Christianity and Islam are utilized for political ends in particular how violence is used or abused as an expedient to justify political action This research focuses on premodern as well as contemporary discourses in the Middle East and Latin America identifying patterns frequently used to justify the deployment of violence in both hegemonic and anti hegemonic discourses In addition it explores how premodern arguments and authorities are utilized and transformed in order to legitimize contemporary violence as well as the ways in which the use of religion as a means to justify violence alters the nature of conflicts that are not otherwise explicitly religious It argues that most past and present conflicts even if the discourses about them are conducted in religious terms have origins other than religion and or blend religion with other causes namely socio economic and political injustice and inequality Understanding the use and abuse of religion to justify violence is a prerequisite to discerning the nature of a conflict and might thus contribute to conflict resolution

What's Wrong With Terrorism? Robert E. Goodin,2013-04-23 Terrorists perform terrible acts They maim mutilate and kill in pursuit of their goals The horrifying events of 9 11 and the regular suicide bombings around the world have made terrorism one of the central preoccupations of the twenty first century But what is the distinctive wrong of terrorism Criminal acts such as murder and hijacking are already on the moral statute books so why is it that we regard terrorists as different from and morally worse than ordinary killers and kidnappers Some see terrorism is an ideology others claim it is a deep seated social or psychological failing others that it is a form of fighting unfairly judged by just war standards In this provocative new book Robert Goodin puts forward the view that terrorism is in fact a deliberate tactic of frightening people for socio political gain Fear affects peoples ability to reason clearly and undermines their capacity for autonomous self government In this way Goodin contends that terror is not only the weapon of organizations such as al Qaeda it also benefits democratic politicians who profit from the climate of insecurity induced by terrorist threats and violence Political figures conducting a campaign of fear as part of their war on terrorism may therefore be committing wrongs akin to those of terrorists themselves This Goodin argues is what is distinctively wrong with terrorism in the contemporary world PAIS International in Print Catherine Korvin,2003-05 This book contains bibliographic references with abstracts and subject headings to public and social policy literature and to world politics published in print and electronic formats international focus
