Keja,2022-02-07 This book paints an image of sociality in duress describing how new Information and Communication Technologies ICT bring possible changes in political engagement and civic ness The political branch of the field of ICT for Development ICT4D is firmly convinced that this translates in civic engagement and democratisation This book questions this conception by showing that mistrust greatly increases through new ICT in a society where mistrust has been internalised These processes are examined in the society encountered in Sokod the capital of the Central Region of Togo in the period between 2015 and 2020 when the mobile phone became widespread among young people This ethnographic research provides a snapshot of the changes brought about by new ICT in the social fabrics and the lives of these young people The place and period are highly relevant for getting a better understanding of the forms that civic engagement can take and the roles that new ICT can play in settings of political repression Togo has been ruled by the same family for over half a century and Sokod is one of the rare places of fierce political opposition However young people do not persevere in massive street

protests like in other countries even though they appear to have every reason to do so How can the circumstances and social processes be understood that are leading to this political silence and how do frustration and anger find their way The link between new ICT and civic engagement has more often been made but mostly quantitative and volatile lacking empirical grounding This book demonstrates that there is indeed a connection between new ICT and social change Through their phones young people inform themselves in different ways and they react differently to social and political changes Their reflection on politics has also altered minimal as it may seem By closely regarding the context and mechanisms by which the trustworthiness of information is valued this book contributes to the nascent research field of communication and political anthropology

WhatsApp und die Sozialnatur des Menschen. "Was ist da los? Du hast es doch gelesen, warum antwortest Du nicht?!"

Sarah Lechner, 2019-02-25 Masterarbeit aus dem Jahr 2018 im Fachbereich Medien Kommunikation Multimedia Internet neue Technologien Note 1,3 Johannes Gutenberg Universität Mainz Publizistik Sprache Deutsch Abstract Obwohl die Nutzung des Instant Messenger Dienstes WhatsApp nachweislich bei einem Großteil der Smartphone Besitzer alltäglich geworden ist, fand die zwischenmenschliche Komponente in der Kommunikation bisher in der Forschung noch wenig Berücksichtigung. Zu den grundlegenden Funktionen der App gehört die schnelle einfache und kostenlose Kommunikation mit Freunden und Familie. Aber aufgrund von Features wie beispielsweise der Lesebestätigung oder der zuletzt online Anzeige in Form des Onlinezeitstempels kommt es immer wieder zu Interpretationsproblemen auf Seiten der Gesprächspartner. An diesem Punkt setzt die vorliegende Masterarbeit an und untersucht, ob sich die Sozialnatur des Menschen in der WhatsApp Kommunikation bemerkbar macht. Dabei steht unter anderem im Vordergrund, welche Arten von Gefühlen beispielsweise nächste Sorgen oder aber auch ein Dazugehörigkeitsgefühl ausgelöst werden. Darüber hinaus wird erforscht, welche Handlungen aus den Bedeutungszuschreibungen des Onlinezeitstempels und der Lesebestätigung resultieren können und ob die Nutzer sich dessen überhaupt bewusst sind. Dazu wurden insgesamt elf qualitative Leitfadeninterviews mit Digital Natives und Digital Immigrants durchgeführt, welche alle WhatsApp in der täglichen Kommunikation nutzen. In den Interviews wurde sowohl auf die Einzelchatkommunikation als auch auf Gruppenchats eingegangen. Als zentrale Ergebnisse zeigte sich unter anderem, dass sich diese Applikation mittlerweile in allen Altersklassen im Alltag integriert hat und ein Verzicht schwer vorstellbar ist. In den Interviews wurde deutlich, dass die Sozialnatur des Menschen und das Bedürfnis nach Mitsein und Zugehörigkeit sich in der WhatsApp Kommunikation tatsächlich wiederfindet. Die blauen Haken der Lesebestätigung rufen eine Antwort und Reaktionsdruck hervor. Das Ausbleiben einer erwarteten Antwort führt zum Eindruck einer geringen Wertschätzung und zu Enttäuschung.
