When Angels Wept A What If History Of The Cuban Missile Crisis:

When Angels Wept Eric G. Swedin, 2010-08-31 In 1961 at the Bay of Pigs CIA trained and organized Cuban exiles aiming to overthrow Fidel Castro were soundly defeated Most were taken prisoner by Cuban armed forces Fearing another U S invasion of its new ally the Soviet Union sneaked into Cuba strategic missiles tipped with nuclear warheads and Soviet troops armed with tactical nuclear weapons However a U 2 spy plane flight would soon find the Soviet missile sites thus sparking the famous missile crisis For thirteen terrifying days the world watched nervously as the two superpowers moved toward escalation holding the world s fate in their hands Finally Nikita Khrushchev blinked He agreed to withdraw the weapons from Cuba in return for John F Kennedy s pledge not to invade the island But what if it had not turned out this way What if the U 2 flight had been delayed If the confrontation had set off a nuclear war what would have happened to the United States and Soviet Union in 1962 What kind of account would a historian have written in a world scarred by nuclear war Eric G Swedin draws on research made available after the Soviet Union s collapse to examine what could have happened Top U S military officers all urged stronger action against Cuba than the naval blockade including a bombing campaign and even a full scale invasion Unknown to the Americans meanwhile the Soviet Union had tactical nuclear weapons in Cuba and were prepared to use them The 1962 crisis had many possible outcomes Positing an alternate history helps us better appreciate the dangers of that tense time Such counterfactual speculation shows what the Cuban missile crisis could have wrought and how it was truly one of the most important moments of the twentieth century *Roots of War* David G. Winter, 2018 *Roots of War* presents systematic archival experimental and survey research on three psychological factors leading to war desire for power exaggerated perception of threat and justification for force set in comparative historical accounts of the unexpected 1914 escalation to world war and the peacefully resolved 1962 Cuban Missile Crisis Provided by publisher **The Readers'**

South Dakota History, 2012 **The Cuban Missile Crisis** Hourly History, 2018-06-21 Cuban Missile Crisis The Cold War between the United States of America and the Soviet Union lasted for more than 40 years In general this was a war of spies and subterfuge of covert action and espionage There was always a danger however that an error of judgment on either

side could suddenly cause the Cold War to turn red hot with an exchange of nuclear weapons On many occasions tensions between the countries increased but the prospect of all out nuclear war between America and Russia was never closer than during a two week period in October of 1962 In response to the placement of American nuclear missiles in Turkey Soviet leader Nikita Khrushchev secretly ordered the transport of Russian nuclear missiles to the island of Cuba in the Caribbean These were capable of reaching and destroying almost all American cities in a matter of minutes When this was discovered the U S administration under President John F Kennedy decided that the threat had to be removed even if this meant risking war with Russia The Americans set up a blockade of the island and considered air strikes and even a full scale invasion of Cuba Forty thousand heavily armed Russian and Cuban troops supported by tanks aircraft and even tactical nuclear weapons stood by to do anything required to repel an American attack Inside you will read about From World War to Cold War Mutually Assured Destruction Revolution in Cuba The Missile Gap American Build up and Provocation Russian Missiles Arrive in Cuba Kennedy Speaks to America And much more It was clear that the United States refused to accept the presence of Russian nuclear missiles less than one hundred miles from the coast of Florida It was equally clear that Russia was determined not to remove the missiles and desert its Cuban ally An armed confrontation between the two superpowers appeared inevitable and there seemed a very strong possibility that the world was on the brink of full scale nuclear war

13 Days in October Howard Brinkley,2012-12-09 Never has the world come as close to the catastrophic destruction that nearly came to pass in October 1962 The United States and the Soviet Union uneasy allies in World War II but Cold War rivals after the defeat of Germany squared off over the discovery of Soviet nuclear missiles in Cuba This launched 13 days of tense negotiations between the two nations as both President John F Kennedy and Soviet Premier Nikita Khrushchev prepared for the possibility of nuclear war While neither man wanted a war and understood the potential consequences the situation was not merely in their hands Khrushchev faced pressure from Soviets to take a hardline stance against the U S while Kennedy faced the real possibility of a military coup if he did not follow the strong recommendations of his military advisors to destroy the missiles As Attorney General Robert Kennedy said The 10 or 12 people who participated in all these discussions were bright and energetic people We had perhaps amongst the most able in the country and if any one of a half a dozen of them were president the world would have been very likely plunged into catastrophic war Read more about the history of this short crisis in this book HistoryCaps is an imprint of BookCaps Study Guides With each book a brief period of history is recapped We publish a wide array of topics from baseball and music to science and philosophy so check our growing catalogue regularly to see our newest books **The Cuban Missile Crisis** Documentary History,2013-07-05 A documentary history of the Cuban Missile Crisis from its origins to its aftermath Find out what really happened If we are attacked we will defend ourselves I repeat we have sufficient means with which to defend ourselves we have indeed our inevitable weapons the weapons which we would have preferred not to acquire and which we do not wish to employ Osvaldo

international perspective on the crisis tracing the tortuous decision making that produced and then resolved it which involved John Kennedy and his advisers Nikita Khrushchev and Fidel Castro and their commanders on the ground In breathtaking detail Plokhy vividly recounts the young JFK being played by the canny Khrushchev the hotheaded Castro willing to defy the USSR and threatening to align himself with China the Soviet troops on the ground clearing jungle foliage in the tropical heat and desperately trying to conceal nuclear installations on Cuba which were nonetheless easily spotted by U 2 spy planes and the hair raising near misses at sea that nearly caused a Soviet nuclear armed submarine to fire its weapons More often than not the Americans and Soviets misread each other operated under false information and came perilously close to nuclear catastrophe Despite these errors nuclear war was ultimately avoided for one central reason fear and the realization that any escalation on either the Soviets or the Americans part would lead to mutual destruction Drawing on a range of Soviet archival sources including previously classified KGB documents as well as White House tapes Plokhy masterfully illustrates the drama and anxiety of those tense days and provides a way for us to grapple with the problems posed in our present day

An International History of the Cuban Missile Crisis David Gioe, Len Scott, Christopher Andrew, 2014-06-05 This edited volume addresses the main lessons and legacies of the 1962 Cuban Missile Crisis from a global perspective Despite the discoveries of recent research there is still much more to be revealed about the handling of nuclear weapons before and during the Cuban Missile Crisis CMC Featuring contributions from a number of eminent international scholars of nuclear history intelligence espionage political science and Cold War studies An International History of the Cuban Missile Crisis reviews and reflects on one of the critical moments of the Cold War focussing on three key areas First the volume highlights the importance of memory as an essential foundation of historical understanding and demonstrates how events that rely only on historical records can provide misleading accounts This focus on memory extends the scope of the existing literature by exploring hitherto neglected aspects of the CMC including an analysis of the operational aspects of Bomber Command activity explored through recollections of the aircrews that challenge accounts based on official records The editors then go on to explore aspects of intelligence whose achievements and failings have increasingly been recognised to be of central importance to the origins dynamics and outcomes of the missile crisis Studies of hitherto neglected organisations such as the US Defense Intelligence Agency DIA and the British Joint Intelligence Committee JIC both extend our understanding of British and American intelligence machinery in this period and enrich our understanding of key episodes and assessments in the missile crisis Finally the book explores the risk of nuclear war and looks at how close we came to nuclear conflict The risk of inadvertent use of nuclear weapons is evaluated and a new proposed framework for the analysis of nuclear risk put forward This volume will be of much interest to students of intelligence studies international history foreign policy security studies and IR in general

International Studies (Brown University),1998-01-01 **The Cuban Missile Crisis** Charlie Samuels,1900-01-01 In 1962 people around the world but especially in the United States Cuba and the Soviet Union seemed to be holding their breath as they wondered if a nuclear war was about to erupt US Secretary of Defense Robert McNamara later recalled that he thought October 27 1962 was the last Saturday I would ever see This notable book packed with interesting sidebars and fascinating facts transports readers back to a time of political intrigue Key figures such as John F Kennedy Fidel Castro and Nikita Khrushchev are examined as well as related events such as the Bay of Pigs **The Cuban Missile Crisis** M. The Cuban Missile Crisis Alice L. George,2013 The chill of the nuclear age Kennedy and Khrushchev The ticking clock A world on edge Into the dark Moving ahead looking back The Cuban Missile Crisis Len Scott,R. Gerald Hughes,2015-04-10 This volume brings together a collection of leading international experts to revisit and review our understanding of the Cuban Missile Crisis via a critical reappraisal of some of the key texts In October 1962 humankind came close to the end of its history The risk of catastrophe is now recognised by many to have been greater than realised by protagonists at the time or scholars subsequently The Cuban missile crisis remains one of the mostly intensely studied moments of world history Understanding is framed and informed by Cold War historiography political science and personal experience written by scholars journalists and surviving officials The emergence of Soviet later Russian and other national narratives has broadened the scope of enquiry while scrutiny of the operational especially military dimensions has challenged assumptions about the risk of nuclear war The Cuban Missile Crisis A Critical Reappraisal brings together world leading scholars from America Britain France Canada and Russia to present critical scrutiny of authoritative accounts and to recast assumptions and interpretations The book aims to provide an essential guide for students of the missile crisis the diplomacy of the Cold War and the dynamics of historical interpretation and reinterpretation Offering original ideas and agendas the contributors seek to provide a new understanding of the secrets and mysteries of the moment when the world went to the brink of Armageddon This book will be of great interest to students of the Cuban missile crisis Cold War Studies nuclear proliferation international history and International Relations in general **The Cuban Missile Crisis in American History** Paul Brubaker,2001 Traces the history and events of one of the most dangerous showdowns of the Cold War **The Cuban Missile Crisis** Len Scott,2023-11-23 It is sixty years since the events of October 1962 brought the world close to nuclear catastrophe The Cuban missile crisis has long been recognized as the moment of greatest danger in the life and near death of

humanity In those sixty years our knowledge and understanding of events have undergone significant change There are some reasons to be encouraged inasmuch as we have learned how both President John F Kennedy and Premier Nikita Khrushchev sought to avoid nuclear war More ominously we have learned of incidents and events that suggest nuclear weapons might have been used by subordinate military commanders in circumstances frequently unknown to their political leaders Decisions whether to use nuclear weapons lay in the hands of often junior military commanders some of whom were perilously close to crossing the nuclear threshold This does not mean as often assumed that if some nuclear weapons were used escalation to all out war was inevitable Yet the undoubted risk of thermonuclear war in these circumstances threatened the very survival of civilization Hundreds if not thousands of millions of people would have died from immediate and short term effects while the longer term prospect of a Nuclear Winter portended the virtual extinction of humanity Drawing lessons from sixty years ago faces significant challenges If we draw lessons only to discover our understanding was mistaken we might well have drawn the wrong lessons Many received wisdoms about the crisis have been shown to be misleading What is striking is how after forty or fifty or even sixty years new evidence has emerged to challenge previously accepted explanations It is for the reader to reach their own verdicts on the history of the crisis and how much we owe to political leaders who averted catastrophe as well as how their words and deeds helped create the crisis in the first place It is for the reader to conclude how close we came to nuclear war Whatever conclusions are reached one overriding lesson looms large However we judge the actions of political and military leaders one factor was crucial in why we avoided nuclear war in 1962 It was luck In October 1962 humanity was very lucky Will we be so lucky next time
