When Globalization Fails The Rise And Fall Of Pax Americana

Eric P. Louw

When Globalization Fails The Rise And Fall Of Pax Americana:

When Globalization Fails James Macdonald, 2015-01-06 Is globalization a recipe for war In the nineteenth century liberals exulted that the spread of commerce would usher in prosperity and peace but these dreams were dashed by imperial squabbles the carnage of 1914 18 and the protectionism depression and conflict that followed In the wake of World War II the globalists tried again With the Communist bloc disconnected from the global economy a new international order was created buttressing free trade with the informal supremacy of the United States But this benign period is coming to an end Expertly combining political economic and military history in the manner of Niall Ferguson and Paul Kennedy James Macdonald stresses that if industrial nations are more prosperous they are also more vulnerable While a dependence on trade may push toward cooperation the attendant insecurity pulls in the opposite direction leading to conflict In Macdonald's telling World War I's naval blockades were as important as its trenches and World War II was a struggle for raw materials in a world that had rejected free trade Today the Pax Americana that kept insecurities at bay is being undermined by China's rise with potentially dangerous consequences Rich in original historical analysis and enlivened by vivid quotation *When Globalization Fails* recasts what we know about war peace and trade and raises vital questions about the future **The End**

of Alchemy Mervyn King, 2016-03-21 If *The End of Alchemy* gets the attention it deserves it might just save the world Michael Lewis Bloomberg View Something is wrong with our banking system We all sense that but Mervyn King knows it firsthand his ten years at the helm of the Bank of England including at the height of the financial crisis revealed profound truths about the mechanisms of our capitalist society In *The End of Alchemy* he offers us an essential work about the history and future of money and banking the keys to modern finance The Industrial Revolution built the foundation of our modern capitalist age Yet the flowering of technological innovations during that dynamic period relied on the widespread adoption of two much older ideas the creation of paper money and the invention of banks that issued credit We take these systems for granted today yet at their core both ideas were revolutionary and almost magical Common paper became as precious as gold and risky long term loans were transformed into safe short term bank deposits As King argues this is financial alchemy the creation of extraordinary financial powers that defy reality and common sense Faith in these powers has led to huge benefits the liquidity they create has fueled economic growth for two centuries now However they have also produced an unending string of economic disasters from hyperinflations to banking collapses to the recent global recession and current stagnation How do we reconcile the potent strengths of these ideas with their inherent weaknesses King draws on his unique experience to present fresh interpretations of these economic forces and to point the way forward for the global economy His bold solutions cut through current overstuffed and needlessly complex legislation to provide a clear path to durable prosperity and the end of overreliance on the alchemy of our financial ancestors **Yearbook of the ILA Italian Branch** ILA

Italy, 2025-04-08 The Yearbook of the ILA Italian Branch aims to disseminate the work of the ILA Italian Branch and its

associates in particular the latter's contribution within ILA Committees and Study Groups and to discuss topical issues in contemporary international law To this end the Yearbook features original peer reviewed contributions on a wide range of topics reports on the work of ILA Committees and Study Groups analyses of judicial and arbitral practice and book reviews

International Cooperation When Mistrust Deepens Perri 6, Eva Heims, 2025-01-16 In the years leading up to the outbreak of war in 1914 Britain was collaborating closely with Germany on the development of an improved telegraph service despite preparations for war also being made by both countries This cooperation rested upon both states intensive participation in the global regulatory regime for telecommunications Why states commit to cooperating in such multilateral regimes with other states while their relationship struggles with deepening mistrust is a longstanding puzzle As tensions rise among great powers today and international organisations struggle again this puzzle is as important now as it was when international regulatory regimes first emerged The book challenges many of the conventional explanations for this puzzling situation and draws on neo Durkheimian institutional theory to develop a novel explanation It examines the case of Britain's relationship with the first global regulatory regime which was concerned with international telegraphy submarine telegraph cables and radiotelegraphy from the 1860s through to 1914 The regime was created in a time of European wars and growing imperial conflicts Although Britain seriously contemplated leaving the International Telegraph Union in 1901 the state went on to deepen cooperation with other countries in telegraphy including with Germany even as preparations for war advanced Drawing on extensive archival sources Perri 6 and Eva Heims show that social organisation in government can cultivate institutional buffering between aspects of external policy which can sustain commitment despite deepening conflict In doing so they show how a neo Durkheimian approach provides a powerful explanation for deepening cooperation even as mistrust rises which has significant implications for understanding state formation

Illusion Or Opportunity Henry Veltmeyer, 2007 The failure of development strategies in the past few decades has given rise to a worldwide movement in the direction of another development This is a form of development that is social as well as economic oriented towards people's basic needs people centred and initiated from below It is human in scale and form equitable and socially more inclusive capacitating and empowering of the poor sustainable in terms of both the environment and livelihoods participatory and community based This concern for another development is a major theme of this book which includes a series of analytical probes into the dynamics of social change its theory and practice

Roots of the Pax Americana Eric P. Louw, 2010-09-15 This book examines how and why Americans built an informal trading empire and why the British Empire needed to be removed before a Pax Americana could be built The Pax Americana is a phenomenon of global significance and this fascinating book offers a systematic explanation for the rise of this super empire and examines in detail how it is governed A core feature of the book is a concern with America's vision of the world and how the USA has attempted especially since 1945 to export this vision across the globe The book identifies and examines the underlying discourses and belief systems that gave rise to a Pax

Americana An eclectic range of methodologies and theories are deployed to explain the phenomenon of this informal empire ranging from to materialist political economy explanations of US imperialism through to those explanations grounded in the non materialist realm of values ideas and world views The result is an exploration of the curious phenomenon of an anti imperialist empire with both economic and moral roots **The Nation** ,2003 **The New York Times Index** ,1994

The Rise and Demise of the Two-state Paradigm Efraim Inbar,2009 **Taking Sides** James E. Harf,Mark Owen Lombardi,2001 Presents opposing views on a wide variety of issues affecting the world as a whole Perspectives ,2003

Japan Spotlight ,2005 **Stand!** Lim,1999 **Choice** ,1996 **Is There Hope for Uncle Sam?** Jan Nederveen Pieterse,2008-08-01 For over a century now America has dominated global politics and the global imagination Yet as the dollar declines inequality increases rates of consumption are unprecedented and American unilateralism comes under fire such hegemony is increasingly unsustainable In this provocative new book leading sociologist Jan Nederveen Pieterse asks whether it s possible for America to chart a different course Nederveen Pieterse argues that correcting the course of decline would mean taking drastic steps Only a reinvention of New Deal politics could address social inequality whilst repositioning itself in world politics would mean adopting genuine multilateralism In the current American bubble however political and corporate unaccountability are so entrenched and the constants of policy support for Wall Street the Pentagon and Israel are so widely accepted by powerful elites that change is unlikely to come from within Is there Hope for Uncle Sam is a clear and provocative look at one of the big questions facing us in this century *Z Magazine* ,2008 **The Christian Science Monitor Index** ,2003 *Changing Political Agendas* Queen's University (Kingston, Ont.). Centre for Resource Studies,1992 These proceedings from the seminar cover the following topics new political agendas government s changing role in the resource sector globalization and the new political realities public perceptions and political agendas business government relations in changing global agendas Canada s mineral industries and interest associations environmental issues in the media competing agendas a personal view of changing political agendas a competitive and responsible industry the impact of independent research on mineral policy formulation quantifying government mandated costs reaching the public expanding labour s role developing communication strategies for major project development the Save Our North campaign public relations and the B C Forest Alliance and getting the most from a public relations firm **The International Politics of EU-China Relations** David Kerr,Dr. Liu Fei,2007-12-13 The EU China relationship is fast developing in its own context and in the wider context of international politics In these essays major scholars from Europe and China debate the nature problems and potential of the emerging strategic relationship between these two international actors Appalachian Heritage ,2003
