When Money Talks Selling Democracy:

When Money Talks Derek Cressman, 2016-01-11 When money talks democracy walks Read this book to learn how We the People can take back our elections from the billionaires Robert B Reich former U S Secretary of Labor and author of *The System Who Rigged It How We Fix It* Special interest money is destroying our democratic process And ever since the Citizens United decision threw out campaign spending limits abridgments of free speech Americans want to know what they can do about it Derek Cressman gives us the tools both intellectual and tactical to fight back There s nothing inherently unconstitutional in limiting the amount of speech Cressman insists We do it all the time for example cities control when and where demonstrations can take place or how long people can speak at council meetings Moreover he argues that while you choose to patronize Fox News MSNBC the New York Times or the Wall Street Journal political advertising is forced upon you It s not really free speech at all it s paid speech It s not at all what the Founders had in mind when they wrote the First Amendment Cressman examines how courts have foiled attempts to limit campaign spending details what a constitutional amendment limiting paid speech should say and reveals an overlooked political tool that concerned citizens can use to help gain the amendment s passage Seven times before in our history we have approved constitutional amendments to overturn wrongheaded rulings by the Supreme Court and there s no reason we can t do it again When Money Talks Derek D.

Cressman, 2016-01-12 Special interest money is destroying our democratic process But now that the Citizens United decision has thrown out campaign spending limits as abridgments of free speech Americans want to know what they can do about it Derek Cressman gives us the tools both intellectual and tactical to fight back There s nothing inherently unconstitutional in limiting the amount of speech Cressman insists We do it all the time for example cities control when and where demonstrations can take place or how long people can speak at council meetings Moreover he argues that while you choose to patronize Fox News MSNBC the New York Times or the Wall Street Journal political advertising is forced upon you It s not really free speech at all it s paid speech It s not at all what the Founders had in mind when they wrote the First Amendment Cressman examines how courts have foiled attempts to limit campaign spending details what a constitutional amendment limiting paid speech should say and reveals an overlooked political tool concerned citizens can use to help gain the amendment s passage Seven times before in our history we have approved constitutional amendments to overturn wrongheaded rulings by the Supreme Court there s no reason we can t do it again **If Money Talks, What Does it Say?**

Iain McMenamin, 2013-01-31 Why do businesses contribute to political parties Is money a universal language Do business contributions to political parties convey different messages in different countries This book answers these questions based on intensive case studies of Australia Canada and Germany as well as data from other countries Business money does talk politics In liberal Australia and Canada the competitive short term focus of firms generated substantial demand for private goods that could help firms develop an advantage over their rivals Thus business financing of parties conveyed a pragmatic

message in exchange for small but certain financial benefits contributing businesses expect as a reciprocation to receive special consideration of their lobbying efforts Australia's left-right party system created an awareness of policy risk which motivated ideological payments but there was no ideological bias in business financing of politics in centrist Canada In Germany's co-ordinated economy the most important policies for firms tend to be the public goods defined, championed and delivered by their business associations In this context the pragmatic motivation for contributions to political parties is weak The combination of consensual political institutions and constrained parties means there is a very low risk of major policy change from election to election So there is also little interest in ideological financing of political parties If money talks what does it say places business financing of political parties in the context of debates about political corruption and offers advice on political reform Comparative Politics is a series for students, teachers and researchers of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecpr.net The Comparative Politics series is edited by Professor David M Farrell School of Politics and International Relations University College Dublin Kenneth Carty Professor of Political Science University of British Columbia and Professor Dirk Berg-Schlosser Institute of Political Science Philipps University Marburg
