**When China Ruled the Seas** Louise Levathes,1994 *The Treasure Fleet of the Dragon Throne 1405 33* *When China Ruled the Seas* Louise Levathes,1996 Leaders General Stanley McChrystal,Jeff Eggers,Jay Mangone,2018-10-23 An instant national bestseller Stanley McChrystal the retired US Army general and bestselling author of *Team of Teams* profiles thirteen of history's great leaders including Walt Disney Coco Chanel and Robert E Lee to show that leadership is not what you think it is and never was Stan McChrystal served for thirty four years in the US Army rising from a second lieutenant in the 82nd Airborne Division to a four star general in command of all American and coalition forces in Afghanistan During those years he worked with countless leaders and pondered an ancient question What makes a leader great He came to realize that there is no simple answer McChrystal profiles thirteen famous leaders from a wide range of eras and fields from corporate CEOs to politicians and revolutionaries He uses their stories to explore how leadership works in practice and to challenge the myths that complicate our thinking about this critical topic With Plutarch's *Lives* as his model McChrystal looks at paired sets of leaders who followed unconventional paths to success For instance Walt Disney and Coco Chanel built empires in very different ways Both had public personas that sharply contrasted with how they lived in private Maximilien Robespierre helped shape the French Revolution in the eighteenth century Abu Musab al Zarqawi led the jihadist insurgency in Iraq in the twenty first We can draw surprising lessons from them about motivation and persuasion Both Boss Tweed in nineteenth century New York and Margaret Thatcher in twentieth century Britain followed unlikely roads to the top of powerful institutions Martin Luther and his future namesake Martin Luther King Jr both local clergymen emerged from modest backgrounds to lead world changing movements Finally McChrystal explores how his former hero General Robert E Lee could seemingly do everything right in his military career and yet lead the Confederate Army to a devastating defeat in the service of an immoral cause Leaders will help you take stock of your own leadership whether you're part of a small team or responsible for an entire nation The Rise of Empires Sangaralingam Ramesh,2018-11-11 This book describes and evaluates how institutional innovation and technological innovation have impacted on humanity from pre historical times to modern times and how societies have been transformed in history The author interrogates the relationship between innovation and civilisation particularly the dynamic whereby innovation leads to empire building and explores innovation efforts that stimulated economic and social synergies from the Babylonian Empire in 1900 BC up to the British Empire in the twentieth century The author uses historical cross cultural case studies to establish the factors which have given competitive advantages to societies and empires This book will be of interest to researchers and students in political economy economic history economic growth and innovation economics **Migration and the Making of Global Christianity** Jehu J. Hanciles,2021-03-16 A magisterial sweep through 1500 years of Christian history with a groundbreaking focus on the missionary role of migrants in its spread Human migration has long been identified as a driving force of historical change

Building on this understanding Jehu Hanciles surveys the history of Christianity's global expansion from its origins through 1500 CE to show how migration more than official missionary activity or imperial designs played a vital role in making Christianity the world's largest religion Church history has tended to place a premium on political power and institutional forms thus portraying Christianity as a religion disseminated through official representatives of church and state But as Hanciles illustrates this top down perspective overlooks the multifarious array of social movements cultural processes ordinary experiences and non elite activities and decisions that contribute immensely to religious encounter and exchange Hanciles's socio historical approach to understanding the growth of Christianity as a world religion disrupts the narrative of Western preeminence while honoring and making sense of the diversity of religious expression that has characterized the world Christian movement for two millennia In turning the focus of the story away from powerful empires and heroic missionaries Migration and the Making of Global Christianity instead tells the more truthful story of how every Christian migrant is a vessel for the spread of the Christian faith in our deeply interconnected world **Women of China**, 2007-05

Chinese Studies of the Malay World Choo Ming Ding, Kee Beng Ooi, 2003 The Chinese form the second largest ethnic group in Malaysia but such groups retain their distinct identity while contributing to the multicultural milieu so their view of Malaysia has been of no particular or urgent concern Even so in September 2002 the Institute of the Malay World and Civilization which traditionally has been devoted to Malay nationalism called a colloquium to highlight Chinese perspectives Scholars from across southern Asia and from Australia and Britain survey views from the present and the past few centuries

**Foundations of Corporate Empire** Karl Moore, David Lewis, 2000 The Sumerians invented temple capitalism the Assyrians made it multinational the Phoenicians evolved controls the Greeks leapfrogged with an entrepreneurial model that replaced it the Romans perfected a robust blend of autonomy and regimentation that flourished for four hundred years Foundations of Corporate Empire puts all this under a microscope Richard T Pascale associate fellow Templeton College University of Oxford Foundations of Corporate Empire is a dreary title for a business book that turns out to be anything but It is in fact a sweeping yet remarkably readable history of globalization that marshals impressive evidence Report on Business Magazine From the cradles of civilization to the corporations of global economy business empires have come and gone but the essence of economic enterprise has always been with us This is a world in which enterprises have been shaped as much by what they are as what they do and in which an understanding of where we've come from will aid our interpretation of where we can go Every future has a foundation to be explored In this well researched and highly readable book Moore and Lewis persuasively argue that many of today's global economic institutions and structures are not as new as often proclaimed but the product of a long evolutionary process Their conclusion that a historical perspective provides important clues about the future of globalization is thought provoking and worthy of broad debate Cornelis A de Kluyver Dean Peter F Drucker Graduate School of Management This fascinating book should serve as a timely reminder to those who seem to think that

tomorrow can be managed with scarcely a backwards glance to yesterday Compulsive reading for businessmen and politicians Sir David Rowland President Templeton College University of Oxford Foundations of Corporate Empire sketches the history of international business from the emergence of ancient Assyria around 2000 BC through the Phoenician Carthaginian and Grecian periods up to the time of the Roman Imperium under Augustus and then on to the medieval and modern eras ending with today's post modern times The history of these civilisations has developed around different economic models which have regularly re emerged across time and are still present today Foundations of Corporate Empire looks at our past economic foundations to better understand where we are today and where we should be tomorrow A fascinating and important work which deserves to be widely read Professor Alister McGrath Oxford University Foundations of Corporate Empire offered me an eye opening insight into how we have come to do business as we do If you truly want to understand capitalism as we know it read this book Beyond any reasonable doubt it proved to me the old saying that the more things change the more things stay the same Professor D Aveni author of Hypercompetition Managing the dynamics of strategic maneuvering Arts of Asia ,2001 *Fighting for America* Jeremy Black,2011 This book offers a one volume geopolitical history of North America from the landing of Spanish troops under Hern n Cort s in modern Mexico in 1519 until 1871 when with the Treaty of Washington and the withdrawal of most British garrisons Britain in effect accepted American mastery in North America and the North American question was thereby settled Preface **Indica** ,2001 **Turiang** Roxanna M. Brown,Sten Sjostrand,2000 Maritime Archaeology and Shipwreck Ceramics in Malaysia Roxanna M. Brown,Sten Sjostrand,2002 *Intelligence, Statecraft and International Power* Eunan O'Halpin,Robert Matthew Armstrong,Jane H. Ohlmeyer,2006 Addresses questions arising from the development and use by rulers and states of military diplomatic economic and political intelligence from ancient times This book takes a view of intelligence as an element in state and international affairs **Historical Studies** ,2006 Vol 1 includes papers before the 1st 2d conferences 1955 56 Journal of Asian History ,1997 Global History: The contemporary world, 1900s to present David W. Del Testa,Florence Lemoine,John Strickland,2004 Contains primary source material *Environment and Planning* ,2002 International interdisciplinary journal discussing the relations between Society and Space Space is broadly conceived from landscapes of the body to global geographies from cyberspace to old growth forests as metaphorical and material as theoretical construct and empirical fact Covers both practical politics and the abstractions of social theory **First Invaders** Alan Twigg,2004 This unprecedented volume about British Columbia's earliest authors and first explorers prior to 1800 provides a fascinating range of characters events and intrigues The names Cook and Quadra ring a bell for most of us as do Bering and Vancouver but what about the first year round European resident of B C the Irish drunkard John Mackay He voluntarily wintered at Nootka Sound in 1786 well before the more famous John Jewitt became the so called white slave of Chief Maquinna in 1803 A year later the first European woman to visit and write about British Columbia was the eighteen

year old bride Frances Barkley She circumnavigated the globe with her husband after making a lasting impression with her long red hair at Friendly Cove in 1787 And how much do we know about the Greek born navigator Juan de Fuca Or the Machiavelli of the maritime fur trade John Meares More than 50 pre nineteenth century characters are presented each with his or her own entry and bibliography Alan Twigg has researched and skilfully introduced the first people to write about the west coast of Canada provided extracts gathered images taken photographs and let the composite story unravel like a mini series First Invaders concludes with Alexander Mackenzie and his over land trek to the Pacific in 1793 after providing ample coverage of the many lesser known Spaniards and Americans who arrived in the wake of Captain James Cook in 1778 and Captain Juan Perez the discoverer of British Columbia in 1774      *Current World Affairs* ,1994
