See, Solve, Scale Danny Warshay, 2022-03-22 Inspired by Brown University's beloved course The Entrepreneurial Process Danny Warshay's See Solve Scale is a proven and paradigm shifting method to unlocking the power of entrepreneurship The Entrepreneurial Process one of Brown University's highest rated courses has empowered thousands of students to start their own ventures You might assume these ventures started because the founders were born entrepreneurs You might assume that these folks had technical or finance degrees or worked at fancy consulting firms or had some other specialized knowledge Yet that isn't the case Entrepreneurship is not a spirit or a gift It is a process that anyone can learn and that anyone can use to turn a problem into a solution with impact In See Solve Scale Danny Warshay the

creator of the Entrepreneurial Process course and founding Executive Director of Brown's Center for Entrepreneurship shares the same set of tools with aspiring entrepreneurs around the world. He overturns the common misconception that entrepreneurship is a hard-wired trait or the sole province of high-flying MBAs and provides a proven method to identify consequential problems and an accessible process anyone can learn, master, and apply to solve them. Combining real-world experience backed by surprising research-based insights, *Solve Scale* guides the reader through forming a successful startup team and through the three steps of the process: find and validate a problem, develop an initial small-scale solution, and scale a long-term solution. It also details eleven common errors of judgment that entrepreneurs make when they rely on their intuition and provides instruction for how to avoid them. Leveraging Warshaw's own entrepreneurship successes and his 15 years of experience teaching liberal arts students, *Solve Scale* debunks common myths about entrepreneurship and empowers everyone, especially those who other entrepreneurship books have ignored and left behind. Its lasting message: Anyone can take a world-changing idea from conception to breakthrough entrepreneurial success.
