Two Books Are Better Than One! Shari Frost,2016-06-03 Coming in June 2016 Today s early literacy programs are more demanding than ever No longer is it sufficient to teach letters letter sounds sight words and simple texts in kindergarten through second grade Children are expected to read and comprehend texts in a variety of genres with increasing complexity Then they must integrate the ideas and concepts from those texts into their own writing Two Books are Better Than One Reading and Writing and Talking and Drawing Across Texts in K 2 helps teachers meet those demands Each chapter contains an anchor lesson focused on a different way of connecting texts including by theme characters perspective structure or genre The lessons feature research based and common core aligned strategies interactive read alouds shared reading and writing scaffolded small group reading accountable talk close reading and opinion narrative and explanatory writing Each anchor lesson features two high quality children s books and each chapter is rounded out with a list of other recommended book pairs to support you in creating your own lessons [Bringing Heart and Mind into Storytime](#) Heather McNeil,2022-04-01 Learn how to use children s books during storytime to approach sensitive topics and increase children s social emotional wellness and how to create storytimes that are engaging participative and FUN The emotional challenges many children experience consume the time of teachers exhaust parents and sometimes lead children toward behaviors that prohibit social and academic success Storytime to the rescue Library storytimes prepare children for kindergarten storytimes at home and in preschools allow teachers parents and children to think and talk about empathy and the importance of honoring your own and others feelings In Bringing Heart and Mind into Storytime Heather McNeil teaches librarians and teachers how to use books to open conversations with children to teach such concepts as patience tenacity kindness and teamwork McNeil shares research on brain development social emotional learning and the importance of play but she also emphasizes maintaining the fun of storytime She recommends songs action rhymes games and crafts that contribute to fun and healthy storytimes Extensive lists of recommended books will help readers find the right ones for their audience

Engaging Families as Children's First Mathematics Educators Sivan Phillipson,Ann Gervasoni,Peter Sullivan,2016-11-21 This book explores how professionals can engage and inspire parents to support their young children s mathematics learning Bringing together international experts researchers and scholars it proposes a framework for engaging with and supporting parents including those who are less aware of the crucial development of children s mathematical skills in the early years Focusing on mathematics learning from birth to 5 years the book s underlying assumption is that it is possible to offer guidance to professionals working with families with young children concerning how to engage and support families in the area of mathematics learning including those families who seem alienated from education services Specifically the respective chapters present a framework for understanding children s early mathematical development and the important role of families in this regard They describe effective strategies for engaging families in their children s

mathematics learning including those who are marginalised and experience multiple disadvantages so that all families can best support their children s mathematical learning and their development of positive attitudes towards learning In closing hurdles and opportunities within the systems surrounding family engagement are addressed **Invitations to Literacy**
