Rhetoric in the Twenty-First Century Nicholas J. Crowe, David A. Frank, 2016-04-26 This book arises from a symposium held in Oxford to consider the most fruitful trajectories of rhetoric in the 21st century. The gathering comprised an international delegation of leading scholars convened to assess from an array of perspectives the various possible futures of the ancient discipline of rhetoric as it responds vitally to the evolving contexts of the new millennium. This collection commemorates that event by extending its scrutiny into a number of specific fields of inquiry. It includes a foreword by Prof. James J. Murphy, an introductory article by the editors, and six further articles commissioned from among the participants. The introduction provides a detailed account of the symposium and foregrounds the delegates' articles with a summary of their arguments and consequent relevance to the overarching theme. Each contribution is a freshly minted and original piece of scholarship true to the generative and interactive spirit of the enterprise and speaking pertinently to the field of international rhetoric studies at the present time. *Rhetoric in the Twenty-First Century* addresses a spectrum of concerns. Scholars and students of rhetoric and language use will naturally find much of interest here, and the inclusive ambit of the work will also appeal to students of ethics, religion, comparative literature, intercultural studies, and the growing field of communication studies.

The Renaissance of Letters Paula Findlen, Suzanne Sutherland, 2019-10-21 *The Renaissance of Letters* traces the multiplication of letter-writing practices between the fourteenth and seventeenth centuries in the Italian peninsula and beyond to explore the importance of letters as a crucial document for understanding the Italian Renaissance. This edited collection contains case studies ranging from the late medieval re-emergence of letter-writing to the mid-seventeenth century that offer a comprehensive analysis of the different dimensions of late medieval and Renaissance letters: literary, commercial, political, religious, cultural, social, and military, which transformed them into powerful early modern tools. The Renaissance was an era that put letters into the hands of many kinds of people, inspiring them to see reading, writing, receiving, and sending letters as an essential feature of their identity. The authors take a fresh look at the correspondence of some of the most important humanists of the Italian Renaissance, including Niccolò Machiavelli and Isabella d'Este, and consider the use of letters for others such as merchants and physicians. This book is essential reading for scholars and students of Early Modern History and Literature, Renaissance Studies, and Italian Studies. The engagement with essential primary sources renders this book an indispensable tool for those teaching seminars on Renaissance history and literature.
