The Cycle of Life Erel Shalit, 2011-09-25 The art of life is the most distinguished and rarest of all the arts C G Jung CW 8 par 789 The Cycle of Life explores the patterns that unfold over the course of our lives as we set out to find our place in the world in our efforts to live authentically and in our search for home that place within ourselves that can so easily be neglected or disregarded in this fast paced modern world In the first half of life the task of the young traveler is to depart from home to adventure out into the world to find his or her own individual path However in the second half we find ourselves on what often amounts to a very long journey in search of home In many a tale the hero for instance Gilgamesh sets off on his road to find life's elixir while other stories such as the Odyssey revolve around the hero's long and arduous journey home Many are also familiar with the journey of Dante who at the very beginning of his Divine Comedy finds himself Midway along the journey of our life The archetypal journey of life is constantly reenacted in the never ending process of individuation We find ourselves returning to this venture repeatedly every night as we set out on our voyage into the landscape of our unconscious Many dreams begin by being on the way for instance I am on my way to I am driving on a road that leads into the desert I am walking through one room after the other in a long corridor like building I am walking towards

my office but it looks different than in reality I walk on the pavement and on the opposite side of the street someone seems to be following me I go down into an underground parking I am in my car but someone I don't know is driving I have to go to the place from where I came

Bearor, 2011-07-06 Artist Irene Rice Pereira was a significant figure in the New York art world of the 1930s and 1940s who shared an interest in Jungianism with the better known Abstract Expressionists and with various women artists and writers seeking archetypal imagery Yet her artistic philosophy and innovative imagery elude easy classification with her artistic contemporaries In consequence her work is rarely included in studies of the period and is almost unknown to the general public This first intellectual history of the artist and her work seeks to change that Karen A Bearor thoroughly re-creates the artistic and philosophical milieu that nourished Pereira's work She examines the options available to Pereira as a woman artist in the first half of the twentieth century and explores how she used those options to contribute to the development of modernism in the United States Bearor traces Pereira's interest in the ideas of major thinkers of the period among them Spengler Jung Einstein Cassirer and Dewey and shows how Pereira incorporated their ideas into her art And she demonstrates how Pereira's quest to understand something of the nature of ultimate reality led her from an early utopianism to a later interest in spiritualism and the occult This lively intellectual history amplifies our knowledge of a time of creative ferment in American art and society It will appeal to a wide range of readers interested in the modernist period
