Words For Silence A Year Of Contemplative Meditations:

Interdisciplinary Handbook of the Person-Centered Approach Jeffrey H. D. Cornelius-White, Renate Motschnig-Pitrik, Michael Lux, 2013-06-04 This book examines the scientific contribution and increasing relevance of the Person Centered Approach PCA in psychotherapy The direction taken in the book is to provide readers with a multidisciplinary and multi perspective view as well as practical applications Beyond the more conventional psychotherapy applications client centered experimental emotion focused child centered motivational interviewing existential filial etc others have evolved including peace and conflict resolution work encounter and T groups nonviolent communication parent effectiveness training person centered planning for people with disabilities relationship enhancement methods learner centered education technology enhanced learning environments human relations leadership training etc Simultaneously scientific disciplines were influenced by this perspective in less obvious ways Hence the major contribution of this book is to identify and characterize the key bridges so far only partly recognized between the PCA and several other disciplines Based on the results of the bridge building endeavor the editors will propose an initial formulation of the PCA as a meta theory It is intended as a generic framework to solve complex social problems and to stimulate further research and development concerning the human species in relationship to its environment *Words for Silence* Gregory Fruehwirth, 2008 Originating from weekly talks given to a contemplative community of monks and nuns the meditations in this book aim to help people surrender their lives to God **Contemplation and Freedom** Benedict R. Shoup, Mary Frohlich, 2025-04-22 How does prayer shape action How does sustained engagement in deep prayer shape our very freedom to act This volume explores the relationship between Christian contemplative prayer and the exercise of freedom Over the past half century the desire for a better integration of spirituality and theology has emerged as a significant theme in theological writing While the question of freedom has not been absent from this discourse this volume highlights it by bringing it to the very center of the conversation Eleven theologians explore the dialectical relationship between contemplation and freedom by engaging with a wide array of sources ranging from Maximus the Confessor to Edith Stein from Howard Thurman to Bernard Lonergan from the Tiberian martyrs to M Shawn Copeland This symphony of voices unveils the methodological fruitfulness of placing contemplative prayer at the center of life theory and practice *The Essential Wayne Dyer Collection* Dr. Wayne W. Dyer, 2013-09-24 The 1 New York Times best selling author Wayne Dyer has been inspiring people to change their lives for many years Now three of his most fascinating books are collected in this single volume *The Power of Intention* details Wayne's research on intention as a force in the universe that allows the act of creation to take place He explains that it is not something we do but rather an energy we're a part of This is the first book to look at intention as a field of energy that we can access to begin co-creating our lives *Inspiration* dissects feelings of emptiness the idea that there must be something more and trying to determine the meaning of life all evidence of a yearning to reconnect with our soul space This book explains how we've chosen to enter this

world of particles and form and each chapter is filled with specifics for living an inspired life From a very personal viewpoint Wayne offers a blueprint through the world of Spirit to inspiration our ultimate calling Excuses Begone reveals how to change the self defeating thinking patterns that have prevented us from living at the highest levels of success happiness and health Wayne presents many of the conscious and subconscious crutches most of us employ along with ways to cast them aside once and for all The old habituated ways of thinking will melt away as the absurdity of hanging on to them is exposed and we ultimately come to realize that there are no excuses worth defending ever The Essential Wayne Dyer Collection is a must read for those wanting to explore the power and potential of the human mind as well as anyone who is finally ready to live the best life possible

Contemplative Prayer at Work in Our Lives Geoff Colvin, 2021-05-24 While many practicing Christians are relatively satisfied with their prayer life others are not The latter often find their prayer practice has dried up Their traditional forms of prayer at churches have become routine and empty In a very real sense there is a void in their spiritual lives They want a deeper union with God yet experience an unsettling estrangement with their current pathway in prayer In *Contemplative Prayer at Work in Our Lives* Geoff Colvin draws on his own experiences studies of spiritual literature and participation in retreats and meditation groups to unravel the challenging practice of contemplative prayer a unique form of meditation involving very few words in silence and stillness Contemplative prayer centers on the fundamental belief that God dwells not only in the world at large but also at the center of our being This book offers Christians an approach for understanding contemplative prayer followed by hands on detail for developing and sustaining a practice that hopefully leads to a richer and fuller spiritual journey to union with God

The Power of Intention Dr. Wayne W. Dyer, 2010-10-01 Intention is a force in the universe and everything and everyone is connected to this invisible force Dr Wayne W Dyer has researched intention as a force in the universe that allows the act of creation to take place This beautiful edition of Wayne s international bestseller explores intention not as something we do but as an energy we re a part of We re all intended here through the invisible power of intention a magnificent field of energy we can access to begin co creating our lives Part I deals with the principles of intention offering true stories and examples showing how to make the connection Wayne identifies the attributes of the all creating universal mind of intention as kind loving beautiful expanding endlessly abundant and receptive emphasizing the importance of emulating this source of creativity In Part II he offers an intention guide with specific ways to apply the co creating principles in daily life Part III is an exhilarating description of Wayne s vision of an individual connected at all times to the universal mind of intention
