Call to Prayer

For when he heard that Archelaus was reigning over Judea in place of his father Herod, he resolved to go there. Then after being warmly welcomed, he left for the region of Galilee. - Matthew 2:1-23

After Christmas we sometimes read about the probable flight of Jesus' family into Egypt to get away from the murderous Herod the Great. Herod's report that the Kings should report Jesus' whereabouts during His birth is what God named Joseph His. And we give thanks that he was not slaughtered. And perhaps we engage in a vicarious sigh of relief when we learn that Herod was deluged that the family had been murdered from the land.

But when the circumstance changed, they did not really protest - just as we. Archelaus was not as cruel as his father. So God again named Joseph, who took the mother and child all the way to the Nazareth, well away from the on-going dangers around Jerusalem.

In recent months we have watched as Planned Parenthood has become a well-deserved society and industry and their hostile practices have become more and more and harder to deny with any believability. We have again as some abortion facilities have been closed. We have given thanks a public opinion across the country shifting more toward Pro-life.

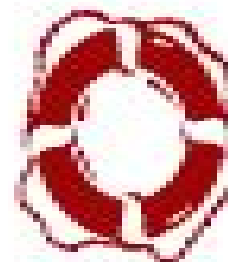

So as we pray in support of each other's Pro-life efforts and those in charge in their own mother's womb, let us remember a few important things:

- Thank God for governing authorities, some orders better than others (Romans 13).
- Trust only God's words governing authorities, even when they battle rights and wrongs, further trust we are Christ's somewhat mixed. God's Word is our only. Trust God to work all things for His glory and the blessing of His people.
- Pray for wisdom, boldness, and perseverance to take every opportunity to champion the Kingdom of our life-giving God, by evangelizing the lost and nurturing the believers, whatever decisions the governing authorities may make and whatever change may occur.
- Rejoice and keep asking God to keep doing amazingly wonderful things. We are not only praying for healing and song.

You Should Know This Elsie E. Strzyzowska, 2017-09-12 As you walk among people in every hierarchical and demographic circle it is unavoidable People are experiencing and feeling within themselves a numbness and tiredness that they never felt before They explain it as something indescribable but when they start chatting with each other it begins to sound eerily similar For example a common statement people are saying nowadays is Wow The months are flying by so fast I feel like it was just weeks ago we were celebrating New Years Eve Or Oh my goodness I feel so tired And I sleep eight hours daily Many people are experiencing today a flood of inconceivable worries fears and disasters I go many places and start a conversation with people and listen to their problems and emotions The majority of people are suffering silently inside and trying to convince others that all is well but it's not To compound it further there's extreme temptation of luring certain individuals into living a lifestyle that they simply can't afford Hope is disintegrating vanishing and being manipulated During the Great Depression back in the days people at least had hope in God The excessive broadcasting of the end of the world theme in films during the past decade is intentional Also the battle between good and evil is intensifying Why What you should know is there are many people who are trying to get your attention To divulge the truth Are you listening Or too busy with what you think is important or entertaining but in reality is not Exploring the What If's questions Christians avoid talking about Is living in denial and darkness the best way to survive on this Earth

Church Growth in African Diaspora Communities Paul Araoluwa Ayokunle,2025-03-31 As the centre of Christianity shifts towards Africa African migrants have become a significant source of Christian witness in the West and African diaspora congregations in the UK are springing up and multiplying In this ethnographically informed study Dr Paul Araoluwa Ayokunle explores the factors impacting the growth of three such African diaspora churches in Liverpool England His research identifies the challenges posed by hierarchical leadership styles and an unfamiliar and potentially hostile cultural context as well as the essential nature of ecclesiology one s theological understanding of the church and its calling in answering these challenges Ultimately he proposes a Yoruba based ecclesiology alongside an adaptive leadership model as a way forward for the African church to continue growing in its mission to be a light to the nations including to the once Christian West This book offers a powerful exploration of the richness of grassroots ecclesiology and the role of migration and contextualization in the spread of Christ s kingdom to all peoples and places **Finding God in All the Black Places** Beretta E.

influential mathematicians and the impact that their mystical beliefs had on their lives and on their mathematical work. Modern biographers often cleanse the lives of renowned scientists of any hint of mysticism or occultism. Such threads are sometimes regarded as relics of the superstitious past, flaws that need to be hushed up, marginalized or reinterpreted. This book represents a minor attempt to push back against this tendency and to examine these aspects of the history of mathematics with seriousness and intellectual curiosity.

Features: A breadth of scope covering many centuries. Suitable for anyone interested in mathematics, history, philosophy, paranormal phenomena, psi research, mysticism or in any combination of the above. An almost unique account of known histories examined from a new vantage point.

Sasho Kalajdzievski is a Senior Scholar in the Department of Mathematics at the University of Manitoba.
