Working With Alienated Children And A Clinical Guidebook:

Working With Alienated Children and Families Amy J. L. Baker, S. Richard Sauber, 2013-02-11 This edited volume is written by and for mental health professionals who work directly with alienated children and their parents. The chapters are written by leaders in the field, all of whom know how vexing parental alienation can be for mental health professionals. No matter how the professional intersects with families affected by alienation, be it through individual treatment, reunification therapy, a school setting or support groups, he or she needs to consider how to make proper assessments, how to guard against bias, and when and how to involve the court system among other challenges. The cutting edge clinical interventions presented in this book will help professionals answer these questions and help them to help their clients. The authors present a range of clinical options such as parent education, psycho-educational programs for children and reunification programs for children and parents that make this volume a useful reference and practical guide. **The Handbook of Child and Adolescent Clinical Psychology** Alan Carr, 2025-06-02 Now in its fourth edition, *The Handbook of Child and Adolescent Clinical Psychology* incorporates important advances in the field to provide a practice-oriented and accessible resource for clinical psychologists in training. Beginning with a set of general conceptual frameworks for practice, the book gives specific guidance on the management of problems commonly encountered in clinical work with children and adolescents, drawing on the best practice in the fields of clinical psychology and family therapy. There is comprehensive coverage of Problems of infancy and early childhood, Problems of middle childhood, Problems of adolescence, Child abuse, Adjustment to major life transitions including entering foster care, parental divorce and bereavement. Each chapter dealing with specific clinical problems includes cases, examples, discussion of diagnosis, classification, epidemiology, clinical features, assessment and treatment, and practice exercises. New material includes the latest advances in child and adolescent clinical psychology, assessment and treatment programmes, and positive psychology. It also is updated in line with the latest revisions of ICD and DSM. This book is invaluable as both a reference work for experienced practitioners and as an up-to-date evidence-based practice manual for clinical psychologists in training. *Surviving Parental Alienation* Amy J.L. Baker, PhD, Paul R. Fine, LCSW, 2014-04-04 Half of all marriages end, and when they do, most parents hope to achieve a good divorce in which they can amicably raise their children with their former spouse. Unfortunately, about 20% of divorces are high conflict, involving frequent visits to court, allegations of abuse, and chronic disagreements regarding parenting schedules. In response to this conflict, some children become aligned with one parent against the other, even a parent who has done nothing to warrant the hostile rejection of their formerly loving children. These targeted parents suffer from the loss of time with their children, the pain of watching their children become distant, even cruel, and the uncertainty of not knowing if and when their children will come back to them. These parents are on a painful journey with an uncertain outcome. *Surviving Parental Alienation* fills the tremendous need for concrete help for these parents. Too often, parental alienation stories that are shared by word of mouth

on the internet or in books depict unending pain and frightening outcomes Surviving Parental Alienation provides true stories and information about parents who have reconnected with their lost and stolen children and offers better insight and understanding into what exactly parental alienation is and how to handle it Targeted parents are desperate to be understood and to find cause for hope even as they search for answers Surviving Parental Alienation is where they can start to find this hope Overcoming Parent-Child Contact Problems Abigail M. Judge, Robin M.
