The Veil Urban S:

The Body in Asia Bryan S. Turner, Zheng Yangwen, 2009-11-01 The past few decades have seen growing interest in the study of the body However the increasing number of exciting and influential publications has primarily if not exclusively focused on the body in Western cultures The various works produced by Asian scholars remain largely unknown to Western academic debates even though Asia is home to a host of rich body cultures and religions The peoples of Asia have experienced colonization decolonization and now globalization all of which make the body in Asia a rewarding field of research This unique volume brings together a number of scholars who work on East Southeast and South Asia and presents original and cutting edge research on the body in various Asian cultures

He is Alive John S. Carpenter, 2019-02-08 When science set forth to explain the historical evidence and miraculous events attributed to the existence of Jesus it expected to find hoaxes a lack of evidence and nothing substantial to support a supernatural belief in God What skeptical scientists did discover actually validates the beliefs of Christians And what they could not explain also added even more support for Christian faith The historical accounts eyewitness testimonies and miraculous artifacts provide overwhelming proof that something supernatural and heavenly is in contact with mankind Join John Carpenter a psychiatric therapist on his logical investigation into the divine realm of miraculous evidence through the startled eyes of disbelieving medical and scientific researchers The amazing conclusions from their professional examinations suggest that Jesus Christ must truly be alive and impacting our lives today As with Carpenter s first book *Be Not Afraid to Follow the Footprints from Heaven* be not afraid of having your current assumptions about God challenged by this historical evidence now under the scrutiny of today s science Open your mind for this fascinating and inspirational journey

Religion, Politics and Gender in Indonesia Sonja van Wichelen, 2010-06-10 The political downfall of the Suharto administration in 1998 marked the end of the New Order in Indonesia a period characterized by 32 years of authoritarian rule It opened the way for democracy but also for the proliferation of political Islam which the New Order had discouraged or banned Many of the issues raised by Muslim groups concerned matters pertaining to gender and the body They triggered heated debates about women s rights female political participation sexuality pornography veiling and polygamy The author argues that public debates on Islam and Gender in contemporary Indonesia only partially concern religion and more often refer to shifting moral conceptions of the masculine and feminine body in its intersection with new class dynamics national identity and global consumerism By approaching the contentious debates from a cultural sociological perspective the book links the theoretical domains of body politics the mediated public sphere and citizenship Placing the issue of gender and Islam in the context of Indonesia the biggest Muslim majority country in the world this book is an important contribution to the existing literature on the topic As such it will be of great interest to scholars of anthropology sociology and gender studies

The Experimental City James Evans, Andrew Karvonen, Rob Raven, 2016-05-20 This book explores how the concept or urban experimentation is being used to reshape

practices of knowledge production in urban debates about resilience climate change governance and socio technical transitions With contributions from leading scholars and case studies from the Global North and South from small to large scale cities this book suggests that urban experiments offer novel modes of engagement governance and politics that both challenge and complement conventional strategies The book is organized around three cross cutting themes Part I explores the logics of urban experimentation different approaches and how and why they are deployed Part II considers how experiments are being staged within cities by whom and with what effects Part III examines how entire cities or groups of cities are constructed as experiments This book seeks to contribute a deeper and more socially and politically nuanced understanding of how urban experiments shape cities and drive wider changes in society providing a framework to examine the phenomenon of urban experimentation in conceptual and empirical detail Transactions of the St. Paul's Ecclesiological Society, 1905
