Lawrence Durrell's Poetry Isabelle Keller-Privat, 2019-04-25 This book offers the first in depth analysis of Lawrence Durrell's entire poetic opus from his early collections in the 1940s up to his last one published in 1973 Thirty years of Durrellian poetry are brought together in order to unveil the genesis of Durrell's writing both poetic and fictional drawing links to his novels and residence books which he kept writing at the same time Durrell thus appears as first and foremost one

of the greatest late modernist poets whose literary and epistemological investigations are to be understood in the light of a worldwide network of literary brotherhoods including T S Eliot Michael Fraenkel Henry Miller and David Gascoyne Simultaneously this book shows why Durrell must also be read as the heir to the greatest English romantic poets Byron Shelley Keats and Wordsworth as well as to the French symbolists and modernists from Baudelaire to Nerval Val ry and Cendrars This comparative approach opens up a brand new perspective on Durrell that has not yet been broached by North American and English scholarship The symbolic patterns the stylistic ploys and the aesthetic and philosophic tenets that characterize Durrell s poetics account for the necessary back and forth reading that connects prose and poetry the fictional and the lyrical the descriptive and the abstract Poetry excerpts extracts from his residence books novels and essays highlight not only Durrell s complex literary strategies but also the ontological quest of a writer who although never at home with the world he lived in strove to create a life world what semiologists call the Umwelt **Word, Image, and Deed in the Life of**

Knowing One's Place in Contemporary Irish and Polish Poetry Magdalena Kay,2012-02-23 Are we allowed to choose where we belong What pressures make us feel that we should belong somewhere This book brings together four major poets Heaney Mahon Zagajewski and Hartwig who ask themselves these questions throughout their lives They start by assuming that we can choose not to belong but know this is easier said than done Something in them is awry

leading them to travel emigrate and return dissatisfied with all forms of belonging. Writer after writer has suggested that Polish and Irish literature bear some uncanny similarities particularly in the 20th century but few have explored these similarities in depth. Ireland and Poland with their tangled histories of colonization place a large premium upon knowing one's place. What happens though when a poet makes a career out of refusing to know her place in the way her culture expects? This book explores the consequences of this refusal allowing these poets to answer such questions through their own poems leading to surprising conclusions about the connection of knowledge and belonging, roots and identity.

Nostalgic Rebels: Politics, Aesthetics, and Selfhood in Postcolonial Morocco Khalid Lyamlahy, 2025-05-23. Mohammed Kharr Eddine 1941-1995, Abdelkader Khatibi 1938-2009, and Abdellatif Laïbi 1942 are three of the most important francophone Moroccan writers to have emerged in the 1960s. Belonging to the Souffles generation named after the journal of culture and politics founded in 1966, they played a major role in cultural decolonization and the development of Moroccan literature. This book examines their works and legacy through the dual lenses of revolt and nostalgia. By weaving together comparative close readings of their writings with an analysis of the broader historical and political context in Morocco, the book demonstrates that these writers have used revolt and nostalgia to address state-sponsored violence, grapple with uncertainties about the writing process, and advance or revitalize their political and aesthetic projects. In doing so, this study traces a literary genealogy of political resistance, aesthetic subversion, and nostalgic reconstruction in postcolonial Morocco while offering a nuanced historical perspective that is closely attuned to the specificities of Moroccan postcoloniality and sensitive to individual trajectories and experiences. The book covers a wide range of literary genres including poetry, theater, prose, fiction, and autobiography, all analyzed through a distinctively Moroccan historical and cultural lens, providing new insights into Moroccan literature and the theories of revolt and nostalgia.

Spiritual Dimensions in the Music of Edmund Rubbra Lucinda Craddock, 2022-12-20. Edmund Rubbra's music has given him a reputation as a spiritual composer who had an interest in Eastern thought and a mid-life conversion to Roman Catholicism. This book takes a wide and detailed view of spiritual dimensions or strands that were important in his life, positioning them both biographically and within the context of contemporaneous English culture. It proceeds to interpret through detailed analysis the ways these spiritual aspects are reflected in specific compositions. Thematic treatment of these spiritual issues touching on Theosophy, dance, Eastern religions, and thought, nature, the evolutionary theory of Teilhard de Chardin, and the Christ figure presents a multi-faceted view of Rubbra's life and music. Its contribution to a scholarly re-evaluation of his place within twentieth-century British music and culture engages and meshes with several areas of current

scholarly research in the arts and humanities including academic interest in Theosophy modernism and the arts experimental dance and the Indian cultural renaissance and East West musical interactions of the late nineteenth and early twentieth centuries It also adds to a burgeoning body of writings on music and spirituality fuelled by the popularity of later twentieth century and contemporary composers who make more overt spiritual references in their music A History of Chinese Literature Zhang Longxi,2022-11-04 Zhang Longxi an internationally renowned scholar of Chinese and comparative literature is your guide to the three millennia long history of Chinese literature from the remote antiquity of oracle bones to contemporary works Professor Zhang charts the development of the major literary forms in Chinese including poetry prose song lyrics and plays and introduces the most famous poets and writers and their representative texts Taking a period based approach through the major dynasties he places these forms texts and authors within their historical contexts and tells the fascinating story of Chinese literature with copious examples in English translation He writes in a clear and accessible style and assumes no prior knowledge of Chinese history or Chinese literature This book is an ideal introduction for students and the general readers who want to get a broad but thorough overview of Chinese literature in all its richness and diversity
