Complicating the History of Western Translation Siobhán McElduff,Enrica Sciarrino,2014-04-08 As long as there has been a need for language there has been a need for translation yet there is remarkably little scholarship available on pre modern translation and translators This exciting and innovative volume opens a window onto the complex world of translation in the multilingual and multicultural milieu of the ancient Mediterranean From the biographies of emperors to Hittites scribes in the second millennium BCE to a Greek speaking Syrian slyly resisting translation under the Roman empire the papers in this volume fresh and innovative contributions by new and established scholars from a variety of disciplines including Classics Near Eastern Studies Biblical Studies and Egyptology show that translation has always been a phenomenon to be reckoned with Accessible and of interest to scholars of translation studies and of the ancient Mediterranean the contributions in Complicating the History of Western Translation argue that the ancient Mediterranean was a translational society even when paradoxically cultures resisted or avoided translation Indeed this volume envisions an expansion of the understanding of what translation is how it works and how it should be seen as a major cultural force Chronologically the papers cover a period that ranges from around the third millennium BCE to the late second century CE

geographically they extend from Egypt to Rome to Britain and beyond Each paper prompts us to reflect about the problematic nature of translation in the ancient world and challenges monolithic accounts of translation in the West

Power and Literature Florin Oprescu, 2018-08-21 At the core of this book lies the relation between Power as socio political phenomenon and the novel as literary discourse It shows that in a society facing the excess of power in its various forms novelistic fiction mediates knowledge about societal Power structures and uses specific strategies to subvert and denounce them The first part of the study is theoretical it presents some of the most prominent theories of Power from Plato Machiavelli Nietzsche to Weber Dahl Lukes Parsons Bourdieu or Foucault After offering a critical approach to the concepts of Power defined in the social political and philosophical fields it articulates the relations of Power imprinted in literary discourse within a typology of four categories In the second part of the book this taxonomy of Power is applied to four key novels in the context of Romanian literary crossroads showing how novelistic fiction not only assume a critical and subversive position against the excess of Power but also unveils our fragility when experiencing History

The Rustlers of Pecos County (Western Classic) Zane Grey,2024-01-09 In The Rustlers of Pecos County Zane Grey masterfully weaves an engaging tale set against the rugged backdrop of the American West The novel captures the spirit of frontier life with vivid descriptions and dynamic characters that embody themes of honor justice and the harsh realities of ranching Grey s narrative style is characterized by rich imagery and a flowing yet terse prose that evokes the vast landscapes and tumultuous emotions of its heroes and villains alike As a quintessential Western classic it not only entertains but also reflects the values and conflicts inherent in a rapidly changing America during the early 20th century Zane Grey an icon of American literature drew upon his deep love for the outdoors and his experiences as a pioneering writer in the Western genre Raised in Ohio and deeply influenced by his family s connection to the American West Grey devoted his life to capturing the essence of the frontier His passion for adventure and storytelling is evident in his extensive body of work which has colored the popular perception of the West for generations This novel is a must read for admirers of Western literature as it encapsulates the charm and grit of the genre that Grey helped define Readers will find themselves enthralled by the protagonist s quest for justice amidst rustlers and outlaws making this a timeless addition to any literary collection

Canon Shifts Talia Mercer,AI,2025-05-06 Canon Shifts explores the dynamic nature of literary canons revealing how these collections of esteemed works are shaped by cultural values and power dynamics rather than existing as timeless objective truths The book highlights how social justice movements have propelled shifts in canon formation advocating for greater

inclusion and representation of marginalized voices in literature. Notably, the text analyzes the historical construction of canons, demonstrating how social, political, and economic factors influence which works achieve canonical status. The study offers a unique blend of historical analysis, critical theory, and practical pedagogical strategies, providing educators with actionable guidance for creating inclusive learning environments. Beginning with an introduction to core concepts, the book progresses through detailed case studies, such as the rise of postcolonial literature, before culminating in strategies for educators to foster critically engaged classrooms. By integrating literary criticism, historical archives, and educational research, *Canon Shifts* provides a comprehensive understanding of the forces reshaping our literary landscape. **Scripture in Its Historical Contexts** James A. Sanders, 2018-10-29 In this important collection of essays, James A. Sanders offers his most significant work on the text and canon of the Hebrew Bible, along with his seminal studies of the Qumran Scrolls. He has been at the forefront of the study of canon formation, history of interpretation, and textual criticism, with specialty in the Dead Sea Scrolls and the use of the Old Testament in the New. These studies document the variety of textual traditions, as well as the diversity and unsettled incipient state of the collection of sacred literature that was regarded as authoritative or canonical in the late Second Temple period. They laid the foundation on which today's scholarly discussion is focused. **The Global Politics of Contemporary Travel Writing** Debbie Lisle, 2006-11-02 This book brings the serious world of politics to the superficial world of contemporary travel writing. **The Devil Knows Latin** E. Christian Kopff, 2014-05-27 *The Devil Knows Latin* is a provocative and illuminating examination of contemporary American culture. Its range is broad and fascinating. Whether discussing the importance of Greek and Latin syntax to our society, examining current trends in literary theory, education, and politics, or applying a classical perspective to contemporary films, Christian Kopff, Professor of Classics at the University of Colorado, is at home and on the mark. He outlines the perils and possibilities for America in the coming decades with learning and verve, demonstrating that the highway to a creative and free future begins as a Roman road. **Cinema Studies** Susan Hayward, 2000 In this second edition, essential guide, some 150 key genres, movements, theories, and production terms are explained and analysed with depth and clarity. **Artificial Whiteness** Yarden Katz, 2020-11-17 Dramatic statements about the promise and peril of artificial intelligence for humanity abound as an industry of experts claims that AI is poised to reshape nearly every sphere of life. Who profits from the idea that the age of AI has arrived? Why do ideas of AI's transformative potential keep reappearing in social and political discourse, and how are they linked to broader political agendas? Yarden Katz reveals the ideology embedded in the concept of artificial intelligence, contending that it both serves and mimics the logic of white supremacy. He demonstrates that understandings of AI as a field and a technology have shifted dramatically over time, based on the needs of its funders and the professional class that formed around it. From its origins in the Cold War military industrial complex through its present-day Silicon Valley proselytizers and eager policy analysts, AI has never been simply a technical project enabled by larger data and better computing. Drawing on intimate familiarity with the

field and its practices Katz instead asks us to see how AI reinforces models of knowledge that assume white male superiority and an imperialist worldview Only by seeing the connection between artificial intelligence and whiteness can we prioritize alternatives to the conception of AI as an all encompassing technological force Bringing together theories of whiteness and race in the humanities and social sciences with a deep understanding of the history and practice of science and computing Artificial Whiteness is an incisive urgent critique of the uses of AI as a political tool to uphold social hierarchies English Studies On This Side: Post-2007 Reckonings , Comparative Literature and Comparative Cultural Studies Steven Tötösy de Zepetnek,2003 Articles in this volume focus on theories and histories of comparative literature and the field of comparative cultural studies Contributors are Kwaku Asante Darko on African postcolonial literature Hendrik Birus on Goethe s concept of world literature Amiya Dev on comparative literature in India Marian Galik on interliterariness Ernst Grabovszki on globalization new media and world literature Jan Walsh Hokenson on the culture of the context Marko Juvan on literariness Karl S Y Kao on metaphor Kristof Jacek Kozak on comparative literature in Slovenia Manuela Mourao on comparative literature in the USA Jola Skulj on cultural identity Slobodan Sucur on period styles and theory Peter Swirski on popular and highbrow literature Antony Tatlow on textual anthropology William H Thornton on East West power politics in cultural studies Steven Totosy on comparative cultural studies and Xiaoyi Zhou and Q S Tong on comparative literature in China The papers are followed by an index and a bibliography of scholarship in comparative literature and cultural studies compiled by Steven Totosy Steven Aoun and Wendy C Nielsen
