American Fiction in the Cold War Thomas H. Schaub,1991 In American Fiction in the Cold War Thomas Hill Schaub makes it clear that Trilling s summary was in itself a mythic reconstruction a prominent example of the way liberal writers in the late 1940s and 1950s came to terms with their political past Schaub s book brilliantly analyzes their efforts to reshape an old liberalism alleged to hold naively optimistic views of human nature scientific reason and social progress into a new skeptical liberalism that recognized the persistence of human evil the fragility of reason and the ambiguity of moral decision Most important as American Fiction in the Cold War demonstrates these liberal reassessments of history politics human nature and destiny what Schaub calls the liberal narrative mediated the critical and imaginative production of the literary community after World War II Schaub shows that the elements of this narrative are visible in a wide spectrum of cultural

narratives in American history political philosophy and social criticism during the Cold War era His analysis of the dominant critical communities of the late 1940s led by critics such as Lionel Trilling and Irving Howe Cleanth Brooks and Allen Tate recovers the political meanings embedded within their debates over the nature of literary realism the definition of the novel and speculations on its death In the second part of his study Schaub turns to Ralph Ellison Flannery O Connor Norman Mailer and John Barth His readings of their fiction isolate the political and cultural content of works often faulted for their apparent efforts to transcend social history Reviewing John Barth s End of the Road for example he shows the politics of culture concealed within what seems to be a philosophical narrative In novel after novel he demonstrates the liberal narrative is operating from within tuning and steering the direction of the plot and the creation of the character Schaub s penetrating exploration of the relationship between U S political and social thought and the literary consciousness in the early postwar years will be of interest to intellectual historians and to students of American literary culture **Love and Death in the American Novel** Leslie A.
