plummet back in time across five billion years Readers are blown away by World Engines Destroyer The book quickly becomes epic in a massive yet thoroughly believable way precisely because the story is grounded in all of these well realised characters Goodreads reviewer It is a really good Cli Fi but not only ecological It touches on very many different topics that are very much in our future Goodreads reviewer It s a great sci fi novel well written and gripping I loved the amazing world building the fleshed out cast of characters and the plot Goodreads reviewer This is a complex book with a lot going on Suffice to say this was a fantastic read with a great story good characters a world that I would very much like to come back to Goodreads reviewer The large scale is always where Baxter is so exciting and passionate and it pays off in spades in the final act Worth your time to read and enjoy Goodreads reviewer If you love your science fiction hard look no further than Stephen Baxter to find your fix He was literally a rocket scientist His work is always grounded in science Goodreads reviewer

Hearthspace Stephen Baxter,2025-09-25 Thousands of years ago a massive colony ship arrived at the Hearth the celestial birthplace of millions of planets ranging from habitable earth like worlds to unimaginable hellscapes of pressure and heat Using lightsails to navigate humanity has spread itself across dozens of these worlds But they have also forgotten their beginnings where they came from and a terrible secret is about to be unveiled For Commander Ulla Breen on her first tour of duty aboard a patrol sail ship the universe is about to change around her Attacked by an unknown and unthought of enemy she and her fellow crewmembers will face slavery punishment and death and so will their home planets Because someone else has seen the richness of the inner Hearth and plans to take it for themselves A new enemy but one who seems disturbingly familiar And perhaps knows more about the history of the Hearth than even Ulla and her crew Faced with a complete upheaval of all she thought she knew Ulla must survive long enough to come up with a plan one which will unite all the disparate elements of the Hearth and perhaps discover the reason why humanity came to Hearthsace in the first place

World Engines: Creator Stephen Baxter,2020-08-20 Trapped on an alternate Earth the combined crews of a crashed Russian spaceship a British expeditionary force and a group of strays from the future must work together to survive escape and discover what led them to this point All are from parallel universes where small changes in history led to different realities and the tensions between the groups are rising But some changes were not small The solar system has been altered changed shaped in the various realities and the World Engineers unspeakably powerful completely unknown are still active Why have they populated this planet with humanity s ancestors and dinosaurs What is on the moon of Saturn that gives off such an odd light And even if they can be found can they be stopped and should they be Malenfant Deidra and the rest of their party must find a way off the planet back into space and into the many dimensions seeking the answer *Xeelee: Endurance* Stephen Baxter,2015-09-17 Return to the eon spanning and universe crossing conflict between humanity and the unknowable alien Xeelee in this selection of uncollected and unpublished stories newly edited and placed in chronological reading order From tales charting the earliest days of man s adventure to the stars to stories of Old Earth four billion years

in the future the range and startling imagination of Baxter is always on display As humanity rises and falls ebbs and flows one thing is always needed the ability to endure Contains eleven short stories and novellas     *Xeelee: Redemption* Stephen Baxter,2018-08-23 Michael Poole finds himself in a very strange landscape This is the centre of the Galaxy And in a history without war with the humans the Xeelee have had time to built an immense structure here The Xeelee Belt has a radius ten thousand times Earth s orbital distance It is a light year in circumference If it was set in the solar system it would be out in the Oort Cloud among the comets but circling the sun If it was at rest it would have a surface area equivalent to about thirty billion Earths But it is not at rest it rotates at near lightspeed And because of relativistic effects distances are compressed for inhabitants of the Belt and time drastically slowed The purpose of the Belt is to preserve a community of Xeelee into the very far future when they will be able to tap dark energy a universe spanning antigravity field for their own purposes But with time the Belt has attracted populations of lesser species here for the immense surface area the unending energy flows Poole Miriam and their party having followed the Ghosts must explore the artefact and survive encounters with its strange inhabitants before Poole at last finds the Xeelee who led the destruction of Earth     *The Thousand Earths* Stephen Baxter,2022-09-29 In 2145AD John Hackett s adventure is just beginning In Year 30 Mela s story is coming to a close Hackett in his trusty ship the Perseus is not just a space traveller beginning his travels with an expedition to Neptune and back but thanks to the time dilation effect a time traveller as well His new mission will take him to Andromeda to get a close up look at the constellation which will eventually crash into the Milky Way and give humanity a heads up about the challenges which are coming A mission which will take him five million years to complete Not only is Hackett exploring unknown space but he will return to a vastly different time Mela s world is coming to an end Erosion is eating away at the edges of every landmass first at a rate of ten metres a year but fast accelerating displacing people and animals as the rising Tide destroys everything in its path Putting more and more pressure on the people and resources which remain She and her people have always known that this long predicted end to their home one of the Thousand Earths is coming but that makes their fight to survive to protect each other no less desperate and no less doomed A beautiful page turning story which interweaves the tale of these two characters separated by both space and time in a hopeful exploration of humanities future this is Stephen Baxter at his best     *Xeelee: Vengeance* Stephen Baxter,2017-06-15 Half a million years in the future on a dead war ravaged world at the centre of the Galaxy there is a mile high statue of Michael Poole Poole born on Earth in the fourth millennium was one of mankind s most influential heroes He was not a warrior not an emperor He was an engineer a builder of wormhole transit systems But Poole s work would ultimately lead to a vast and destructive conflict a million year war between humanity and the enigmatic powerful aliens known as the Xeelee The Xeelee won but at a huge cost And defeated in a greater war the Xeelee eventually fled the universe Most of them A handful were left behind equipped with time travel capabilities their task to tidy up to reorder history more to the Xeelee s liking That million year war with humankind was one blemish It had to be

erased And in order to do that a lone Xeelee was sent back in time to remove Michael Poole from history      *Constructing Adolescence in Fantastic Realism* Alison Waller,2010-12-22 *Constructing Adolescence in Fantastic Realism* examines those fundamental themes which inform our understanding of the teenager themes that emerge in both literary and cultural contexts Models of adolescence do not arise solely from discourses of psychology sociology and education Rather these models frameworks including developmentalism identity formation social agency and subjectivity in cultural space can also be found represented symbolically in fantastic tropes such as metamorphosis time slip hauntings doppelgangers invisibility magic gifts and witchcraft These are the incredible supernatural and magical elements that invade the everyday and diurnal world of fantastic realism In this original study Alison Waller proposes a new critical term to categorize a popular and established genre in literature for teenagers young adult fantastic realism Though fantastic realism plays a crucial part in the short history of young adult literature up until now this genre has typically been overlooked or subsumed into the wider class of fantasy Touching on well known authors including Robert Cormier Melvin Burgess Gillian Cross Margaret Mahy K M Peyton and Robert Westall as well as previously unexamined writers Waller explores the themes and ideological perspectives embedded in fantastic realist novels in order to ask whether parallel realities and fantastic identities produce forms of adolescence that are dynamic and subversive One of the first studies to deal with late twentieth century fantastic literature for young adults this book makes a valuable contribution to our understanding of adult attitudes toward adolescent identity
