The Welsh In London 1500 2000:

The Welsh in London, 1500-2000 Emrys Jones, 2001 This work examines how the Welsh became absorbed into London's population yet retained aspects of Welsh culture from language to Eisteddfod through societies The study begins with the earliest contacts with the Welsh in Tudor London through the Anglicization of the gentry to conformity and renaissance of Welsh literature in the 18th century The book concludes with a series of essays noting the contributions of the London Welsh to various aspects of Welsh life and aspects of assimilation and acculturation with a view from Wales of the nature of the London Welsh migrant The main concern of the study is with the lives of migrants as a whole however the final chapter of the book deals more systematically with contributions to Welsh life through the achievements of individuals **Political**

Pamphlets and Sermons from Wales 1790-1806 Marion Löffler, 2014-10-15 Pamphleteering was a vital component of the popular political discussion opened up by the French Revolution of 1789 but while the English pamphlet wars have been exhaustively explored Welsh pamphlet literature has been ignored During the fifteen years following the French Revolution of 1789 over 100 Welsh pamphlets and sermons engaged in a public discourse which discussed the larger issues raised by the Revolution and the war against the French Republic This pioneering volume seeks to capture the excitement of the period by demonstrating how radicals and loyalists Dissenters Methodists and Churchmen pacifists and warmongers engaged in a lively argument in their published works An in depth essay reviews and interprets texts written by artisans Dissenting ministers country curates and Anglican bishops who all used religion as politics promoted war or peace argued over republicanism and loyalism and utilized the law as a stage for political ideas All texts are fully translated and thus made accessible to an English speaking audience for the first time Wales in England, 1914-1945 Wendy Ugolini, 2024 The first

Willy Maley, 2016-04-01 Shakespeare and Wales offers a Welsh correction to a long standing deficiency It explores the place of Wales in Shakespeare's drama and in Shakespeare criticism covering ground from the absorption of Wales into the Tudor state in 1536 to Shakespeare on the Welsh stage in the twenty first century Shakespeare's major Welsh characters Fluellen and Glendower feature prominently but the Welsh dimension of the histories as a whole The Merry Wives of Windsor and Cymbeline also come in for examination The volume also explores the place of Welsh identified contemporaries of Shakespeare such as Thomas Churchyard and John Dee and English writers with pronounced Welsh interests such as Spenser Drayton and Dekker This volume brings together experts in the field from both sides of the Atlantic including leading practitioners of British Studies in order to establish a detailed historical context that illustrates the range and richness of Shakespeare's Welsh sources and resources and confirms the degree to which Shakespeare continues to impact upon Welsh culture and identity even as the process of devolution in Wales serves to shake the foundations of Shakespeare's

Francis Watkins and the Dollond Telescope Patent Controversy Brian Gee, edited by Anita McConnell, 2016-04-15 Francis Watkins was an eminent figure in his field of mathematical and optical instrument making in mid eighteenth century London Working from original documents Brian Gee has uncovered the life and times of an optical instrument maker who at first glance was not among the most prominent in his field In fact because Francis Watkins came from a landed background the diversification of his assets enabled him to weather particular business storms discussed in this book where colleagues without such an economic cushion were pushed into

bankruptcy or forced to emigrate He played an important role in one of the most significant legal cases to touch this profession namely the patenting of the achromatic lens in telescopes The book explains Watkins s origins and how and why he was drawn into partnership with the famous Dollond firm who at that point were Huguenot incomers The patent for the achromatic telescope has never been satisfactorily explained in the literature and the author has gone back to the original legal documents never before consulted He teases out the problems lays out the evidence and comes to some interesting new conclusions showing the Dollonds as hard headed and ruthless businessmen ultimately extremely successful The latter part of the book accounts for the successors of Francis Watkins and their decline after over a century of successful business in central London
