The Winding Passage Sociological Essays And Journeys:

The Winding Passage Daniel Bell, 1991-01-01 This collection brings together Daniel Bell's best work in essay form. It deals with a variety of topics: technology and culture, religion and personal identity, intellectuals and their societies, and the uses and abuses of doctrines of social class. The Winding Passage demonstrates the author's continuing concern with the salient issues of our times while its inspiration draws upon an older humanistic sociological tradition. The Winding Passage Daniel Bell, 1980 **The Winding Passage** Daniel Bell, 1980 *Winding Passage* Anthony Bell, 1981-10-15

Sociological Journeys Daniel Bell, 1980 Twentieth Century Music and the Question of Modernity Eduardo de la Fuente, 2010-09-13 In the first decade of the twentieth century many composers rejected the principles of tonality and regular beat. This signaled a dramatic challenge to the rationalist and linear conceptions of music that had existed in the West since the Renaissance. The break with tonality, Neo-Classicism, serialism, chance, minimalism, and the return of the sacred in music are explored in this book for what they tell us about the condition of modernity. Modernity is here treated as a complex social and cultural formation in which mythology, narrative, and the desire for re-enchantment have not completely disappeared. Through an analysis of Schoenberg, Stravinsky, Boulez, and Cage, the author shows that the twentieth-century composer often adopted an artistic personality akin to Max Weber's religious types of the prophet and priest, ascetic and mystic. Twentieth Century Music and the Question of Modernity advances a cultural sociology of modernity and shows that twentieth-century musical culture often involved the adoption of apocalyptic temporal narratives, a commitment to musical revolution, a desire to explore the limits of noise and sound, and finally redemption through the rediscovery of tonality. This book is essential reading for those interested in cultural sociology, sociological theory, music history, and modernity/modernism studies.

A God of One's Own Ulrich Beck, 2014-11-05 Religion posits one characteristic as an absolute faith. Compared to faith, all other social distinctions and sources of conflict are insignificant. The New Testament says, "We are all equal in the sight of God." To be sure, this equality applies only to those who acknowledge God's existence. What this means is that alongside the abolition of class and nation within the community of believers, religion introduces a new fundamental distinction into the world: the distinction between the right kind of believers and the wrong kind. Thus overtly or tacitly, religion brings with it the demonization of believers in other faiths. The central question that will decide the continued existence of humanity is this: How can we conceive of a type of inter-religious tolerance in which loving one's neighbor does not imply war to the death, a type of tolerance whose goal is not truth but peace? Is what we are experiencing at present a regression of monotheistic religion to a polytheism of the religious spirit under the heading of a God of one's own? In Western societies where the autonomy of the individual has been internalized, individual human beings tend to feel increasingly at liberty to tell themselves little faith stories that fit their own lives, to appoint Gods of their own. However, this God of their own is no longer the one and only God who presides over salvation by seizing control of history and empowering his followers to

be intolerant and use naked force **The Great American Mission** David Ekbladh, 2011-08-28 The Great American Mission traces how America's global modernization efforts during the twentieth century were a means to remake the world in its own image David Ekbladh shows that the emerging concept of modernization combined existing development ideas from the Depression He describes how ambitious New Deal programs like the Tennessee Valley Authority became symbols of American liberalism's ability to marshal the social sciences state planning civil society and technology to produce extensive social and economic change For proponents it became a valuable weapon to check the influence of menacing ideologies such as Fascism and Communism Modernization took on profound geopolitical importance as the United States grappled with these threats After World War II modernization remained a means to contain the growing influence of the Soviet Union Ekbladh demonstrates how U S led nation building efforts in global hot spots enlisting an array of nongovernmental groups and international organizations were a basic part of American strategy in the Cold War However a close connection to the Vietnam War and the upheavals of the 1960s would discredit modernization The end of the Cold War further obscured modernization's mission but many of its assumptions regained prominence after September 11 as the United States moved to contain new threats Using new sources and perspectives The Great American Mission offers new and challenging interpretations of America's ideological motivations and humanitarian responsibilities abroad Veblen's Century Irving Horowitz, 2017-07-28 Thorstein Veblen has a place of honor reserved for truly important figures Economist iconoclast social critic and moral judge of the American way of life he has continued to attract the attention of students and scholars alike People from every spectrum of political thought and every branch of the social sciences have been drawn to his work sometimes in praise other times in criticism but always with a sense of measuring what Veblen said and often how he said it Veblen was in the final analysis an anthropologist of America as an advanced culture as much a figure of the young twentieth century of America triumphant as Tocqueville was a figure of the young nineteenth century of America ascending We share with Veblen a sense of the observer peering at the complex foundation of behavior whether such behavior is defined in terms of attitudes toward work and leisure wealth and poverty and finally global war and peace An examination of the contributors to the Veblen literature in this masterful volume serves to make clear just how vital Veblen was and remains to our cultural landscape Whether the reader selects from or reads all of the statements by David Riesman Douglas Dowd Max Lerner E Digby Baltzell Wesley Clair Mitchell C Wright Mills Daniel Bell and the other outstanding participants in Veblen's Century the pulsating vitality of Veblen himself is well captured Indeed a little bit of Veblen is encapsulated in and by his commentators Veblen's Century originated as a project initiated in 1974 by Professor Horowitz to reissue the entire corpus of Veblen's writings in new editions with introductions written expressly with this larger purpose of bringing the master of economic theory to the attention of a new generation That the project took more than a quarter century to complete is indicative of the care with which each new essay is crafted In addition with Transaction being identified as the home of

Knowledge Capitalism Nico Stehr,2022-06-01 In his newest book Stehr builds on his classic book Knowledge Societies 1994 to expand the concept toward one of knowledge capitalism for a now much changed era It is not only because of the onset of the Covid 19 pandemic that we are living in a new epoch it is the idea that modern societies increasingly constitute comprehensive knowledge societies under intensive capitalism whereby the legal encoding of knowledge through national and international law is the lever that enables the transformation of the knowledge society into knowledge capitalism The Trade Related Aspects of Intellectual Property Rights agreement negotiated between 1986 and 1994 as part of the World Trade Organization is the backbone of the modern society and marks a clear historical demarcation and although knowledge capitalism is primarily an economic development the digital giants who are in the driver s seat have significant effects on the social structure and culture of modern society

In 1905 a young Jewish immigrant from Luxembourg founded an electrical supply shop in New York This inventor writer and publisher Hugo Gernsback would later become famous for launching the first science fiction magazine *Amazing Stories* in 1926 But while science fiction s annual Hugo Awards were named in his honor there has been surprisingly little understanding of how the genre began among a community of tinkerers all drawn to Gernsback s vision of comprehending the future of media through making In *The Perversity of Things* Grant Wythoff makes available texts by Hugo Gernsback that were foundational both for science fiction and the emergence of media studies Wythoff argues that Gernsback developed a means of describing and assessing the cultural impact of emerging media long before media studies became an academic discipline From editorials and blueprints to media histories critical essays and short fiction Wythoff has collected a wide range of Gernsback s writings that have been out of print since their magazine debut in the early 1900s These articles cover such topics as television the regulation of wireless radio war and technology speculative futures media archaeological curiosities like the dynamophone and hypnobioscope and more All together this collection shows how Gernsback s publications evolved from an electrical parts catalog to a full fledged literary genre *The Perversity of Things* aims to reverse the widespread misunderstanding of Gernsback within the history of science fiction criticism Through painstaking research and extensive annotations and commentary Wythoff reintroduces us to Gernsback and the origins of science fiction **Community, Faith, and**

Resistance Sk Sagir Ali,2024-11-28 This book looks at texts produced before and after 9 11 by novelists with Muslim backgrounds in Britain It delves into the ways in which the politics of representation have changed in the wake of 9 11 and highlights the conflicts that arise in these coming of age narratives between the demands of a liberal individualist lifestyle and those of community family and faith Drawing on the works of Salman Rushdie Hanif Kureishi Nadeem Aslam Qaisra Shahraz Leila Aboulela Robin Yassin Kassab Zia Haider Rahman and Ahdaf Soueif *Community Faith and Resistance* discusses
