**Vorspiel einer Philosophie der Zukunft** Friedrich Nietzsche, Karl Löwith, 1959 Die hier gebotene Auswahl aus dem Nachlass legt das Gewicht auf diejenigen Bruchstücke Abhandlungen und Vorträge welche ein deutliches Verhältnis zu Nietzsches Gesamtkonzeption haben P 7 **Karl Löwith's View of History: A Critical Appraisal of Historicism**

Riesterer, 2012-12-06 This brief survey of Professor Karl Löwith's analysis of the modern historical consciousness is the outgrowth of a year's study at the University of Heidelberg while Professor Löwith was still an active member of the faculty An early version in the form of a dissertation was submitted to the History Department of Wayne State University Detroit Michigan U S A Numerous friends and colleagues have helped me at various stages of this work and I am indebted to them even though I cannot name them all individually However special thanks must be accorded to Professor W J Bos senbrook of Wayne State University for introducing me to the entire problem of anti historicism and to Professor Löwith's work I am also greatly indebted to Professor John Barlow of Indiana University for his patient assistance with the translations however the final responsibility for all renditions rests of course solely with the author **Heidegger and Jaspers on Nietzsche** R.L.

Howey, 2012-12-06 GENERAL PROBLEMS IN NIETZSCHE INTERPRETATION Every philosopher presents special problems of interpretation With Nietzsche these problems are especially crucial The very richness of Nietzsche's thought and expression becomes a trap for the incautious or imaginative mind Perhaps the greatest temptation for the interpreter of Nietzsche is to attempt to systematize his thought into a consistent whole Any such attempt necessarily results in distortion for there is a fluidity in Nietzsche's thought which does not lend itself to strict categorization This is not to deny that there are certain organic patterns in his philosophy These patterns emerge however as Jaspers correctly insists only upon careful critical comparison of pertinent passages drawn from the entire corpus of Nietzsche's works No single passage can be taken as a definitive statement of Nietzsche's views of any particular subject Frequently by presenting two or three especially relevant quotations from the author being considered the correctness of his interpretation With Nietzsche a critic can support however such a procedure is inadequate for in many cases other passages can be found which will support an alternative if not opposite interpretation Nor is this difficulty alleviated by vast compilations of relevant passages for then one could gain just as much and quite likely more from re-reading Nietzsche's works themselves **Comparative**

**Vandalism** Peter Shield, 2018-10-26 First published in 1998 this volume is a study of Asger Jorn's attempt to formulate the first complete revision of the existing philosophical system from the standpoint of the artist in the period 1961-67 The Danish artist Asger Jorn 1914-73 painter draftsman potter and sculptor was one of the most prominent figures of his generation in Europe His characteristic paintings were spontaneous using energetic brushstrokes splashing and spotting with a wide ranging palette Jorn's eclectic intellect absorbed an astonishing range of influences and involved him in many causes including an ambitious programme to re-publish with commentary material vital to Scandinavian cultural history He was also

a founder member of Cobra 1948-51 and subsequently several other international groupings which coalesced in 1957 in the setting up of the Situationist International with French and Italian writers and artists Fascinated by the philosophical debate on the position of the artist in contemporary life and the artist's relationship to the past Jorn broke with the Situationist International in 1961 over the issue of whether an artist is an instigator of cultural change or only an instrument of political change For the next four years he committed himself to a first complete revision of the existing philosophical system with the intention of placing the artist at the centre Many of his ideas were first tried out in French in various Situationist publications and have since stirred considerable debate His much more comprehensive texts in Danish of 1961-67 have never been made available in English In *Comparative Vandalism* Peter Shield offers the first detailed study of Jorn's revision of modern philosophy exploring the origins and formulation of his ideas The book includes colour and black and white reproductions chosen from his mature work to illustrate the connection between his writing and painting **Weimarer**
