Light and Obscurity in Symbolism Deborah Cibelli, Rosina Neginsky, 2016-01-14 The idea of light and darkness is one of the central ideas of the Symbolist movement since this is a movement of contrasts It encompasses the major themes of Symbolism such as good and evil beauty and ugliness the visible and the invisible and the divine and the earthly This volume brings together a range of studies in order to understand the notion of light and darkness and a variety of its Symbolist interpretations It also stresses the interdisciplinary nature of the concepts of light and darkness in Symbolism as well as the cohabitation and symbiosis of both which are together or separately at the core of this movement **Menno Simons 500**
