**Presenter's Resource Guide**, 2001 **Creating Big Presence in Presentations** Wayne Keinick, 2016-02-25 Even though most people have never heard of Glossophobia almost all of us have experienced it at least to some degree Fear of public speaking is something most of us have suffered from at some point in our lives and many of us never get past it This explains why so many books have been written to help us cope with the crippling anxiety giving presentations can inspire But what about not only delivering but being fully present at the front of the room while countless eyes look to you for information and leadership and actually performing well Visualizing a naked audience and repeatedly practising your speech from start to finish can only take you so far That's where *Creating Big Presence in Presentations* comes in Building upon the foundation of long standing and accepted public speaking wisdom Wayne Keinick takes an in depth look at the twin concepts of purpose and presence adapting mindfulness in such a way so as to help presenters be fully aware within the parameters of a presentation situation and enable them to adjust and adapt without missing a beat or panicking if things start to go off script Keinick's simple explanations and adoptable methods will quickly have the most mediocre public speakers creating real bonds with their audience and capturing their attention from beginning to end **The Reluctant Presenter** Meghan
