Pratchett,2012-06-07 Bestselling fedora sporting multi award winning Knight of the Realm creator of worlds and one of the most popular British authors on the planet Terry Pratchett is not so much a writer as a one man publishing phenomenon who has single handedly re shaped the world of fantasy fiction satirised everything from religion to Hollywood been adapted for stage and screen and proven beyond all doubt that a wizard's staff does indeed have a knob on the end SFX's Outstanding Contribution Award From Snuff Vimes prompt arrival got a nod of approval from Sybil who gingerly handed him a new book to read to Young Sam Vimes looked at the cover The title was The World of Poo When his wife was out of eyeshot he carefully leafed through it Well okay you had to accept that the world had moved on and these days fairy stories were probably not going to be about twinkly little things with wings As he turned page after page it dawned on him that whoever had written this book they certainly knew what would make kids like Young Sam laugh until they were nearly sick The bit about sailing

down the river almost made him smile But interspersed with the scatology was actually quite interesting stuff about septic tanks and dunnakin divers and gongfermors and how dog muck helped make the very best leather and other things that you never thought you would need to know but once heard somehow lodged in your mind

Subcreation: Fictional-World Construction from J.R.R. Tolkien to Terry Pratchett and Tad Williams Stefanie Schult, 2017-01-26 The doctoral thesis argues that the term Subcreation with its revised and broadened definition in part differing from J R R Tolkien s original term sub creation may be used for the discussion of the making of fictional worlds in literary discourse The successful conception of a fictional world depends on the reader s willing suspension of disbelief This depends both on the author and his skilled composition of the world and all its aspects as well as on the reader s acceptance of this invented fictional world The author needs to create a narrative with an inner consistency which is crucial to achieving the effect of the reader s immersion in the fictional world The fundamental aspects that an author needs to realize to achieve successful Subcreation have been structured into and analysed in four categories Language and Linguistic Variation Physiopoeia Anthropoeia and Mythopoeia Furthermore this thesis shows that as contemporary examples of fantastic literature both Tad Williams s and Terry Pratchett s fictional worlds are successfully created through the realization of these aspects of Subcreation Apart from commenting on the success of the subcreative process this thesis also remarks upon the cultural influences both authors include in their writings While both may be considered Anglophone in a general categorization Pratchett s Discworld retains a feeling of Britishness that is not to be found in Williams s Otherland The thesis proposes several approaches to Subcreation that may be studied subsequently So for example it may be possible to determine the success of an author s Subcreation by collecting empirical data Apart from literary works this field of studies may also include other media
